A practical step-by-step guide to the art and science of building brands without the fluffy nonsense and BS. As one of the author's clients put it, "Forget the touchy-feely stuff. This is the real deal."This book describes in detail the breakthrough BrandMechanics(r) proprietary FBE(tm) methodology based on a simple step-by-step process for creating a powerful brand strategy and includes many examples, across dozens of market categories, of how to get it right and avoid getting it wrong.For the first time in print, the author reveals the secrets behind the remarkable process that has generated hundreds of thousands of dollars in revenue from clients in the U.S., U.K., Europe, Asia and Canada, including Disney, Toyota/Scion, Visa, AOL, Boston Consulting Group, Miller Brewing, City of San Jose, McDonald's, Hewlett-Packard, Accenture, Tomb Raider/Lara Croft, Mandalay Bay Resort & Casino, Pentax Cameras and many others.Also revealed is the shocking truth about the many high-priced advertising and digital agencies, design studios and consulting firms who charge their clients small fortunes for brand strategy development while regularly outsourcing the work and paying a fraction of what they charge, and often delivering an "immersion" in the brand without actually defining its Essence.This book is a must-read for anyone involved in the marketing and branding business - from Fortune 500 CEOs to students considering a career in the industry.

This innovative work provides a state-of-the-art overview of current thinking about the development of brand strategy. Unlike other books on branding, it approaches successful brand strategy from both the producer and consumer perspectives. "The Science and Art of Branding" makes clear distinctions among the producer's intentions, external brand realities, and consumer's brand perceptions - and explains how to fit them all together to build successful brands. Co-author Sandra Moriarty is also the author of the leading Principles of Advertising textbook, and she and Giep Franzen have filled this volume with practical learning tools for scholars and students of marketing and marketing communications, as well as actual brand managers. The book explains theoretical concepts and illustrates them with real-life examples that include case studies and findings from large-scale market research. Every chapter opens with a mini-case history, and boxed inserts featuring quotes from experts appear throughout the book. "The Science and Art of Branding" also goes much more deeply than other works into the core concept of brand equity, employing new measurement systems only developed over the last few years.

Cases include the Wounded Warriors Project, Sweet Briar College, 4-H, Housing First, the Chan-Zuckerberg Initiative, the National Audubon Society, and an expanded study of governance issues at the Hershey Trust. Expanded discussions of risk management offer new insights on developing strategy, building capacity, and managing risk. An updated chapter on fundraising includes information on the Tax Cuts and Jobs Act passed in December 2017, which has implications for charitable giving. New references at the end of every chapter guide readers to relevant cases in the Appendix, making it easy for instructors to incorporate the cases into classroom discussions.

'Finally, a Handbook of Advertising that brings the field up-to-date. I am impressed with its comprehensive coverage of topics and the distinguished specialists who have shared their key findings with us' - Philip Kotler, Kellogg School of Management
'When trying to make sense of the mystifying world of advertising, academics and practitioners often seem to inhabit separate universes. Not in this Handbook. For once, the best brains from each side genuinely collude - with constructive results. Wise agencies will read it before their clients do' - Sir Martin Sorrell, CEO, WPP
'This mighty tome brings together a vast range of views of advertising based on deep experience and scholarship. For practitioners and academics alike, it will be a voyage of discovery and enlightenment' - Lord (Maurice) Saatchi, Chairman, M&C Saatchi
'This magnificent volume captures all we need to know about how advertising works and its context' - Baroness (Peta) Buscombe, Director General, Advertising Association, London

This far reaching and scholarly Handbook is edited by two highly respected and trusted thinkers in the field and includes contributions from leading academics based in both the UK and the USA. Tim Ambler and Gerald J Tellis archive their aim of setting advertising and the theory that underpins it in its historical and societal context, show-casing the most significant advertising research questions of our time and pointing readers in the direction of future avenues
