the story  
begins. His  
happy mood is  
spoilt when he  
is bitten by a  
flea, a flea  
that he can't

get rid of. The  
only solution  
is to take off

and jump into  
the sea  
because of  
course, fleas  
don't like the  
sea. Mr McGee  
and the flea

are finally separated and the flea moves on to the hair of a dog instead. The pictures tell the story as well as the text.

A suicide in an upper-class, politically connected business family is exactly the kind of case that Additional

Commissioner of Police Nikhil Juneja likes to take on. Easy contacts, easy money and an easy conscience.

But things don't work out quite like that.

The death becomes a murder, the contacts onerous and his conscience heavy. Like India in the mid 1990s, Juneja can't decide which way to go.

Chaotic and corrupt, yet with a lethally persuasive charm, Delhi, old and new, stars in this riveting debut novel about

the banality of justice sought and deflected.

classic caravans; otherwise known as 'tinies' and 'teardrops'; have become hugely popular in recent years, due to their dinkiness and versatility. The good use of compact spaces and the appeal of quality design have always caught Don and Marilyn Jessen's imagination, and their travels have connected them with a wide variety of people at the forefront of the 'tinies' and

'teardrops' movement. sustainable success, with new leadership insight PEAK is the popular, transformative guide to doing business better, written by a seasoned entrepreneur/CEO who has disrupted his favorite industry not once, but twice. Author Chip Conley, founder and former CEO of one of the world's largest boutique hotel companies, turned to psychologist Abraham Maslow's Hierarchy of Needs at a time when his

company was in dire need. And years later, when the young founders of Airbnb asked him to help turn their start-up home sharing company into a world-class hospitality giant, Conley once again used the principles he'd developed in PEAK. In the decade since this book's first edition, Conley's PEAK strategy has been developed on six continents in organizations in virtually every

industry. The author's foundational premise is that great leaders become amateur psychologists by understanding the unique needs of three key relationships—with employees, customers, and investors—and this message has resonated with every kind of leader and company including some of the world's best-known, from Apple to Facebook.

Avid users of PEAK have found that the principles create greater loyalty and differentiation with their key stakeholders. This new second edition includes in-depth examples of real-world PEAK companies, including the author's own at Airbnb, and exclusive PEAK leadership practices that will take you—and your company's performance—to new heights. Whether you're at a startup or a Fortune 500 company, at a for-profit, nonprofit, or governmental organization, this book can help you and your people reach potential you never realized you had. Understand how Maslow's hierarchy makes for winning business practices. Learn how PEAK drove some of today's top businesses to success. Help employees reach their full potential—and beyond. Transform the customer experience and keep investors happy. The PEAK framework succeeds because it elevates the business from the inside out. These same principles apply in the boardroom, the breakroom, and your living room at home, and have proven to be the foundation of healthy, fulfilled lives. Even if you think you're doing great, you could always be doing

better—and

All the Aires HarperCollins On the 50th anniversary of America's deadliest prison riot comes a prison-guard daughter's quest to uncover the truth about her father's murder during the uprising—a story of crossing racial

divides, befriending inmates and correctional officers alike, and challenging the state to reveal and pay for its malfeasance. Deanne Quinn Miller was five years old when her father—William “Billy” Quinn—was murdered in the first minutes of the Attica Prison Riot, the only corrections officer to die at the hands of inmates. But how did he die? Who were the killers? Those questions

haunted Dee and wreaked havoc on her psyche for thirty years. Finally, when she joined the Forgotten Victims of Attica, she began to find answers. This began the process of bringing closure not only for herself but for the other victims' families, the former prisoners she met, and all of those who perished on September 13, 1971—the day of the “retaking,” when New York State

troopers and corrections officers at the Attica Correctional facility slaughtered twenty-nine rioting prisoners and ten hostages in a hail of gunfire. In *The Prison Guard's Daughter*, Dee brings readers in on her lifelong mission for the truth and justice for the Attica survivors and the families of the men who lost their lives. But the real win was the journey that crossed racial and criminal-justice

divides: befriending infamous Attica prisoner Frank “Big Black” Smith, meeting Richard Clark and other inmates who tried to carry her father to safety after his beating, and learning what life was like for all of the people—prisoners and prison employees alike—inside Attica. As Miller lays bare the truth about her father's death, the world inside Attica, and the state's

reckless raid and coverup, she conveys a narrative of compassionate humanity and a call for prison reform.

In 1991, Sheila Isenberg's classic study *Women Who Love Men Who Kill* asked the provocative

question, "Why do women fall in love with convicted murderers?" Now, Isenberg returns to the same question in the age of smart phones, social media, mass shootings, and modern prison dating. The result is a compelling psychological study of prison passion in the new millennium. Isenberg conducts extensive interviews with women who seek relationships with convicted killers, as well

as conversations with psychiatrists, social workers, and prison officials. She shows that many of these women know exactly what they are getting into—yet they are willing to sacrifice everything for the sake of a love without hope, promise, or consummation. This edition of *Women Who Love Men Who Kill* includes gripping new case studies and an absorbing look

at how the digital age is revolutionizing this phenomenon. Meet the young women writing “fan fiction” featuring America’s most sadistic murderers; the killer serving consecutive life sentences for strangling his wife and smothering his toddler daughters—and the women who visit him in prison; the high-powered journalist who fell in love and risked it all for “Pharma Bro” Martin Shkreli; and many

other women absorbed in online and real-life dalliances with their killer men.
