Clash At Fatal Fields Shadow Mountain

Twelve-year-old Grey gets sucked into a hacked, virtual reality version of Fortnite Battle Royale along with one hundred other players. To get home, he must become one of the top five players before the season ends, or he's stuck in Fortnite for another two months. Grey logs into Battle Royale as usual, but unlike before he passes out and wakes up in the lobby and everything is as real as can be. Four others stand there with him as an admin tells them they are the "new meat" and their game has been hacked. Their consciousness will be trapped in this version of Fortnite until they can become the top five players for a season. New to the fighting arena but ambitious, Grey sets out for glory with one hundred other players on a flying bus. As they jump and land on the island to battle, he struggles to figure out the tools as people come to kill him. He dies quickly, much to his disappointment. Maybe this won't be as easy as he thought. While waiting for the next game in the lobby, someone gives him some tips to help him out and he fares a bit better. They form a duo in hopes of both escaping the game together. Will Grey be able to escape, now that he has an ally?

Power and Ease Penguin

"Not all anthologies are solid, but this one was excellent." —MYSF Reviews If you are a fan of sassy shapeshifters, delinquent genies, bioengineered merpeople, immortal storytellers, or anything within the realm of fantasy, this anthology has something for you! Twelve authors pool their talents to produce a wild ride through many worlds of awe and wonder. Christie Golden is an award-winning and seven-time New York Times bestselling author who has written books in the worlds of Star Trek, World of Warcraft, StarCraft, and Star Wars. Michaelbrent Collings is an internationally bestselling novelist, multiple Bram Stoker Award nominee, produced screenwriter, and top indie horror author. Ten other authors lend their tales to this packed collection, including Paul Genesse (The Golden Cord), Jacob Gowans (Psion Beta), Michael Moreci (Roche Limit), Cameron Dayton (Etherwalker),

Kevin L. Nielsen (Sands), Michael Darling (Got Luck), Michelle Merrill (Granted), Michael D. Young (The Hunger), Jacque Stevens (The Stone Bearers), and Zachary James (Ama's Watch).

Build an inexpensive cluster of multiple Raspberry Pi computers and install all the required libraries to write parallel and scientific programs in Python 3. This book covers setting up your Raspberry Pis, installing the necessary software, and making a cluster of multiple Pis. Once the cluster is built, its power has to be exploited by means of programs to run on it. So, Raspberry Pi Supercomputing and Scientific Programming teaches you to code the cluster with the MPI4PY library of Python 3. Along the way, you will learn the concepts of the Message Passing Interface (MPI) standards and will explore the fundamentals of parallel programming on your inexpensive cluster. This will make this book a great starting point for supercomputing enthusiasts who want to get started with parallel programming. The book finishes with details of symbolic mathematics and scientific and numerical programming in Python, using SymPi, SciPy, NumPy, and Matplotlib. You'll see how to process signals and images, carry out calculations using linear algebra, and visualize your results, all using Python code. With the power of a Raspberry Pi supercomputer at your fingertips, data-intensive scientific programming becomes a reality at home. What You Will Learn Discover the essentials of supercomputing Build a low-cost cluster of Raspberry Pis at home Harness the power of parallel programming and the Message Passing Interface (MPI) Use your Raspberry Pi for symbolic, numerical, and scientific programming Who This Book Is For Python 3 developers who seek the knowledge of parallel programming, Raspberry Pi enthusiasts, researchers, and the scientific Python community.

How to Treat Climate Change Yearling

When the powers of the Evil One threaten to destroy eighth-grader Jonah and the other humans who are one-quarter angel, Jonah is led by a series of visions to find the one person who is meant to call upon God's faithfulness and save them--a prophet of Elohim.

Wake of Deception Acacia Moon Publishing

Imagine being forced to move to a new planet where YOU are the

alien! From the creator of the Tapper Twins, New York Times bestselling author Geoff Rodkey delivers a topical, sci-fi middle-grade novel that proves friendship and laughter can transcend even a galaxy of differences. The first time I heard about Planet Choom, we'd been on Mars for almost a year. But life on the Mars station was grim, and since Earth was no longer an option (we may have blown it up), it was time to find a new home. That's how we ended up on Choom with the Zhuri. They're very smart. They also look like giant mosquitos. But that's not why it's so hard to live here. There's a lot that the Zhuri don't like: singing (just ask my sister, Ila), comedy (one joke got me sent to the principal's office), or any kind of emotion. The biggest problem, though? The Zhuri don't like us. And if humankind is going to survive, it's up to my family to change their minds. No pressure.

Agile Software Construction Workman Publishing

This second edition is a ground-breaking clinical text with a strong emphasis on rigorous evidence. Leaders in the field discuss best practice in the light of systematic reviews and randomised control trials, and how best to treat where the information is less clear. Case histories provide intriguing discussions on how to apply the evidence in real life situations. Evidence-based Cardiology also includes free access to the latest evidence, which is automatically posted on a companion website.

Fantastic Worlds: A Fantasy Anthology Crazy Dream Publishing, LLC

A unique presentation of our current understanding of particle physics for researchers, advanced undergraduate and graduate students.

