University of Chicago Press

How, from a theological standpoint, should we make sense of gratitude? This rich interdisciplinary volume is the first concerted effort to explore theologies of gratitude from both Christian and Muslim perspectives. While the available literature has tended to rhapsodize gratitude to God and others as both a virtue and an obligation, this book by contrast offers something new by detailing ways in which gratitude is complicated by inequality: even to the point of becoming a vice. Gratitude now emerges as something more than a virtue and other than merely transactional. It can be a burden, bringing about indebtedness and an imbalance of power; but it may also be a resonant source of reconciliation and belonging. Topics discussed cover the personal and political dimensions of gratitude, including such issues as justice, multiculturalism, racism, imperialism, grief, memory and hope. The book assembles, from different traditions, some of the leading theologians of our times.

Centuries after his death, al-Ghazali remains one of the most influential figures of the Islamic intellectual tradition. Although he is best known for his *Incoherence of the Philosophers*, *Moderation in Belief* is his most profound work of philosophical theology. In it, he offers what scholars consider to be the best defense of the Ash'arite school of Islamic theology that gained acceptance within orthodox Sunni theology in the twelfth century, though he also diverges from Ash'arism with his more rationalist approach to the Quran. Together with *The Incoherence of the Philosophers*, *Moderation in Belief* informs many subsequent theological debates, and its influence extends beyond the Islamic tradition, informing broader questions within Western philosophical and theological thought. The first complete English-language edition of *Moderation in Belief*, this new annotated translation by Aladdin M. Yaqub draws on the most esteemed critical editions of the Arabic texts and offers detailed commentary that analyzes and reconstructs the arguments found in the work's four treatises. Explanations of the historical and intellectual background of the texts also enable readers with a limited knowledge of classical Arabic to fully explore al-Ghazali and this foundational text for the first time. With the recent resurgence of interest in Islamic philosophy and the conflict between philosophy and religion, this new translation will be a welcome addition to

the scholarship.

The word "jihad" is everywhere in the global media. It generally appears in the context of violence waged against the West by militants in or from Muslim-majority societies. This usage overwhelmingly colors popular discourse about Islam and Muslims and it has resulted in highly simplistic, distorted, and ahistorical understandings of the concept of jihad. For most Muslims, jihad refers to the continuous human struggle to promote and implement what is morally good and noble in all walks of life, as well as to resist and prevent what is morally wrong and unjust. This book addresses the great need for a discussion of jihad that explores its various dimensions without fear-mongering or sensationalism. Here it is examined from multiple perspectives: scriptural, theological, moral and ethical, legal and socio-political. Asma Afsaruddin looks at the key questions about jihad and provides concise yet thorough answers. Jihad: What Everyone Needs to Know RG provides a historically-grounded, scholarly yet accessible treatment of the meanings of jihad from the formative period of Islam until the contemporary period.

Al-Ghazali on Intention, Sincerity and Truthfulness is a translation of the thirty-seventh chapter of *The Revival of the Religious Sciences (Ihya Ulum al-Din)*. Like *Al-Ghazali on Patience and Thankfulness*, this chapter falls in the last of the four sections of the *Ihya*, the section dealing the virtues or what is conducive to salvation. Here Ghazali deals with the very important subject of intention, which is of crucial importance in Islam. Ghazali asks: How can someone

ignorant of the meaning of intention verify his own intention; or how can someone ignorant of the meaning of sincerity verify his own sincerity; or how can someone sincerely claim truthfulness if he has not verified its meaning? *Al-Ghazali on Intention, Sincerity and Truthfulness* includes an introduction that places the topic in the context of Islamic ethics.

Many of us are so busy that we might be tempted to think we don't have time to be patient. However, that idea involves a serious underestimation of what patience is and why it matters. In *On Patience*, Matthew Pianto revives a richer understanding of what patience is and why it is centrally important in both virtue theory and everyday life. Drawing from a wide range of philosophical and religious sources, Pianto shows that our contemporary tendency to equate patience with waiting fails to do justice to other aspects of patience such as tolerance, perseverance, and the opposition of patience to anger. With this broader understanding of patience, Pianto further shows how patience supports the development of other moral strengths, such as courage, justice, love, and hope. In these ways, *On Patience* sheds light on Franz Kafka's remark that, "Patience is the master key to every situation," and Gregory the Great's perhaps surprising claim that, "Patience is the root and guardian of all the virtues." This first book-length contemporary philosophical examination of patience will be of interest to students and scholars not just of virtue ethics, but also of moral philosophy more broadly.

