Soulful Affirmations The Battle Cry Christian Ministries
 "A bold, ambitious and truly wonderful history of the world"—Peter Wohlleben, author of *The Hidden Life of Trees* From the age of dinosaurs to the first human cities, a groundbreaking new history of the planet that tropical forests made. To many of us, tropical forests are the domain of movies and novels. These dense, primordial wildernesses are beautiful to picture, but irrelevant to our lives. *Jungle* tells a different story. Archaeologist Patrick Roberts argues that tropical forests have shaped nearly every aspect of life on earth. They made the planet habitable, enabled the rise of dinosaurs and mammals, and spread flowering plants around the globe. New evidence also shows that humans evolved in jungles, developing agriculture and infrastructure unlike anything found elsewhere. Humanity's fate is tied to the fate of tropical forests, and by understanding how earlier societies managed these habitats, we can learn to live more sustainably and equitably today. Blending cutting-edge research and incisive social commentary, *Jungle* is a bold new vision of who we are and where we come from.

Content Warning - This book contains graphic sexual situations, mature language and explicit description of sexual violence. She was meant to be his destruction... A pawn played in a perilous game between father and son... Yet, her strength was more than either man could imagine. As Maddy learns to save herself... She becomes the one thing that could set the son free. Madeleine Clark was raised to become a concert cellist. Sheltered and naïve, she remains hidden behind her music, a protection from the world around her. On the night of her first solo performance, Maddy accepts the admiration of a stranger and finds herself captive in a cruel and twisted power struggle between a sadistic father and his son, Aaron. Seemingly dangerous and uncaring, Aaron manages the business operations of his father's estate. Wanting nothing to do with the slaves kept at the Estate, Aaron refuses to take part in the deeper depravities of his father. Despite his resistance, Aaron's father 'gifts' him with a petite, brunette woman he can't refuse. A bond forged in conspiracy and deceit, Aaron struggles to save Maddy by teaching her to survive in the world in which he'd been raised. An unlikely union, Aaron soon learns that great strengths can exist within small packages, while Madeleine learns that love and light can exist in the darkest of places. *Madeleine Abducted* is Book 1 of *The Estate Series*. Each book is a stand alone and will not have cliffhangers.

A mesmerizing storyteller, master teacher, and prolific author in his native country, he was ideally suited to bring the richness of the Sufi tradition to the West. The chapters of this book, skillfully edited and compiled by the psychologist and Sufi teacher Dr. Robert Frager, were derived from talks given during Sheikh Muzaffer's visits to New York and California over the last years of his life. Walden; or, Life in the Woods, by Henry David Thoreau, is a famous and influential reflection upon simple living in natural surroundings. The work is part personal declaration of independence, social experiment, voyage of spiritual discovery, satire, and manual for self-reliance. First published in 1854, it details Thoreau's experiences in a cabin he built near Walden Pond, amidst woodland owned by his friend and mentor Ralph Waldo Emerson, near Concord, Massachusetts. By immersing himself in nature, Thoreau hoped to gain a more objective understanding of society through personal introspection. Simple living and self-sufficiency were Thoreau's other goals. Critics have praised it as an American classic that explores natural simplicity, harmony, and beauty. Robert Frost wrote of Thoreau, "In one book ... he surpasses everything we have had in America".

IN THE TWENTY-FIFTH CENTURY, humankind mastered the art of time travel. The event itself is now so commonplace that travelling through time feels as easy as jumping in your car and heading to the grocery store for sugar. Everyone is doing it-causing a problem in the physical makeup of our universe in the process. Like a worn-out road, spacetime itself is wearing out, as well. The fabric of spacetime is literally breaking, causing black holes to begin appearing out of nowhere-above the kitchen table, in a stadium full of people, in your very own bathroom. The black holes threaten the existence of humanity, and humanity's own behavior is to blame. Enter Neil Kappa, a young man on the sidelines, watching his world crumble and break. Neil possesses strange abilities-abilities that he can use to save the earth and its inhabitants. But will Neil be allowed to save the world? Or will he be killed by the wrath of the Gods of Time, who warned mortals of the misuse of time travel?
