American Reference Books Annual (ARBA) is an essential tool, not
only for libraries, but for reference book publishers as well (we at
Book News would not be without it), and is cited in BCL3, Sheehy,
and Walford. This five-year cumulative index provides access by
subject, title, and author to reviews of the 9,284 reference works
covered in the last five volumes of ARBA. In addition to being
used to locate reviews, the index also serves as an analytical tool
for collection evaluation and development and acquisitions.