**Al-Ghazzali on Patience and Gratitude** The Other Press

The Muslim thinker al-Ghazali (d. 1111)

was one of the most influential theologians and philosophers of Islam and has been considered an authority in both Western and Islamic philosophical traditions. Born in northeastern Iran, he held the most prestigious academic post in Islamic theology in Baghdad, only to renounce the position and teach at small schools in the provinces for no money. His contributions to Islamic scholarship range from responding to the challenges of Aristotelian philosophy to creating a new type of Islamic mysticism and integrating both these traditions-falsafa and Sufism-into the Sunni mainstream. This book offers a comprehensive study of al-Ghazali's life and his understanding of cosmology-how God creates things and events in the world, how human acts relate to God's power, and how the universe is structured. Frank Griffel presents a serious revision of traditional views on al-Ghazali, showing that his most important achievement was the creation of a new rationalist theology in which he transformed the Aristotelian views of thinkers such as Avicenna to accord with intellectual currents that were well-established within Muslim theological discourse. Using the most authoritative sources, including reports from al-Ghazali's students, his contemporaries, and his own letters, Griffel reconstructs every stage in a turbulent career. The al-Ghazali that emerges offers many surprises, particularly on his motives for leaving Baghdad and the nature of his "seclusion" afterwards. Griffel demonstrates that al-Ghazali intended to create a new cosmology that moved away from concerns held earlier by Muslim theologians and Arab philosophers. This new theology aimed to provide a framework for the pursuit of the natural sciences and a basis for

Islamic science and philosophy to flourish beyond the 12th century. Al-Ghazali's Philosophical Theology is the most thorough examination to date of this important thinker.

Love, Longing, Intimacy and Contentment SkyLight Paths Publishing  
Featuring the work of leading contemporary Muslim philosophers and theologians, this book grapples with various forms of evil and suffering in the world today, from COVID-19 and issues in climate change to problems in palliative care and human vulnerability. Rather than walking down well-trodden paths in philosophy of religion which often address questions of evil and suffering by focusing on divine attributes and the God-world relationship, this volume offers another path of inquiry by focusing on human vulnerability, potential, and resilience. Addressing both the theoretical and practical dimensions of the question of evil, topics range from the transformative power of love, virtue ethics in Sufism and the necessity of suffering, to the spiritual significance of the body and Islamic perspectives on embodiment. In doing so, the contributors propose new perspectives based on various pre-modern and contemporary materials that can enrich the emerging field of the global philosophy of religion, thereby radically transforming contemporary debates on the nature of evil and suffering. The book will appeal to researchers in a variety of disciplines, including Islamic philosophy, religious studies, Sufism, and theology.

"Understanding the spiritual meanings

on which the practices of Islam are based, opens up the vastness of the inner life. Even though young Muslim children are not yet obliged to fast or pay zakat, the virtues and spiritual dimensions on which these are based can easily be introduced and comprehended even by five-year olds. Imam al-Ghazali's stories and metaphors offer an effective way for parents to communicate with their children, in a language which can be used and directly related to the occurrences within everyday life. In the following two books of the Ihya, such virtues as generosity, gratitude, selflessness, reflection, self-discipline, patience, honesty, moderation, and trust in God's loving wisdom are no longer abstract concepts but can be clearly seen instead as urgent and absolutely relative to each individual. We are indeed blessed to have Imam al-Ghazali's systematic presentation of aspects belonging to the inner sunna and his detailed map for guarding and perfecting our innate and noble nature. **Ghazali's Theory of Virtue** Kazi Publications

This book is the first of its kind to focus entirely on the Qur'anic interpretation of Abu Hamid al-Ghazali (1058-1111), a towering figure of Sunni Islam. Martin Whittingham explores both al-Ghazali's hermeneutical methods and his interpretations of particular Quranic texts, and covers al-Ghazali's mystical, legal and theological concerns. Divided into two parts: part one examines al-Ghazali's legal and Sufi theoretical discussions part two asks how these theories relate to his practice, analysing the only three of al-Ghazali's works which are centrally concerned with interpreting particular Qur'anic passages: *Jawahir al-Qur'an* (The Jewels of the Qur'an); *Al-Qist as al-mustaqim* (The Correct Balance); and *Mishkat al-anwar* (The Niche for Lights). Providing a new point of access to the works of al-Ghazali, this book will be welcomed by scholars and students of Islamic studies, religious studies, hermeneutics, and anyone interested in how Muslims understand the Qur'an.

