Sing and Sing On BookRix

This book is the first work to address the question of what kinds of words get borrowed in a systematic and comparative perspective. It studies lexical borrowing behavior on the basis of a world-wide sample of 40 languages, both major languages and minor languages, and both languages with heavy borrowing and languages with little lexical influence from other languages. The book is the result of a five-year project bringing together a unique group of specialists of many different languages and areas. The introductory chapters provide a general up-to-date introduction to language contact at the word level, as well as a presentation of the project's methodology. All the chapters are based on samples of 1000-2000 words, elicited by a uniform meaning list of 1460 meanings. The combined database, comprising over 70,000 words, is published online at the same time as the book is published. For each word, information about loanword status is given in the database, and the 40 case studies in the book describe the social and historical contact situations in detail. The final chapter draws general conclusions about what kinds of words tend to get borrowed, what kinds of word meanings are particularly resistant to borrowing, and what kinds of social contact situations lead to what kinds of borrowing situations.

 Wörterbuchkritik ist ein Teilgebiet der Kritischen Wörterbuchforschung, aber darüber hinaus auch ein Teil der Kultur- und Wissenschaftsgeschichte der Lexikographie. Wörterbuchkritik enthält kritische Betrachtungen zu Wörterbüchern, z.B. in Fachdiskussionen, in schriftlichen Besprechungen, in Rezensionen, in Pressemitteilungen oder in Sammelbänden, in denen sich verschiedene Autoren systematisch und themenspezifisch mit einem lexikographischen Werk auseinandersetzen. Dieser Sammelband zum Thema „Wörterbuchkritik - Dictionary Criticism“ enthält 17 deutsch- und englischsprachige Beiträge, in denen es um die Einbettung der Wörterbuchkritik in die Wörterbuchforschung, in die Funktionslehre, in die Benutzungsforschung und die Kultur- und Wissenschaftsgeschichte geht. Neben allgemeinen Kriterien für die Wörterbuchevaluation werden nach Wörterbuchtypen ausgerichtete Evaluationen, die Textsorte Wörterbuchkritik sowie die in der Wörterbuchkritik nützlichen und gebräuchlichen Methoden vorgestellt.

 This singular reference explores religion and spirituality as a vital, though often misconstrued, lens for building better understanding of and empathy with clients. A diverse palette of faiths and

traditions is compared and contrasted (occasionally with secularism), focusing on areas of belief that may inspire, comfort, or trouble clients, including health and illness, mental illness, healing, coping, forgiveness, family, inclusion, and death. From assessment and intervention planning to conducting research, these chapters guide professionals in supporting and assisting clients without minimizing or overstating their beliefs. In addition, the book's progression of ideas takes readers beyond the well-known concept of cultural competence to model a larger and more meaningful cultural safety. Among the topics included in the Handbook: Integrating religion and spirituality into social work practice. Cultural humility, cultural safety, and beyond: new understandings and implications for social work. Healing traditions, religion/spirituality, and health. Diagnosis: religious/spiritual experience or mental illness? Understandings of dying, death, and mourning. (Re)building bridges in and with family and community. Ethical issues in conducting research on religion and spirituality. The Handbook of Religion and Spirituality in Social Work Practice and Research is a richly-textured resource for social workers and mental health professionals engaged in clinical practice and/or research seeking to gain varied perspectives on how the religion and spirituality of their clients/research participants may inform their work.

In *Children of Hope*, Sandra Rowoldt Shell traces the lives of sixty-four Oromo children who were enslaved in Ethiopia in the late-nineteenth century, liberated by the British navy, and ultimately sent to Lovedale Institution, a Free Church of Scotland mission in the Eastern Cape, South Africa, for their safety. Because Scottish missionaries in Yemen interviewed each of the Oromo children shortly after their liberation, we have sixty-four structured life histories told by the children themselves. In the historiography of slavery and the slave trade, first passage narratives are rare, groups of such narratives even more so. In this analytical group biography (or prosopography), Shell renders the experiences of the captives in detail and context that are all the more affecting for their dispassionate presentation. Comparing the children by gender, age, place of origin, method of capture, identity, and other characteristics, Shell enables new insights unlike anything in the existing literature for this region and period. *Children of Hope* is supplemented by graphs, maps, and illustrations that

carefully detail the demographic and geographic layers of the children's origins and lives after capture. In this way, Shell honors the individual stories of each child while also placing them into invaluable and multifaceted contexts.

