Darkness has come to Earth, invited, but without Clarie and Patrick's knowledge. It isn't until Clarie comes face-to-face with the Darkness that she realizes the danger their beloved Earth world is in. Their fates lie in the shadow realm of Mortgatha, the home of Darkness. They must help Joseph fight the deadly Shadowed Hands; their actions are governed by a centuries-old myth that has taken young people who are innocent of the dark realm. With the assistance of an indigenous Light creature, they cause a chain of events that could destroy the hands of Darkness forever or deny Clarie and her friends any chance of returning to their beloved Earth world.

Karl Thomas was born in 1925, just before the Great Depression, in the German Baltic province of East Prussia. He was conscripted into Hitler's army to fight on the Eastern Front in some of the bloodiest battles of World War 2. Captured by the Soviets, he was taken to Auschwitz/Birkenau, and then forced to work in the Russian gulags. After his release to Communist East Germany, he was involved in smuggling people across the border to freedom. Eventually, he escaped and immigrated to Canada. Karl's gripping story will give you a unique glimpse at the political events leading up to, during, and after the war. You'll hear what it was like living under an oppressive regime, and see that the line between the "good guys" and the "bad guys" isn't nearly as neat and tidy as the history books would have us think.

This author's works have been praised by numerous celebrities, the most notable being Nelson Mandela who described two of his African stories as

'Wonderful', the late Princess Diana who used to read two of his books to the Princes William and Harry when they were aged 9 and 7 years, and a former Chief Inspector of Schools for The Office for Standards in Education, Children's Services and Skills (OFSTED), who described the author's writing to the press as being of 'High quality literature.' The *Kilkenny Cat* has been written as a trilogy. Book One deals with the theme of 'truth', Book Two with 'justice', and Book Three on the theme of 'freedom'. All three books seek to show that truth, justice or freedom cannot exist in isolation, and that the only way one can experience any one of them is when one is able to experience all three. Book Three is set in the English North and has as its backdrop, the riots that embraced this area from the 1990s onwards. Recent riots all around the country merely reflect how deeply rooted the 'gang culture' of Great Britain has since become. The trilogy is designed to show that every country on the face of the Earth exercises discrimination against some of its citizens. The nature of discrimination may subtly change and vary from one country and situation to another in both shape and form, but it will always be present in some degree for those of us who care to look. Particular forms of discrimination looked at in this trilogy include the issues of colour, race, religion, age, culture, sexism, disability, homophobia, gypsies, asylum seekers, refugees and economic migrants. These issues are looked at through the eyes of travelling cats, whose experiences mirror those of human society. Overarching all the themes of this trilogy is the issue of 'Good' versus 'Evil', where the terms 'God' and 'Satan' are used to denote opposing values, qualities and lifestyles. The speech of the cat characters who come from Jamaica is distinguished from the speech used by non-Jamaican cats by changing the word 'you' to 'ya' and its linguistic associates, and no attempt has been made to replicate the patois more commonly used by many Jamaican citizens. The *Kilkenny Cat Trilogy* is an allegorical story of all manner of discrimination practised throughout the world; and particularly in Ireland, Jamaica and England. Told through the eyes and experiences of travelling gypsy cats, it is a must for all cat lovers and students of the discrimination, the 'Northern Riots', Ireland, Jamaica and Northern England and 'Good v Evil.' It is suitable for reading by teenagers and adults.

