#### **Class II, Type A2 Biological Safety Cabinets 48 • 60 • 72**

All of NuAire's Class II BSCs, regardless of type (i.e. A2, B1, or B2) provide the same level of product and personnel protection from a biological point of view. The NSF International Listing Program for compliance, standard NSF/ANSI 49\*, has subjected each type to the exact same minimum testing procedures and exactly the same pass/fail criteria for all Class II BSCs.

#### *Class II A2 Biological Safety Cabinet*

Class II Type A2 Biosafety Cabinet is produced in conformity with the requirements of European standard EN 12469:2000. This type of cabinets is featured with good ergonomics, low noise level, low energy consumption, easy cleaning, maintenance and repair.

#### **Biosafety cabinets Class II type A2 — LAMSYSTEMS**

Class II provides protection for the user, environment and sample, and is divided into four types: A1, A2, B1 and B2. The main differences are their minimum inflow velocities and exhaust systems.

#### Understanding the differences between Class II, Type A2 ...

NuAire Class II, Type A2 Biological Safety Cabinets offer personnel, product, and environmental protection to obtain optimum control over product quality while reducing the potential for exposure of both product and personnel to airborne biological or particulate chemical agents in low to moderate risk-hazard

research and drug preparation or product operations, *Class II, Type A2 Biosafety Cabinets | Thermo Fisher ...*

A2 Biological Safety Cabinet Series delivers maximum safety, comfort and convenience, featuring an advanced design for easy operation and maximum safety, it could be used wherever protection is of paramount importance in safety levels 1 to 3, including research, pharmaceutical quality control labs, pharmacies, clinics and hospitals. Motorized Front Window. *Class II Type A2 Biological Safety Cabinets - Iris ...*

As a Class II Type A2 biosafety cabinet, the Purair BIO minimizes and contains Biosafety Level 1-3 agents, maintaining negative pressure inside the cabinet during operation to prevent contaminants from escaping the work area.

#### Class II, Type A2 Biosafety Cabinets | Thermo Fisher ...

one type of Class II BSC, which is generally equivalent to the Class II, Type A2 BSC as specified by NSF (Figure 1). European Class II and NSF Class II, Type A2 BSC accounts for approximately 95% of the global install base of any class or type of BSC3. It is the most commonly used BSC, primarily due to the versatility and high VA 2000 Type Biological Safety Cabinet Class II A2

Class II, Type A2 Biological Safety Cabinets (E-Series) Esco Labculture® Class II Type A2 Biological Safety Cabinet (E-Series) blends the latest generation of energy-efficient DC ECM motor technology with Esco's experience of more than 25 years in biosafety cabinet design. The Labculture® combines a multitude of design, construction, and proprietary technological considerations to provide optimum operator, product, and environmental protection.

#### *How Class II Biological Safety Cabinets Work | NuAire*

The World's Leading Energy Efficient, Quiet, and Ergonomic Biosafety Cabinet Esco's Airstream® Class II Type A2 Biological Safety Cabinet is one of the best choices when you are looking for operator, product and environmental protection for your laboratory.

#### **Class II, Type A2 Biological Safety Cabinets**

Class II A2 Biological Safety Cabinet NSF-6 NSF-6 is a Type A2 Biological Safety Cabinet provides protection operator, laboratory environment and samples. It is used in medical and health areas, pharmacy, medical research, etc.

Class II, Type A2 Biosafety Cabinets. Thermo Scientific offers a variety of Class II, Type A2 Biosafety Cabinets that meet your requirements for your application throughout the world. Resource materials are available for your support. Browse our complete portfolio or connect with an expert to help you make a selection.
