LETTER TO ABRAHAM LINCOLN Human Kinetics

She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my

cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. The Works of Jonathan Swift ... Franklin Classics

Since the 1990s, the emerging field of childhood studies has been a catalyst for empirical research, policy analysis, and the development of professional practice. Which concepts and theories are the most helpful in analyzing phenomena relevant to children's lives? The Future of Childhood Studies reflects on this debate and discusses current challenges of major disciplines within the social studies of childhood. The contributions approach the question of how childhood studies needs to and might develop in the future by focusing on: -the social and cultural character of childhood in relation to the generational order--change or continuity? -the social construction of childhood and children's agency--critical challenges or critiques? -the role of new technologies in the cultural and social construction of childhood--revolution or intensification? -interdisciplinarity--new knowledge or just more knowledge? -synthesizing social theory, social policy, and empirical findings of social science research--conformism or expansion? -participation and children's rights--technologies of the self or routes to (roots of) politicization? Finally, the book considers whether alternative conceptualizations of children and childhood are needed in late modernity/late capitalism.

This successful text puts personality back into the personality course, integrating the classic insights of the personality theorists with modern research in a manner that will fascinate and captivate students. Organized around eight basic aspects of personality--psychoanalytic, ego, biological, behaviorist, cognitive, trait, humanistic, and situational/interactionist--the text both explains the classic theories and also explores how the information applies to the student reader. The text presents a balanced, critical, yet optimistic approach. Personality encourages critical thinking about human nature. While holding the highest scientific standards, the text uses unique and provocative pedagogical devices (see below) to capture students' interest and bring the field of personality to life. It has been hailed as the best-written and most relevant personality textbook in the field.

How the British rock band Radiohead subverts the idea of the concept album in order to articulate themes of alienation and anti-capitalism is the focus of Marianne Tatom Letts's analysis of Kid A and Amnesiac. These experimental albums marked a departure from the band's standard guitar-driven base layered with complex production effects. Considering the albums in the context of the band's earlier releases, Letts explores the motivations behind this change. She places the two albums within the concept-album/progressive-rock tradition and shows how both resist that tradition. Unlike most critics of Radiohead, who focus on the band's lyrics, videos, sociological importance, or audience reception, Letts focuses on the music itself. She investigates Radiohead's ambivalence toward its own success, as manifested in the vanishing subject of Kid A on these two albums.