 Both women and men were leaders since ancient times; however, few female leaders are reported. Deborah is one of the powerful female leaders during the ancient Israel. This work explored the feminist expositions of the Old Testament in Africa, with focus on the context of the offices held by Deborah as narrated in the book of Judges Chapter 4 and 5. The exegetical part shed light onto the role played by the female leaders among the Israelites. The feminist paradigms in Judges 4 and 5 demonstrate how female characters in these chapters construct a way to disagree with what seems to oppress women and deny their leadership capability. The findings of this study determine that gender should not be perceived as having an effect on leadership in general.

 Vor der Epoche des (hoch-)imperialistischen Zugriffs auf Afrika war eine Reise in das Binnenland des Kontinents für Europäer ein risikoreiches Unterfangen. Dennoch nahmen gebildete Reisende seit der Mitte des 18. Jahrhunderts die Unsicherheiten eines Vorstoßes in Nordost-, West- oder Südafrika auf sich, um der interessierten gelehrten Öffentlichkeit in ihrer Heimat darüber berichten zu können. Sie publizierten umfassende Reisenarrationen, die zur Erweiterung des Wissens auf unterschiedlichsten Feldern beitragen sollten. Dabei bildete die individuelle Reiseerfahrung mit ihren spezifischen Verunsicherungen einen »roten Faden«, an den vielfältige Erkenntnisse angeknüpft wurden. Anke Fischer-Kattner geht den Spuren nach, die präkoloniale Reisende in der Verarbeitung ihrer Erlebnisse zu Wissen schaffenden Publikationen hinterließen. Dabei zeigt sich schon in den veröffentlichten Texten, dass die reisenden Europäer ihre Erfahrungen nicht allein kontrollierten. Sozio-kulturelle Prägungen und Vorgängerpublikationen gaben den Reisenden Themen vor, die sie in ihren Darstellungen individuell variierten. Insbesondere drei ausführlich präsentierte Fallbeispiele von Reisen ins äthiopische Hochland machen dabei jedoch deutlich, dass auch die »Anderen« in der Narration nicht nur Projektionsfläche waren. Afrikanerinnen und Afrikaner erscheinen hier als Charaktere mit eigener Handlungsmacht. Archivalisch erhaltene Aufzeichnungen der Reisen bieten ergänzende Einblicke in die konkreten Prozesse, in denen die Reisenden Erfahrungen zu Wissen verarbeiteten. Über theoretisch reflektierte Lesarten der erhaltenen Spuren von Selbst-Ver(un)sicherung gelingen schließlich Annäherungen an die Leerstelle der vergangenen Begegnung mit Fremden.

This book considers some of the substance and dissatisfaction of globalization on Africa. It illustrates globalization as a complex set of processes that involve shifting influence from local societies and countries in some areas while simultaneously endowing local societies and countries with influence in other areas.

From the Pharaohs to Fanon, *Dictionary of African Biography* provides a comprehensive overview of the lives of the men and women who shaped Africa's history. Unprecedented in scale, DAB covers the whole continent from Tunisia to South Africa, from Sierra Leone to Somalia. It also encompasses the full scope of history from Queen Hatsheput of Egypt (1490-1468 BC) and Hannibal, the military commander and strategist of Carthage (243-183 BC), to Kwame Nkrumah of Ghana (1909-1972), Miriam Makeba and Nelson Mandela of South Africa (1918 -).

