 sustained throughout the Coburn Series: that of laying a firm
 foundation, building a solid framework, and providing strong
 connections. Precalculus by John W. Coburn
 Sheldon Axlers
 Precalculus focuses only on topics that students actually need to
 succeed in calculus. Because of this, Precalculus is a very
 manageable size even though it includes a student solutions
 manual. The book is geared towards courses with intermediate
 algebra prerequisites and it does not assume that students
 remember any trigonometry. It covers topics such as inverse
 functions ...