Global Fever Random House Books for Young Readers

Almost a hundred years have passed since they came and saved us. Now we follow their guidance. Poverty, war and physical illness are no longer existent, and life as we know it is peaceful and productive. But for fourteen year old Hanu, life at a mental health hospital isn't productive at all- at least not with his treatment. Now he must join a group of patients who were

summoned into the District of Operations, deep within the Capital City, to meet with the Council, and possibly the Ancient Ones. Tensions are high as they travel to the city, as attacks from a mysterious factions called the Dissenters are ever increasing. And what would the Council want with a group of mental patients anyway? As Hanu and his new friends find themselves in a struggle for their lives, they find that the Ancient Ones- and the Dissenters- aren't who they seem. But what can Hanu do when the whole world is in the wake of deception?

Kingdom of Nokia Simon and Schuster

Young Adult 2016 Utah Book Award Winner Marrow is a fourteen-year-old prodigy at FIST (Fantom Institute for Superheroes-in-Training). With a perfect score on his finals, the ability to smash through walls, and leaps that can launch him over a city block, the Sidekick Internship Program is bound to place him with a top-notch superhero mentor for the summer. But when a series of disastrous events lands Marrow on academic probation, he is forced to team up with Flex--a drunk, hippie, bum with the power of elasticity. The two Supers' powers and personalities clash as they are forced to overcome their differences to prevent the return of Cosmo City's most notorious foe, a supervillain so powerful, no one will survive the cataclysm he is sure to unleash. "If you can't get enough of superhero and comic book movies, read Marrow now! It's like stuffing an action movie into your head. The twists will surprise you." - Adam Glendon Sidwell, Bestselling Author of CHUM and EVERTASTER. "Fans of comics, superheroes, and stories with twist after twist will love Marrow. It's filled with nods and homages to classic heroes, yet still manages to put a unique stamp on the genre." - Jacob Gowans, Bestselling Author of the PSION BETA Series.

This edition provides new insights into the realities of high-tech marketing, with special emphasis on the Internet. It's essential reading for anyone with a stake in the world's most exciting marketplace.

Mobile Unleashed Diamond Pocket Books Pvt Ltd

The Man in the High Castle meets Pacific Rim in this action-packed alternate history novel from the award-winning author of

United States of Japan. Germany and Japan won WWII and control the U.S., and a young man has one dream: to become a mecha pilot. Makoto Fujimoto grew up in California, but with a difference--his California is part of the United States of Japan. After Germany and Japan won WWII, the United States fell under their control. Growing up in this world, Mac plays portical games, haphazardly studies for the Imperial Exam, and dreams of becoming a mecha pilot. Only problem: Mac's grades are terrible. His only hope is to pass the military exam and get into the prestigious mecha pilot training program at Berkeley Military Academy. When his friend Hideki's plan to game the test goes horribly wrong, Mac washes out of the military exam too. Perhaps he can achieve his dream by becoming a civilian pilot. But with tensions rising between the United States of Japan and Nazi Germany and rumors of collaborators and traitors abounding, Mac will have to stay alive long enough first...

Evidence-Based Cardiology CreateSpace

Offering an overview of usability, testing, and information architecture for EPOC, WAP, PDAs, handhelds, and handsets, this how-to guide dives into the details about medium-specific issues and design strategies. * Discusses designing for the current wireless platforms: cellular phones and PDAs * Covers both stand alone as well as Web-based application design * Contains a case study of a usability test

The Bios Companion Simon and Schuster

Sammy, a fourteen-year-old fugitive, accidentally discovers he has the powers of a Psion. The war between the New World Government and the Continental American Government has taken its toll, not only on the two world superpowers, but also on the band of resistance fighters stuck between them. As Sammy's band of operatives and civilians struggle to restore freedom and end the war, the cracks of doubt and despair widen, and the walls of resolve crumble. But there is still cause for hope. For years the resistance has floundered. Now, after Sammy's successful mission to the Amazon jungle, they finally have the data and weaponry needed to join the war against the CAG. Desperate to tip the scales in their favor, the resistance leadership decides on a bold joint offensive. Meanwhile the Queen hunts Sammy, emboldened by her new anomalies, and certain that by killing him she can end the war in one final stroke. Both know their paths are destined to collide. And when they do, the world will be changed forever.

The Seventh Element Apress

Sammy, a 14-year-old fugitive, accidentally discovers he has the powers of a Psion. ... Plucked off the streets, he is thrust into the rigorously-disciplined environment of Psion Beta headquarters. As a new Beta, Sammy must hone his newfound abilities using holographic fighting simulations, stealth training missions, and complex war games. His fellow trainees are other kids competing to prove their worth so they can graduate and contribute to the war effort. But the stifling competition at headquarters isolates Sammy from his peers. Learning to use his incredible abilities powers is difficult enough, but when things go horribly wrong on a routine training mission, he must rely on the other Betas to stay alive. The Silent War is at a tipping point; even one boy can be the difference. But to do so, he must survive.

An Unofficial Fortnite Novel Simon and Schuster

From #1 New York Times bestselling author Brandon Sanderson, Warbreaker is the story of two sisters, who happen to be princesses, the God King one of them has to marry, the lesser god who doesn't like his job, and the immortal who's still trying to undo the mistakes he made hundreds of years ago. Their world is one in which those who die in glory return as gods to live confined to a pantheon in Hallandren's capital city and where a power known as BioChromatic magic is based on an essence known as breath that can only be collected one unit at a time from individual people. By using breath and drawing upon the color in everyday objects, all manner of miracles and mischief can be accomplished. It will take considerable quantities of each to resolve all the challenges facing Vivenna and Siri, princesses of Idris; Susebron the God King; Lightsong, reluctant god of bravery, and mysterious Vasher, the Warbreaker.