In popular and academic literature, jihad is predominantly assumed to refer exclusively to armed combat, and martyrdom in the Islamic context is

understood to be invariably of the military kind. This perspective, derived mainly from legal texts, has led to discussions of jihad and martyrdom as concepts with fixed, universal meanings divorced from the socio-political circumstances in which they have been deployed through the centuries. Asma Afsaruddin studies in a more holistic manner the range of significations that can be ascribed to the term jihad from the earliest period to the present and historically contextualizes the competing discourses that developed over time. Many assumptions about the military jihad and martyrdom in Islam are thereby challenged and deconstructed. A comprehensive interrogation of varied sources reveals early and multiple competing definitions of a word that in combination with the phrase *fi sabil Allah* translates literally to "striving in the path of God." Contemporary radical Islamists have appropriated this language to exhort their cadres to armed political opposition, which they legitimize under the rubric of jihad. Afsaruddin shows that the multivalent connotations of jihad and *shahid* recovered from the formative period lead us to question the assertions of those who maintain that belligerent and militant interpretations preserve the earliest and only authentic understanding of these two key terms. Retrieval of these multiple perspectives has important implications for our world today in which the concepts of jihad and martyrdom are still being fiercely debated.

The Book of Love, Longing, Intimacy and Contentment is the thirty-sixth chapter of Abu Hamid al-Ghazali's Revival of the Religious Sciences. This was the first treatise which established not merely the possibility but the necessity for the love of God. Ghazali argues that all the virtues and spiritual stages that precede love, like repentance, patience and thankfulness, lead to love; and all the spiritual stages that follow on from love are a result of it.

The wisdom of one of the greatest scholars of Islam can be a companion on your own spiritual journey. Considered by many to be the all-time greatest scholar of Islam, Imam Abu Hamid al-Ghazali (1058-1111) was also one of the foremost sages of theology, philosophy and Sufism. His writings on the interrelation of law, theology and mysticism were central in establishing Sufism as a core dimension of orthodox Islamic practice. Muslim communities all across the world today still base much of their practice of Islam on Ghazali's writings. The Forty Foundations of Religion, Ghazali's own summary of his magnum opus, *The Revival of the Religious Sciences*, serves as a brief and powerful summary of Islamic faith, worship, law and spirituality. It outlines the basis of Islamic belief, the foundational matters of ritual and practice, and the character traits a person must cultivate and avoid in the perfection of faith. Now you can experience the wisdom of Ghazali even if you have no previous knowledge of *The Forty Foundations of Religion* or Islam. This SkyLight Illuminations edition--the first publication of significant portions of *The Forty Foundations of Religion* in English--provides original translations of selected highlights accompanied by insightful commentary that makes the core message of this great spiritual master relevant to anyone seeking a balanced understanding of Islam.

*A Theology of Gratitude* Al-Ghazali on Patience and Thankfulness

Focusing on Abū Ḥāmid al-Ghazālī (d. 1111) – one of the foremost scholars and authorities in the Muslim world who is central to the Islamic intellectual tradition – this book embarks on a study of doubt (shakk) and certainty (yaqīn) in

his epistemology. The book looks at Ghazālī's attitude to philosophical demonstration and Sufism as a means to certainty. In early scholarship surrounding Ghazālī, he has often been blamed as the one who single-handedly offered the death-blow to philosophy in the Muslim world. In much of contemporary scholarship, Ghazālī is understood to prefer philosophy as the ultimate means to certainty, granting Sufism a secondary status. Hence, much of previous scholarship has either focused on Ghazālī as a Sufi or as a philosopher; this book takes a parallel approach, and acknowledges each discipline in its right place. It analyses Ghazālī's approach to acquiring certainty, his methodological scepticism, his foundationalism, his attitude to authoritative instruction (ta'lim), and the place of philosophical demonstration and Sufism in his epistemology. Offering a systematic and comprehensive approach to Ghazālī's epistemology, this book is a valuable resource for scholars of Islamic philosophy and Sufism in particular, and for educated readers of Islamic studies in general.

The late President of Egypt, Gamal Abdel Nasser (1918-1970), has been represented in many major works of Egyptian literature and film, and continues to have a presence in everyday life and discourse in the country. Omar Khalifah's analysis of these representations focuses on how the historical character of Nasser has emerged in the Egyptian imaginary. He explores the recurrent images of Nasser in literature and film and shows how Nasser constitutes a perfect site for plural interpretations. He argues that Nasser has become a rhetorical device, a

figure of speech, a trope that connotes specific images constantly invoked whenever he is mentioned. His study makes a case for literature and art to be seen as alternative archives that question, erase, distort and add to the official history of Nasser.

This expansive four-volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world, Islam has attracted a great deal of attention in recent times, particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of

hostility toward Arab Americans, there is ever increasing need to examine and understand Islam as a religion and historical force. Islam: A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction, followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive, authoritative overview of Islam, this work also specifically addresses many controversial related issues, including jihad, violence in Islam, polygamy, and apostasy.
