* "A gripping account of PayPal's origins and a vivid portrait of the geeks and contrarians who made its meteoric rise

possible" (The Wall Street Journal)—including Elon Musk, Amy Rowe Klement, Peter Thiel, Julie Anderson, Max Levchin, Reid Hoffman, and many others whose stories have never been shared.

"Deeply reported and bracingly written, this book is an indispensable guide to modern innovation and entrepreneurship."
—Walter Isaacson, New York Times bestselling author of Code Breaker Today, PayPal's founders and earliest employees are considered the

technology industry's most powerful network. Since leaving PayPal, they have formed, funded, and advised the leading companies of our era, including Tesla, Facebook, YouTube, SpaceX, Yelp, Palantir, and LinkedIn, among many others. As a group, they have driven twenty-first-century innovation and entrepreneurship. Their names stir passions; they're as controversial as they are admired. Yet for all their influence, the story of where they first started has gone largely

untold. Before igniting the commercial space race or jumpstarting social media's rise, they were the unknown creators of a scrappy online payments start-up called PayPal. In building what became one of the world's foremost companies, they faced bruising competition, internal strife, the emergence of widespread online fraud, and the devastating dot-com bust of the 2000s. Their success was anything but certain. In *The Founders: The Story of PayPal and the Entrepreneurs Who*

Shaped Silicon Valley, award-winning author and biographer Jimmy Soni explores PayPal's turbulent early days. With hundreds of interviews and unprecedented access to thousands of pages of internal material, he shows how the seeds of so much of what shapes our world today—fast-scaling digital start-ups, cashless currency concepts, mobile money transfer—were planted two decades ago. He also reveals the stories of countless individuals who were left out of the

front-page features and banner headlines but who were central to PayPal's success. Described as “an intensely magnetic chronicle” (*The New York Times*) and “engrossing” (*Business Insider*), *The Founders* is a story of iteration and inventiveness—the products of which have cast a long and powerful shadow over modern life. This narrative illustrates how this rare assemblage of talent came to work together and how their collaboration changed our world forever.

Ron Williams combined and applied his study of Biblical truths concerning fitness and nutrition with today's science to become

the world's most decorated natural bodybuilder. In *Faith and Fat Loss*, these timeless, proven revelations become reality for permanent fat loss and body transformation. By applying the physical and spiritual principles found in this book you will experience the body that seemed unattainable in the past.

[How to Solve Rubik's Cube](#) Jimmy Patterson Alexander M nninghoff tells the unforgettable tale of the fifth World Chess Champion. Filling a

gap in the literature of chess, he shows that Euwe's world title was the result of his iron will, his methodical drive and his energetic handling of all aspects of the game. By bringing his world title under the aegis of the world chess federation FIDE, Euwe profoundly changed the history of chess, and it was Euwe's diplomatic determination as President of FIDE that saved the Match of the Century in 1972 between Bobby Fischer and Boris Spassky. This gripping story is illuminated by

numerous photos and fifty games with the original annotations by Max Euwe.

Leon's back. Having survived the sweatshop methods of Miss Hagemeyer, his needle-wielding fourth grade teacher at the Classical

School, Leon braces himself for fifth grade. He arrives armed with a backpack full of pens and pencils, binders and notebooks . . . plus a rag doll that's the spitting image of Henry Lumpkin, the bully who has Leon in his sights. If the doll works the way it's supposed to, Leon (and his buddies P.W. and Lily-Matisse) won't have to worry about Lumpkin the Pumpkin! Better still, Leon has a fabulous new teacher, Mr. Sparks, who conducts science experiments using that most

miraculous of research materials -- the potato chip. And a good thing, too. Mr. Sparks's lab work will come in handy when Leon is forced to take on Alphonse "The Chippopotamus" Cipollini at the annual Chipapalooza! Chip-Off. Once you've sunk your teeth into Leon and the Champion Chip, the hilarious sequel to Leon and the Spitting Image, you'll never eat potato chips the same way again!

