ORR MARLEE

The Bankers Who Broke the World Wentworth Press

Marc Vitrac was born in Louisiana in the early 1960's, about the time the first interplanetary probes delivered the news that Mars and Venus were teeming with life—even human life. At that point, the "Space Race" became the central preoccupation of the great powers of the world. Now, in 1988, Marc has been assigned to Jamestown, the US-Commonwealth base on Venus, near the great Venusian city of Kartahown. Set in a countryside swarming with sabertooths and dinosaurs, Jamestown is home to a small band of American and allied scientist-adventurers. But there are flies in this ointment – and not only the Venusian dragonflies, with their yard-wide wings. The biologists studying Venus's life are puzzled by the way it not only resembles that on Earth, but is virtually identical to it. The EastBloc has its own base at Cosmograd, in the highlands to the south, and relations are frosty. And attractive young geologist Cynthia Whitlock seems impervious to Marc's Cajun charm. Meanwhile, at the western end of the continent, Teesa of the Cloud Mountain People

leads her tribe in a conflict with the Neanderthal-like beastmen who have seized her folk's sacred caves. Then an EastBloc shuttle crashes nearby, and the beastmen acquire new knowledge... and AK47's. Jamestown sends its long-range blimp to rescue the downed EastBloc cosmonauts, little suspecting that the answer to the jungle planet's mysteries may lie there, among tribal conflicts and traces of a power that made Earth's vaunted science seem as primitive as the tribesfolk's blowguns. As if that weren't enough, there's an enemy agent on board the airship... Extravagant and effervescent, The Sky People is alternate-history SF adventure at its best. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Lords of the Sky Vintage

The Time Lords are an immensely civilised, and immensely powerful, race. Yet we know very little about them, save that they can live forever (barring accidents) and possess the secrets of space and time travel. Their history has been shrouded in myth and mystery. Until now. A Brief History of Time Lords unlocks the secrets of this ancient, legendary alien race - a civilisation that inflicted some of its most notorious renegades and criminals on the universe, but was also the benevolent power that rid the cosmos of its most fearsome enemies. Drawn from the ancient records of

Gallifrey, and handed down from generation to generation, this remarkable book reveals the Time Lords in all of their guises: pioneers and power-mad conspirators, time-travellers and tyrants, creators and destroyers. Be careful who you share it with.

The First Book of Moses, Called Genesis Le vie della Cristianità

A revelatory look at the separation of church and state in America—from the New York Times bestselling author of The Great Influenza For four hundred years, Americans have fought over the proper relationships between church and state and between a free individual and the state. This is the story of the first battle in that war of ideas, a battle that led to the writing of the First Amendment and that continues to define the issue of the separation of church and state today. It began with religious persecution and ended in revolution, and along the way it defined the nature of America and of individual liberty. Acclaimed historian John M. Barry explores the development of these fundamental ideas through the story of Roger Williams, who was the first to link religious freedom to individual liberty, and who created in America the first government and society on earth informed by those beliefs. This book is essential to understanding the continuing debate over the role of religion and political power in modern life.

LITTLE LORDS OF CREATION Open Road Media Books

"The story of the immense financial and corporate expansion which took place in the United States between the depression of the eighteen-nineties and the crisis of the nineteen-thirties."--Preface.

Laudato Si' Open Road Media

Imagine, if you can, the world of business - without corporate strategy. Remarkably, fifty years ago that's the way it was. Businesses made plans, certainly, but without understanding the underlying dynamics of competition, costs, and customers. It was like trying to design a large-scale engineering project without knowing the laws of physics. But in the 1960s, four mavericks and their posses instigated a profound shift in thinking that turbocharged business as never before, with implications far beyond what even they imagined. In *The Lords of Strategy*, renowned business journalist and editor Walter Kiechel tells, for the first time, the story of the four men who invented corporate strategy as we know it and set in motion the modern, multibillion-dollar consulting industry: Bruce Henderson, founder of Boston Consulting Group Bill Bain, creator of Bain & Company Fred Gluck, longtime Managing Director of McKinsey & Company Michael Porter, Harvard Business School professor Providing a window into how to think about strategy today, Kiechel tells their story with novelistic flair. At times inspiring, at times nearly terrifying, this book is a revealing account of how these iconoclasts and the organizations they led revolutionized the way we think about business, changed the very soul of the corporation, and transformed the way we work.

Lords of the North Harper Collins

Do you know what the image of the antichrist is? Do you know what the symbolism of the number 666 of the antichrist means? When Jesus writes the letters to the churches in Revelation, He is writing to us now. Do you understand what He is expecting in us? Do you know what is His view of an overcomer in Him? Come, learn the great adventure of knowing what the symbolism is in this great book of the Bible. Understand God's ways for us in Jesus Christ so that when the counterfeit spirit shows up, you won't be deceived and fall prey to Satan's dark ways. Learn from the Holy Spirit to see through the darkness with His discernment.

