Ancient Irrigation - [Lakpura™](#) A brief introduction to the concept of irrigation and how it helped aid growth and development in Mesopotamia. Irrigation in Mesopotamia - Ancient History Encyclopedia Although sometimes overshadowed by better-known Egyptian, Mesopotamian, and South Asian irrigation systems that supported some of the world's earliest and most influential civilizations, the remains of advanced water control systems have also been found throughout Arabia. Dams and Irrigation in Ancient Arabia | SpringerLink Here is a

brief history of irrigation from the earliest days until modern times. The earliest known systems of irrigation began in 6000 BC in Egypt and Mesopotamia. In Egypt, the Nile flooded for a few months each year, and the waters were diverted to the fields to allow farmers to grow crops where otherwise they would be unable to do so.