The final book in his acclaimed trilogy on the rise and fall of Nazi Germany, Richard J. Evans's *The Third Reich at War: How the Nazis Led Germany from Conquest to Disaster* shows how Germany rushed headlong into destroying itself, shattering an entire continent. In 1939 Hitler mobilized Germany into all-out war. Richard Evans's astonishing, acclaimed history conjures up a whole society plunged into conflict - from generals and front-line soldiers to Hitler Youth activists and middle-class housewives - tracing events from the invasion of Poland and the Battle of Stalingrad to Hitler's plans for genocide and his eventual suicide. 'Masterly ... will surely be the standard history for many years to come ... This is a warning for the future, as much as a judgement on the past'; Richard Overy, *Daily Telegraph* 'We all know how the story ends ... but Richard Evans brings it masterfully home ... magnificent'; Peter Preston, *Observer* 'A chilling, brilliant read' Dominic Sandbrook, *Sunday Telegraph Books of the Year* 'It is hard to do justice to the humanity and scholarly range of *The Third Reich at War* ... triumphant ... a masterful historical narrative and the most comprehensive account of Nazi Germany' Nicholas Stargardt, *The Times Literary Supplement* 'It gives the reader persuasive answers to questions asked for so long, that will continue to be asked, about this most violent and inexplicable of regimes' Mark Mazower, *Guardian* Sir Richard J. Evans is Professor of Modern History at Cambridge University. His previous books include *In Defence of History*, *Telling Lies about Hitler* and the companions to this title, *The Coming of the Third Reich* and *The Third Reich in Power*.

'Brilliant, a 5 out of 5 masterpiece' *Evening Standard* The renowned historian of the Third Reich takes on the conspiracy theories surrounding Adolf Hitler and the Nazis, in a vital history book for the 'post-truth' age The idea that nothing happens by chance in history, that nothing is quite what it seems to be at first sight, that everything that occurs is the result of the secret machinations of malign groups of people manipulating everything from behind the scenes is as old as history itself. But conspiracy theories are becoming more popular and more widespread in the twenty-first century. Nowhere have they become more obvious than in revisionist accounts of the history of the Third Reich. Long-discredited conspiracy theories have taken on a new lease of life, given credence by claims of freshly discovered evidence and novel angles of investigation. This book takes five widely discussed claims involving Hitler and the Nazis and subjects them to forensic scrutiny: that the Jews were conspiring to undermine civilization, as outlined in 'The Protocols of the Elders of Zion'; that the German army was 'stabbed in the back' by socialists and Jews in 1918; that the Nazis burned down the Reichstag in order to seize power; that Rudolf Hess' flight to the UK in 1941 was sanctioned by Hitler and conveyed peace terms suppressed by Churchill; and that Hitler escaped the bunker in 1945 and fled to South America. In doing so, it teases out some surprising features these, and other conspiracy theories, have in common. This is a history book, but it is a history book for the age of 'post-truth' and 'alternative facts': a book for our own troubled times.

A final volume in a trilogy on the history of Nazi Germany traces the rise and fall of the military, the ways in which the Nazis gained compliance and support from the private sector, and Hitler's campaign of racial subjugation and genocide. By the author of *The Coming of the Third Reich*.

*And I Thought...* Larry Flynn

'A scintillating, encyclopaedic history, rich in detail from the arcane to the familiar... a veritable tour de force' Richard Overy, *New Statesman* 'Transnational history at its finest ... social, political and cultural themes swirl together in one great canvas of immense detail and beauty' Gerard DeGroot, *The Times* 'Dazzlingly erudite and entertaining' Dominic Sandbrook, *The Sunday Times* A masterpiece which brings to life an extraordinarily

turbulent and dramatic era of revolutionary change. The *Pursuit of Power* draws on a lifetime of thinking about nineteenth-century Europe to create an extraordinarily rich, surprising and entertaining panorama of a continent undergoing drastic transformation. The book aims to reignite the sense of wonder that permeated this remarkable era, as rulers and ruled navigated overwhelming cultural, political and technological changes. It was a time where what was seen as modern with amazing speed appeared old-fashioned, where huge cities sprang up in a generation, new European countries were created and where, for the first time, humans could communicate almost instantly over thousands of miles. In the period bounded by the Battle of Waterloo and the outbreak of World War I, Europe dominated the rest of the world as never before or since: this book breaks new ground by showing how the continent shaped, and was shaped by, its interactions with other parts of the globe. Richard Evans explores fully the revolutions, empire-building and wars that marked the nineteenth century, but the book is about so much more, whether it is illness, serfdom, religion or philosophy. *The Pursuit of Power* is a work by a historian at the height of his powers: essential for anyone trying to understand Europe, then or now.