A group biography of
seven enduring and
beloved games, and the
story of why—and
how—we play them.
Checkers, backgammon,
chess, and Go. Poker,
Scrabble, and bridge.
These seven games,
ancient and modern,
fascinate millions of
people worldwide. In
Seven Games, Oliver
Roeder charts their origins

and historical importance,
the delightful arcana of
their rules, and the ways
their design makes them
pleasurable. Roeder
introduces thrilling
competitors, such as
evangelical minister
Marion Tinsley, who
across forty years lost
only three games of
checkers; Shusai, the
Master, the last Go
champion of imperial
Japan, defending tradition
against “modern
rationalism”; and an IBM
engineer who created a
backgammon program so
capable at self-learning

that NASA used it on the
space shuttle. He delves
into the history and lore of
each game: backgammon
boards in ancient Egypt,
the Indian origins of
chess, how certain shells
from a particular beach in
Japan make the finest
white Go stones. Beyond
the cultural and personal
stories, Roeder explores
why games, seemingly
trivial pastimes, speak so
deeply to the human soul.
He introduces an early
philosopher of games, the
aptly named Bernard
Suits, and visits an Oxford
cosmologist who has

perfected a computer that can effectively play bridge, a game as complicated as human language itself. Throughout, Roeder tells the compelling story of how humans, pursuing scientific glory and competitive advantage, have invented AI programs better than any human player, and what that means for the games—and for us. Funny, fascinating, and profound, *Seven Games* is a story of obsession, psychology, history, and how play makes us

human. *An Athlete's Guide to Mental Toughness* Arrow At bedtime, Stella must find a way to make her toys fall asleep before she can go to sleep. *Independent Reading 14* Harper Collins Boxing might not have survived the 1930s if not for Max Baer. A contender for every heavyweight championship 1932-1941, California's "Glamour Boy" was a draw for promoters during the Great Depression, bringing back the "million-dollar gate" not seen since the 1920s.

His radio voice sold millions of Gillette razor blades; his leading-man appeal made him a heartthrob in *The Prizefighter and the Lady* (1933). The film was banned in Nazi Germany—Baer had worn a Star of David on his trunks when he TKOed German former champ Max Schmeling. Baer defeated 275-pound Primo Carnera in 1934 for the championship, losing it to Jim Braddock the next year. Contrary to *Cinderella Man* (2005), Baer—favored 10 to

1—was not a villain and the fight was more controversial than the film suggested. His battle with Joe Louis three months later drew the highest gate of the decade. This first comprehensive biography covers Baer's complete ring record (adding 70 new bouts), his early life, his career on radio, film, stage and television, and his World War II Army service. [Montrose official guide](#) Simon and Schuster Max is mad about sport. As he gets up, has breakfast and heads off to

school, he is dreaming of competing in world class sporting events. In his real day, he and his class win the school football match and, in his imagination, he and his friends are winning the World Cup. This is a lively and fun approach to sport, and a very inclusive picture book showing disabled children and children without disabilities enjoying different sports together in a natural way. The sports include football, rugby, athletics, cricket, diving, discus throwing and cycling.

Little, Brown Books for Young Readers

A children's book about self-esteem and faith in God. Hello, My Name Is Max offers young readers an opportunity to see the world through the eyes and a young champion that associates his success to his faith in being a son of God. *Seven Games: A Human History* Permuted Press New York Times Bestseller: This true Depression-era story of a down-and-out fighter's dramatic comeback is "a

delight” (David Halberstam). James J. Braddock was a once promising light heavyweight. But a string of losses in the ring and a broken right hand happened to coincide with the Great Crash of 1929—and Braddock was forced to labor on the docks of Hoboken. Only his manager, Joe Gould, still believed in him. Gould looked out for the burly, quiet Irishman, finding matches for Braddock to help him feed his wife and children. Together, they were about to stage the

greatest comeback in fighting history. Within twelve months, Braddock went from being on the relief rolls to facing heavyweight champion Max Baer, renowned for having allegedly killed two men in the ring. A brash Jewish boxer from the West Coast, Baer was heavily favored—but Braddock carried the hopes and dreams of the working class on his shoulders, and when he emerged victorious against all odds, the shock was palpable—and the cheers were

deafening. In the wake of his surprise win, Damon Runyon dubbed him “Cinderella Man.” Against the gritty backdrop of the 1930s, Cinderella Man brings this dramatic all-American story to life, telling a classic David and Goliath tale that transcends the sport. “A punchy read with touches of humor.” —The New York Times “A wonderful, thrilling boxing story, and simultaneously a meticulous look at Depression life.” —Jimmy Breslin