Dies sind mehr als 1600 ausgewählte Hadithe aus dem Sahih Werk des Imam Al-Bukhari, möge Allah sich seiner erbarmen. Als Allah die segensreiche Kette Seiner Offenbarung mit der Herabsendung des Qur'an für allemal abschloss, machte Er uns mit allem Nachdruck auf die Verbindlichkeit der Sunna aufmerksam, indem Er die Großartigkeit des Prophetencharakters, dessen Vorbildlichkeit für uns, die Befolgung seiner Befehle und Gebote - und nicht zuletzt das Gefügigsein für seine Entscheidungen - betonte und ans Herz legte. Als eine der Quellensammlungen sind hier wesentliche Auszüge aus Buharys großer Sammlung wiedergegeben.

Pastoral care and its theology get a gentle boost from some of the best in the business of caring for the soul. When a person hurts, they often look to God. Several pathfinders give new light from their specialties, each one speaking powerfully, uniquely, and artfully from decades of experience. Dr. Amos Yong's article on disability forwards the amazingly helpful term, "temporarily able-bodied." Greek Orthodox Dr. Vasileios Themos and Roman Catholic Dr. Robert Fastigi enlighten next to the powerful testaments of Professor Godfrey Harold on South Africa and Dr. Samuel Yonas Deressa on Ethiopia. Each weathered author contributes universal insights into the grace of our great God and challenges pastors throughout the Christian world to kindly consider the heart of the afflicted. These finely hewn stones can be used by anyone in the ministry to sharpen their serve. Mattis and Maness offer this third collection from Testamentum Imperium with a prayer that these will open new avenues of sensitivity to the hearts and souls of those in travail and aid those who are called by God to serve those in pain.

In this book, Cinque takes a generative perspective on typological questions relating to word order and to the syntax of relative clauses. In particular, Cinque looks at: the position of the Head vis à vis the relative clause in relation to the position of the verb vis à vis his object; a general cross-linguistic analysis of correlatives; the need to distinguish a sentence-grammar, from a discourse-grammar, type of non-restrictives (with languages differing as to whether they possess both, one, the other, or neither); a selective type of extraction from relative clauses; and a tentative sketch of a more ample work in progress on a unified analysis of externally headed, internally headed, and headless relative clauses.

Presenting a continent-wide comparative analysis of ethnic, political, and colonially based insurgencies, this text examines the causes, tactics, outcomes, and key individuals of African insurgent events and assesses a range of foreseeable outcomes in Africa's multiple regions of continuing political instability.

Insurgencies continue to erupt in many nations of Africa. The techniques and intended purposes of today's insurgencies are evolutions of historical versions of insurgencies, long-standing strife among ethnic and political groups, and modern-era movements reflective of the ever-shrinking planet, leading to revolutions in the region. This book spans the African continent to address a diverse classification of insurgencies and revolutions, weaving them together thematically and enabling readers to make connections between their purposes, tactics, outcome, and impact. Providing researchers in African and security studies with a comprehensive body of work for further studies, this eminently readable work examines the many past and current insurgencies that have occurred in Africa, identifying their causes and predominantly common bases and rationales. Coauthored by an acclaimed scholar of African studies and a U.S. Marine Corps Lieutenant Colonel with a master's degree in national security and strategic studies, this single-volume book provides an in-depth examination into the drivers, actors, tactics, weapons, intended outcomes, and sweeping consequences of the many events in Africa that have overturned existing rule or implemented rule where none existed—and in a few cases, resulted in stabilization of a nation. Readers will better understand the causal, contextual, tactical, ideological, and philosophical factors that launch insurgencies through coverage of pre-colonial insurgencies; anti-colonial resistance and national liberation movements; separatist and irredentist movements; reformist, revolutionary, and Islamist insurgencies; and genocide, warlord, and proxy insurgencies. The book's last chapter discusses how insurgent movements might be prevented through better governance, or contained or defeated with diplomatic and/or military means.