NATIONAL BESTSELLER • Alex Kershaw, author of *The Longest Winter* and *The Liberator*, returns with an utterly immersive, adrenaline-driven account of D-Day combat. "Meet the assaulters: pathfinders plunging from the black, coxswains plowing the whitecaps, bareknuckle Rangers scaling sheer rock . . . Fast-paced and up close, this is history's greatest story reinvigorated as only Alex Kershaw can."—Adam Makos, *New York Times* bestselling author of *Spearhead* and *A Higher Call* Beginning in the predawn darkness of June 6, 1944, *The First Wave* follows the remarkable men who carried out D-Day's most perilous missions. The charismatic, unforgettable cast includes the first American paratrooper to touch down on Normandy soil; the glider pilot who braved antiaircraft fire to crash-land mere yards from the vital Pegasus Bridge; the brothers who led their troops onto Juno Beach under withering fire; as well as a French commando, returning to his native land, who fought to destroy German strongholds on Sword Beach and beyond. Readers will experience the sheer grit of the Rangers who scaled Pointe du Hoc and the astonishing courage of the airborne soldiers who captured the Merville Gun Battery in the face of devastating enemy counterattacks. The first to fight when the stakes were highest and the odds longest, these men would determine the fate of the invasion of Hitler's fortress Europe—and the very history of the twentieth century. The result is an epic of close combat and extraordinary heroism. It is the capstone Alex Kershaw's remarkable career, built on his close friendships with D-Day survivors and his intimate understanding of the Normandy battlefield. For the seventy-fifth anniversary, here is a fresh take on World War II's longest day. Praise for *The First Wave*: "Masterful... readers will feel the sting of the cold surf, smell the acrid cordite that hung in the air, and duck the zing of machine-gun bullets whizzing overhead. *The First Wave* is an absolute triumph."—James M. Scott, bestselling author of *Target Tokyo* "These pages ooze with the unforgettable human drama of history's most consequential invasion."—John C. "In *Hitler's Shadow*, by noted historian Richard J. Evans, is a study of recent attempts by some West German historians to free the German conscience from guilt about its Nazi past. These new revisionists argue that Germans have no more to be ashamed of than other peoples: Auschwitz, they say, does not stand alone in history; it was merely one of a number of similar crimes, from Stalin's purges to the mass murders committed by Pol Pot. The German army was not trying to impose a genocidal dictatorship; it was fighting to prevent a Communist takeover of Europe. These theses are advanced not by fanatics or extremists, but by senior West German politicians and internationally respected historians. In *Hitler's Shadow* examines the debate, placing it within the context of West German politics, and tries to reach a balanced and reasoned conclusion. The new revisionism does not, Evans argues, succeed in making its case, and many of the neoconservative theses bear a disturbing resemblance to arguments first put forward by the Nazis themselves. The survival and strengthening of democracy in West Germany, Evans argues, require an honest and open confrontation with the Nazi past."--Bloomsbury Publishing.

"Brilliant." —Washington Post "The clearest and most gripping account I've read of German life before and during the rise of the Nazis." —A. S. Byatt, *Times Literary Supplement* "The generalist reader, it should be emphasized, is well served. . . . The book reads briskly, covers all important areas—social and cultural—and succeeds in its aim of giving "voice to the people who lived through the years with which it deals." —Denver Post There is no story in twentieth-century history more important to understand than Hitler's rise to power and the collapse of civilization in Nazi Germany. With *The Coming of the Third Reich*, Richard Evans, one of the world's most distinguished historians, has written the definitive account for our time. A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations, Evans's history restores drama and contingency to the rise to power of Hitler and the Nazis, even as it shows how ready Germany was by the early 1930s for such a takeover to occur. *The Coming of the Third Reich* is a masterwork of the historian's art and the book by which all others on the subject will be judged.

