As U.S. and Canadian automakers and dealers face bankruptcy and/or unprecedented downsizing, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 35 years, pulls no punches. This compendium of everything that's new in cars and trucks is packed with feedback from Canadian drivers, insider tips, internal service bulletins, and confidential memos to help the consumer select what's safe, reliable, and fuel-frugal. Know all about profit margins, rebates, and safety

defects. And when things go wrong, fight back! Lemon-Aid's complaint tactics, sample letters, Internet gripe sites, and winning jurisprudence will get you attention — and a refund!

*Ebony* Edmunds Publications

Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car-and-truck book on the market. "Dr. Phil," along with George Iny and the Editors of the Automobile Protection Association, pull no punches.

This book contains the papers presented at the IMechE and SAE International, Vehicle Thermal Management Systems Conference (VTMS10), held at the Heritage Motor Centre, Gaydon, Warwickshire, 15-19th May 2011. VTMS10 is an international conference organised by the Automobile Division and the Combustion Engines and Fuels Group of the IMechE and SAE International. The event is aimed at anyone involved with vehicle heat transfer, members of the OEM, tier one suppliers, component and software suppliers, consultants, and academics interested in all areas of thermal energy management in vehicles. This vibrant conference, the tenth VTMS, addresses the latest

analytical and development tools and techniques, with sessions on: alternative powertrain, emissions, engines, heat exchange/manufacture, heating, A/C, comfort, underhood, and external/internal component flows. It covers the latest in research and technological advances in the field of heat transfer, energy management, comfort and the efficient management of all thermal systems within the vehicle. Aimed at anyone working in or involved with vehicle heat transfer Covers research and technological advances in heat transfer, energy management, comfort and efficient management of thermal systems within the vehicle

As a little girl, author Brenda Prater Sellers traipsed around Prater Flats in Louisville, Tennessee, thinking she was Ansel Adams with her first, clunky, black-and-white Polaroid that didn't work half the time. The love of that camera and the unknown turned her into not only an overzealous wannabe photographer but into a Southern, Mountain Dew-driven, M&M eating, adrenaline-seeking adventurer, skydiver, and climber of Mount Everest. In *You Slept Where?* she shares her story about a businesswoman who is also a wife, mother, and a farmer's daughter pursuing a childhood dream of being published in National Geographic, while coping with life's struggles of her parents' eldercare. Sellers also tells about her experiences and mishaps in bizarre locations and staying at the world's most unique places: an underwater hotel, an ice hotel, sleeping with polar bears, or sleeping in wigwams along Route 66. Imagine the movies *Miss Congeniality* meets *National Lampoon's Vacation* in her version of *Planes, Trains and*

Automobiles. With cost-saving travel tips and other advice included, *You Slept Where?* provides insight into one woman's crazy adventures while encouraging others to create their own bucket list.