Lords of Creation Simon and Schuster

Angus Wells carved a place for himself on the shelves of hundreds of thousands of fantasy readers. Now, with *Lords Of The Sky*, it is clear that he has saved his most sweeping and imaginative tale for an epic more powerful than anything he has written before. For centuries, the Dhar have had to face the Ahn, fierce warriors who would lay claim to Dharbek, the land they call their ancestral home. Now, in fantastic airships powered by magic, the Ahn have begun their greatest campaign yet. In preparation for the coming onslaught, Storymen like Daviot travel the land collecting tales and sharing the history it's their responsibility to safeguard. But Daviot's travels show him the dark side of Dharbek, and inspire him to be a catalyst for change, to overcome doubt and fear, and pursue the one dream that has eluded Dharbek. Using his special gifts for storytelling and world-building, Angus Wells reaches new heights with a story as ambitious as it is broad in scope. *Lords Of The Sky* has all the action, adventure and magic a fantasy-lover could desire, and tackles social change, prejudice, the value of genuine friendship and the power of enduring love.

Earth Lords Spectra

Being assassinated once may be an accident. Being assassinated twice is enemy action. Aeneas Tell of the House of Tell is one of the youngest Lords of Creation. More gods than men, the Lords of

Creation have cheated Death itself. But even a quasi-immortal god will take exception to being assassinated. Twice.

The Mythic and Heroic Sagas of the Kiches of Central America Penguin

Earth is long since dead. On a colony planet, a band of men has gained control of technology, made themselves immortal, and now rules their world as the gods of the Hindu pantheon. Only one dares oppose them: he who was once Siddhartha and is now Mahasamatman. Binder of Demons. Lord of Light.

Wired Love Scala Books

The only true and unedited telling of the life of Christ—his life and times, in historical context, but not lacking the psychology behind his physical being and spirit. Unlike other books seeking to strip Jesus' story to reveal only the human being, Romano Guardini's *The Lord* gives the complete story of Jesus Christ—as man, Holy Ghost, and Creator. Pope Benedict XVI lauds Guardini's work as providing a full understanding of the Son of God, away from the prejudice that rationality engenders. Put long-held myths aside and discover the entire truth about God's only begotten Son. **Answer to Lords of Creation** White Wolf Pub

"In this highly controversial book, Margaret Cook undertakes a fascinating study of the patterns of behaviour of men in power throughout history. The results are alarming: the demeanour of elected rulers, tyrants and military leaders bears astonishing similarities and converges on a dangerous path towards egocentrism and iron control, spreading mayhem along the way. Lord Acton stated that power tends to corrupt, but Margaret Cook concludes that it actually causes men to revert to primitive patterns of conduct." - dustjacket.

The Lord Harvard Business Press

Laudato Si' 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

A Study of the Book of Revelation Grove/Atlantic, Inc.

From master language creator David J. Peterson, creator of *Game of Thrones'* (HBO) Dothraki

language, comes a creative guide to language construction. Peterson begins with a brief history of constructed languages, from Tolkien's creations to Klingon to the thriving global community of language construction. Then, using examples from a variety of languages including his own creations, Peterson offers a captivating and lucid overview, providing a basic foundation of essential linguistic tools for inventing and evolving one's own lexicon.

The Lords and The New Creatures Random House

"The New York Times bestselling business journalist Christopher Leonard infiltrates one of America's most mysterious institutions--the Federal Reserve--to show how its policies over the past ten years have accelerated income inequality and put our country's economic stability at risk"--InterVarsity Press

While paleontologist David Albee struggles to protect his remarkable discovery of live dinosaur eggs, the alien architects of life on the planet rush to Earth to make contact, armed with the secrets to the origins of the universe. Original.

The Secret Intellectual History of the New Corporate World Penguin

A collection of essays honoring the biblical scholar Ben C. Ollenburger on the topic of the Bible and creation, the subject of much of Ollenburger's scholarly career.

Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Lords of Creation Simon and Schuster

Winner of the Pulitzer Prize "Erudite, entertaining macroeconomic history of the lead-up to the Great Depression as seen through the careers of the West's principal bankers . . . Spellbinding, insightful and, perhaps most important, timely." —Kirkus Reviews (starred) "There is terrific prescience to be found in [Lords of Finance's] portrait of times past . . . [A] writer of great verve and erudition, [Ahamed] easily connects the dots between the economic crises that rocked the world during the years his book covers and the fiscal emergencies that beset us today." —The New York Times It is commonly believed that the Great Depression that began in 1929 resulted from a confluence of events beyond any one person's or government's control. In fact, as Liaquat Ahamed reveals, it was the decisions made by a small number of central bankers that were the primary cause of that economic meltdown, the effects of which set the stage for World War II and reverberated for decades. As we continue to grapple with economic turmoil, *Lords of Finance* is a potent reminder of the enormous impact that the decisions of central bankers can have, their fallibility, and the terrible human consequences that can result when they are wrong.

The History of America's 1 Percent Simon and Schuster

Once again the incomparable Gore Vidal interprets and animates history -- this time in a panoramic tour of the 5th century B.C. -- and embellishes it with his own ironic humor, brilliant insights, and piercing observations. We meet a vast array of historical figures in a staggering novel of love, war, philosophy, and adventure . . . "There isn't a page of CREATION that doesn't inform and very few pages that do not delight." -- John Leonard, *The New York Times*