*Her Happy Ever After* Createspace Independent Pub

In essence, this story is about how a certain person was searching his bookshelf for something to read and in the end found a book, which turned out to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone, who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of *Homo sapiens*; in essence, the same as encyclopedias, reference books for specialists, which contain complete information about representatives of a particular subspecies of animals, plants, etc. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone's help, but thanks to that knowledge, which they discovered in the ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got.

And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population—technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific discovery made by Andrey Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to exist without leaving a trace. As for organizers of this "civilization"—maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly.

From bestselling author David Nasaw, a sweeping new history of the one million refugees left behind in Germany after WWII In May 1945, after German forces surrendered to the Allied powers, millions of concentration camp survivors, POWs, slave laborers, political prisoners, and Nazi collaborators were left behind in Germany, a nation in ruins. British and American soldiers attempted to repatriate the refugees, but more than a million displaced persons remained in Germany: Jews, Poles, Estonians, Latvians, Lithuanians, Ukrainians, and other Eastern Europeans who refused to go home or had no homes to return to. Most would eventually be resettled in lands suffering from postwar labor shortages, but no nation, including the United States, was willing to accept more than a handful of the 200,000 to 250,000 Jewish men, women, and children who remained trapped in Germany. When in June, 1948, the United States Congress passed legislation permitting the immigration of displaced persons, visas were granted to sizable numbers of war criminals and Nazi collaborators, but denied to 90% of the Jewish displaced persons. A masterwork from acclaimed historian David Nasaw, *The Last Million* tells the gripping but until now hidden story of postwar displacement and statelessness and of the Last Million, as they crossed from a broken past into an unknowable future, carrying with them their wounds, their fears, their hope, and their secrets. Here for the first time, Nasaw illuminates their incredible history and shows us how it is our history as well.

"Riveting...An elegantly composed study, important and even timely" (Kirkus Reviews, starred review) history of the Third Reich—how Adolf Hitler and a core group of Nazis rose from obscurity to power and plunged the world into World War II. In "the new definitive volume on the subject" (Houston Press), Thomas Childers shows how the young Hitler became passionately political and anti-Semitic as he lived on the margins of society. Fueled by outrage at the punitive terms imposed on Germany by the Versailles Treaty, he found his voice and drew a loyal following. As his views developed, Hitler attracted like-minded colleagues who formed the nucleus of the nascent Nazi party. Between 1924 and 1929, Hitler and his party languished in obscurity on the radical fringes of German politics, but the onset of the Great Depression gave them the opportunity to move into the mainstream. Hitler blamed Germany's misery on the victorious allies, the Marxists, the Jews, and big business—and the political parties that represented them. By 1932 the Nazis had become the largest political party in Germany, and within six months they transformed a dysfunctional democracy into a totalitarian state and began the inexorable march to World War II and the Holocaust. It is these fraught times that Childers brings to life: the Nazis' unlikely rise and how they consolidated their power once they achieved it. Based in part on German documents seldom used by previous historians, *The Third Reich* is a "powerful...reminder of what happens when power goes unchecked" (San Francisco Book Review). This is the most comprehensive and readable one-volume history of Nazi Germany since the classic *The Rise and Fall of the Third Reich*.

"[Evans's] three-volume history . . . is shaping up to be a masterpiece. Fluidly narrated, tightly organized and comprehensive." —William Grimes, *The New York Times* The definitive account of Germany's malign transformation under Hitler's total rule and the implacable march to war This magnificent second volume of Richard J. Evans's three-volume history of Nazi Germany was hailed by Benjamin Schwartz of the *Atlantic Monthly* as "the definitive English-language account... gripping and precise." It chronicles the incredible story of Germany's radical reshaping under Nazi rule. As those who were deemed unworthy to be counted among the German people were dealt with in increasingly brutal terms, Hitler's drive to prepare Germany for the war that he saw as its destiny reached its fateful hour in September 1939. *The Third Reich in Power* is the fullest and most authoritative account yet written of how, in six years, Germany was brought to the edge of that terrible abyss.
