Model Course 3.13: SAR Administration (IAMSAR Manual, Volume

1) IMO Publishing

This model course aims to assist instructors in the design and delivery of Port Facility Security officer (PFSO) training courses by: Linking the knowledge required to competently perform the duties and responsibilities of a PFSO, as identified in MSC.1/Circ.1188, Guidelines on Training and Certification for Port Facility Security Officers (22 May 2006), to the relevant guidance material contained in the Guide to Maritime Security and the ISPS Code, 2012 Edition; and identifying opportunities to increase the level of knowledge in certain key areas of responsibility
Proficiency in Fast Rescue Boats IMO Publishing

This model course is intended to provide the knowledge required to enable personnel without designated security duties in connection with a Port Facility Security Plan (PFSP) to enhance

security in accordance with the requirements of Chapter XI-2 of SOLAS 74 as amended, the ISPS Code, the IMDG Code, the IMO/ILO Code of Practice on Security in Ports, and guidance contained in IMO MSC.1/Circ.1341. Successful trainees should contribute to the enhancement of maritime security through heightened awareness and the ability to recognize security threats and respond appropriately.

Model Course 2.02: Maritime Search and Rescue Co-ordinator Surface Search + Compendium IMO Publishing

This model course aims to assist instructors in the design and delivery of Port Facility Security officer (PFSO) training courses by: Linking the knowledge required to competently perform the duties and responsibilities of a PFSO, as identified in MSC.1/Circ.1188, Guidelines on Training and Certification for Port Facility Security Officers (22 May 2006), to the relevant guidance material contained in the Guide to Maritime Security and the ISPS Code, 2012 Edition; and identifying opportunities to increase the level of knowledge in certain key areas of responsibility

Model Course 1.17: Basic Stability Martinus Nijhoff Publishers
Electronic navigation, although still relatively new, is becoming increasingly more common, particularly on commercial vessels. This handbook offers a wealth of detailed information about how different charting systems operate and answers the most commonly asked questions regarding electronic charts (ENC, RNC, DNC) and electronic chart systems (ECD)

Model Course 5.04: Human Resources Management: Course + Compendium CRC Press

This course provides training for officers and ratings. It comprises a basic training programme appropriate to their duties, including

oil and chemical tanker safety, fire safety measures and systems, pollution prevention, operational practice and obligations under applicable laws and regulations. The course takes full account of section A-V/1-1 of the STCW Code adopted by the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers as amended, including the Manila amendments 2010

International Organizations and the Law of the Sea IMO Publishing

This course should be taken by every prospective seafarer. It covers training in personal survival techniques and is based on the provisions of table A-VI/1-1 of the STCW Code.

Model Course 3.11: Safety Investigation Into Marine Casualties and Marine Accidents IMO Publishing

This course covers the training recommendations in annex 3 to the IMO Assembly resolution A.703(17) - Recommendation on Training of Radio Operators related to the Restricted Operator's Certificate (ROC). The course is revised to meet the relevant regulations of the STCW Code and the 2012 Radio Regulations of the International Telecommunication Union.

Hearing Before the Subcommittee on Coast Guard and Maritime Transportation of the Committee on Transportation and Infrastructure, House of Representatives, One Hundred Fifth Congress, Second Session, June 25, 1998 IMO Publishing

There are two sections in the revised IMO model course on Maritime English: - (1) Core section 1: General Maritime English (GME), and (2) Core section 2: Specialized Maritime English (SME), both of which contain a number of detailed teaching syllabi. GME means that the first stage of Maritime English

instruction could be general. SME means that the second stage of Maritime English instruction could be maritime-specific.

Medical care IMO Publishing

This course should be taken by every prospective seafarer. It covers training in personal survival techniques and is based on the provisions of table A-VI/1-1 of the STCW Code.

Port Facility Security Officer IMO Publishing

This course provides training for officers and ratings. It comprises a basic training programme appropriate to their duties for liquefied gas tanker safety, fire safety measures and cargo systems, pollution prevention, safe operational practice and obligations under applicable laws and regulations. The course takes full account of section A-V/1-2 of the STCW Code adopted by the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers as amended, including the Manila amendments 2010.

Training Course for Instructors IMO Publishing

Now in its eighth year, the NILOS Documentary Yearbook provides the reader with an excellent collection of documents related to ocean affairs & the law of the sea, issued each year by organizations, organs & bodies of the United Nations system. Documents of the UN General Assembly, ECOSOC & its regional Commissions, the UN Secretary-General's Informal Consultations, PrepCom ISA/ITLOS, UNCED, UNEP & UNCTAD are included first, followed by the documents of specialized agencies & other autonomous organizations of the UN system, including FAO, IAEA, ILO, IMO, UNESCO/IOC & WMO. As in the previous volumes, documents which were issued in the course of 1992 are reproduced, while other relevant documents are listed. In view of

the explosive proliferation of developments as a result of the UNCED, Volume 8 contains a Special Report by co-editor Barbara Kwiatkowska on the Ocean-Related Impact of Agenda 21 on International Organizations of the UN System in Follow-Up to the Rio Summit. For the reader's convenience, a Chronological Table of Selected Ocean-Related Post-Rio UN Meetings & Conferences up to the year 2000 is annexed to this Special Report. An extensive Index of Keywords facilitates access by the reader to the complex matters dealt with by organizations covered by the Yearbook, as well as to the information concerning individual states, regions & international instruments. The editors have been guided in the preparation of this unique collection by several outstanding experts, members of the Yearbook's Advisory Board, including the Yearbook's inventor Ambassador Shabtai Rosenne, & Judge Andres Aguilar Mawdsley, Edward Brown, Günther Jaenicke, Douglas Johnston, Lee Kimball, Thomas Mensah, Judge Shigeru Oda, Francisco Orrego Vicuna, Tullio Treves. The NILOS Documentary Yearbook has proved to be of invaluable assistance in facilitating access by the community of scholars & practitioners in ocean affairs & the law of the sea to essential documentation. The entry into force of the 1992 UN Law of the Sea Convention on 16th November 1994 & progress in the implementation of Chapter 17 of Agenda 21, make continuation of this assistance of particular significance in the years to come.

This course combines two important aspects of modern shipping; care for the marine environment and the importance of human performance. The course is intended to give trainees knowledge of the importance and diversity of the marine environment as well as understanding and awareness of the impacts of shipping activities on the (marine) environment. The course will stimulate personal responsibility to use solutions that contribute to environmentally sound shipping.