Africa is a continent with an eventful history that currently has a population of more than 1.2 billion, in 54 recognized states. It is shaped by different cultures, languages and religions. Some of the states have gone through crises and conflicts, others are rooted in tradition and ancient customs, while yet others have opened up towards modern economic and socio-economic trajectories. Overall, Africa is currently confronting a number of serious problems. The continent is still facing tremendous challenges even today & in creating the conditions for a peaceful community, providing all citizens with access to education, medicine and hygiene care, and in improving housing and living conditions. In twelve chapters, Martin Welz presents Africa's remarkable diversity and calls into question clichés and stereotypes by focusing on African and non-African protagonists and structural conditions. Among other things, he vividly illustrates the stages that were involved in decolonization and their effects on today's societies. He describes external influences on Africa and the political characteristics and systems in the individual states. The author thus opens up a broad panorama over Africa's historically based situation and provides the reader with a rapid and well-founded overview of the current social and political situation on the entire continent. Horst Köhler (President of Germany, 2004&2010) commented on the book: "Martin Welz's book is like a mosaic: up close, you can see all the details and differences, ranging from geography and history to the formative personalities of the countries of Africa that were once shaped by colonial despotism. But when you finish the book and step back, you're able to see the major connections and structures. Anyone wanting to understand the history and politics of Africa since decolonization and get to know the diversity of the continent better should read this book."

African philosophy under the specific conditions of a colonial and postcolonial world is - at least since the 20th century if not even earlier - inherently intercultural. The aim and target of the volume

is to reveal, interrogate and analyse the intercultural dimension in African philosophy, and to critically interrogate the project of an intercultural philosophy from an African perspective. This volume is the first publication that explicitly discusses African philosophy as a challenge to the project of intercultural philosophy.

When the notion of 'alternative facts' and the alleged dawning of a 'postfactual' world entered public discourse, social anthropologists found themselves in unexpectedly familiar territory. In their empirical experience, fact—knowledge accepted as true—derives its salience from social mechanisms of legitimization, thereby demonstrating a deep interconnection with power and authority. In this perspective, fact is a continually contested and volatile social category. Due to the specific histories of their colonial and post-independence experience, African societies offer a particularly broad array of insights into social processes of juxtaposition, opposition, and even outright competition between different postulated authorities. The contributions to the present volume explore the variety of ways in which authority is contested in Southern and Eastern Africa, investigating localized discourses on which institution, what kind of knowledge, or whose expertise is accepted as authoritative, thus highlighting the specificities and pluralities in 'modern' societies. This edited volume engages with larger theoretical questions regarding power and authority in the context of (post)colonial states (neo)traditional authority, claiming space, conflict and (in)justice, and contestations of knowledge. It offers in-depth critical analyses of ethnographic data that put contemporary African phenomena on equal footing with current controversies in North America, Europe, and other global settings.

A sweeping history of Ethiopian musicians during and following the 1974 Ethiopian revolution. Sing and Sing On is the first study of the forced migration of musicians out of the Horn of Africa dating from the 1974 Ethiopian revolution, a political event that overthrew one of the world's oldest monarchies and installed a brutal military regime. Musicians were among the first to depart the region, their lives shattered by revolutionary violence, curfews, and civil war. Reconstructing the memories of forced migration, Sing and Sing On traces the challenges musicians faced amidst revolutionary violence and the critical role they played in building communities abroad. Drawing on the recollections of dozens of musicians, Sing and Sing On details personal, cultural, and economic hardships experienced by musicians who have resettled in new locales abroad. Kay Kaufman Shelemay highlights their many artistic and social initiatives and the ways they have offered inspiration and leadership within and beyond a rapidly growing Ethiopian American diaspora. While musicians held this role as sentinels in Ethiopian culture long before the revolution began, it has taken on new meanings and contours in the Ethiopian diaspora. The book details the ongoing creativity of these musicians while exploring the attraction of return to their Ethiopian homeland over the course of decades abroad. Ultimately, Shelemay shows that musicians are uniquely positioned to serve this sentinel role as both guardians and challengers of cultural heritage.
