Musings from the Aisle Seat The Mysterious Island

Although The Mysterious Island is technically a sequel to Vernes' enormously popular Twenty Thousand Leagues Under the Sea, this novel offers a vastly different take on similar thematic motifs. As with all of Verne's best-known works, The Mysterious Island is a masterpiece of the action-adventure genre, with a heaping dash of science fiction influence thrown in for good measure.

Volume 2 of the Palik Series, published in conjunction with the North American Jules Verne Society Marooned With Uncle Robinson Castaway by pirates on a deserted island Without tools or supplies to survive A mother and her children have only a kindly old sailor to help. But what explains the strange flora and fauna they find on the isle? The second volume in the Palik series, presented by the North American Jules Verne Society, offers another story never before published in English. Shipwrecked Family was rejected by Verne's publisher, so rather than finish it, he rewrote it with new characters. That book became the classic The Mysterious Island in which Captain Nemo made his last appearance. Presented here is Verne's original draft of that novel—one which is very different from the book that it eventually became. Expert translation is provided by Sidney Kravitz, also translator of the definitive modern edition of The Mysterious Island. Translated by Sidney Kravitz; Introduction by Brian Taves. This series is published in conjunction with the North American Jules Verne Society, najvs.org.

"Mysterious Island" by Jules Verne is subtitled Shipwrecked in the Air, The Abandoned and The Secret of the Island. The present translation is by Stephen W. White. It first appeared in the Evening Telegraph of Philadelphia, PA and was later published as an Evening Telegraph Reprint Book in 1876. English translators often altered their translations to suit current political views of Church and Empire. It is about six Northerners prisoners that flee Richmond during the American Civil War. Their escape is done by balloon and brings them to an inhabited island lost in the middle of the Pacific Ocean. The book tells the tale of how these men survive. Jules Gabriel Verne (1828 – 1905) was a French novelist, poet, and playwright best known for his adventure novels and his profound influence on the literary genre of science fiction.

Twenty Thousand Leagues Under The Sea: Part 2! 'The Mysterious Island' is Jules Verne's unofficial 1874 sequel to both 'Twenty Thousand Leagues Under the Sea' and 'In Search of the Castaways.' The story tells the adventures of five Americans on an uncharted island in the South Pacific. The story begins in the American Civil War, during the siege of Richmond, Virginia, the capital of the Confederate States of America. As famine and death ravage the city, five northern prisoners of war decide to escape by the unusual means of hijacking a balloon. The escapees are Cyrus Smith, a railroad engineer in the Union army (named Cyrus Harding in some English translations); his black manservant Neb (short for Nebuchadnezzar), a former slave who had been freed by Smith; the sailor Bonadventure Pencroft (who is addressed only by his surname, but his "Christian name", Bonadventure, is given to their boat; in other translations, he is also known as Pencroft); his protégé Harbert Brown (called Herbert in some translations), a young boy whom Pencroft raises as his own after the death of his father (Pencroft's former captain); and the journalist Gedéon Spilett (Gideon Spilett in English versions). The company is completed by Cyrus' dog "Top". After flying in stormy weather for several days, the group crash-lands on a cliff-bound, volcanic, unknown island, described as being located somewhere east of New Zealand. The island has a secret: it is Captain Nemo's hideout and home port of The Nautilus.

This carefully crafted ebook: "Treasure Island + The Mysterious Island (2 Unabridged Classics)" is formatted for your eReader with a functional and detailed table of contents. Treasure Island is an adventure novel by Scottish author Robert Louis Stevenson, narrating a tale of "buccaneers and buried gold". First published as a book on May 23, 1883, it was originally serialized in the children's magazine Young Folks between 1881–82 under the title Treasure Island or, the mutiny of the Hispaniola with Stevenson adopting the pseudonym Captain George North. Traditionally considered a coming-of-age story, Treasure Island is an adventure tale known for its atmosphere, characters and action, and also as a wry commentary on the ambiguity of morality — as seen in Long John Silver — unusual for children's literature now and then. It is one of the most frequently dramatized of all novels. The influence of Treasure Island on popular perceptions of pirates is enormous, including treasure maps marked with an "X", schooners, the Black Spot, tropical islands, and one-legged seamen carrying parrots on their shoulders. The Mysterious Island (French: L'île mystérieuse) is a novel by Jules Verne, published in 1874. The novel is a crossover sequel to Verne's famous Twenty Thousand Leagues Under the Sea and In Search of the Castaways, though thematically it is vastly different from those books. An early draft of the novel, initially rejected by Verne's publisher and wholly reconceived before publication, was titled Shipwrecked Family: Marooned With Uncle Robinson, seen as indicating the influence on the novel of Robinson Crusoe and The Swiss Family Robinson." The book tells the adventures of five American prisoners of war on an uncharted island in the South Pacific. Begining in the American Civil War, as famine and death ravage the city of Richmond, Virginia, five northern POWs decide to escape in a rather unusual way – by hijacking a balloon! This is only the beginning of their adventures...

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston CommonInterwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution is available as a DVD sold separately.

Discover the secret world beneath ours in this abridged version of Jules Verne's Journey to the Centre of the Earth. Summary of the Book When Alex hears his uncle proclaim that they are about to embark on a quest to find a crater, he is surprised. For one thing, it means leaving his betrothed to go on a mad quest. For another, it means going to Iceland to find a certain crater that leads down into a mysterious world. But Professor Lidenbrock is a hard man to ignore. Fuelled by the spirit of adventure, Alex leaves with Lidenbrock to find this mysterious crater which will take them to a world below the surface. They hire a guide called Hans who takes them to the volcano. Down one of its three craters, these three travellers find a majestic world hidden for centuries, even millennia. Here, prehistoric creatures roam free, and a huge species of man walks upright. Here, there is a large ocean where Palaeolithic creatures rule undeterred by the passage of time. If these three travellers can return home, this discovery will make them rich and famous beyond their wildest dreams. But then again, to do so they will have to find a way out of this world. And so far, there doesn't seem to be one. About Jules Verne Jules Verne was a French novelist best associated with his books Twenty Thousand Leagues Under The Sea, In Search of the Castaways, The Mysterious Island and Around The World In Eighty Days. The above title has been adapted into several films, including a recent 3-D film by Eric Brevig, starring Brendan Fraser, Anita Briem and Josh Hutcherson. This film is a loose adaptation and is intended to be a sequel rather than a true adaptation of Verne's text.
