Decisive War, Elusive Peace Ballantine Books
"THE MEN WHO SACRIFICED FOR THEIR COUNTRY ARE RIGHTFULLY HERALDED . . . This is an

honest book—one well worth reading. . . . Stanton has laid his claim to the historian’s ranks by providing his reader with well-documented, interpretive assessments.” –Parameters The Vietnam War remains deep in the nation’s consciousness. It is vital that we know exactly what happened there—and who made it happen. This book provides a complete account of American Army ground combat forces—who they were, how they got to the battlefield, and what they did there. Year by year, battlefield by battlefield, the narrative follows the war in extraordinary, gripping detail. Over the course of the decade, the changes in fighting and in the combat troops themselves are described and documented. The Rise and Fall of an American Army represents the first total battlefield history of Army ground forces in the Vietnam War, containing much previously unreleased archival material. It re-creates the feel of battle with dramatic precision. “Stanton’s writing . . . gives the reader a terrifying graphic description of combat in the many mini-environments of Vietnam.” –The New York Times “[A] MOVING, IMPORTANT BOOK.” –St. Louis Post-Dispatch

[National Styles and Strategic Cultures](#) Greenhaven Publishing LLC

Draws upon information derived primarily from interviews with and interrogations of senior Iraqi military and civilian officials to examine why the Iraqi resistance in March and April 2003 was so weak. It focuses on two questions: (1) Why did the Iraqi Regular Army and Republican Guard forces do so little fighting? and (2) Why did Iraqi leaders fail to adopt certain defensive measures that would have made the Coalition's task more difficult?

The editors of this collection of essays have thoughtfully and thoroughly compiled a sequence of essays that take readers through the high-controversial and devastating Vietnam War. The essays are international sources, giving multiple perspectives. Readers receive a historical background on the war and learn of the major factors that contributed to it. They will read about the controversies surrounding it, as well as read compelling personal narratives from those who lived through it or were directly impacted by the war.

[Defending Air Bases in an Age of Insurgency](#) Univ of North Carolina Press

Summarizes a classified five-volume report on the planning and execution of operations in Operation IRAQI FREEDOM through June 2004. Recommends changes to Army plans, operational concepts, doctrine, and Title 10 functions.

[On this Day in the Wars of the Roses](#) Open Road Media

While most historians of the Vietnam War focus on the origins of U.S. involvement and the Americanization of the conflict, Lien-Hang T. Nguyen examines the international context in which North Vietnamese leaders pursued the war and American intervention ended. This riveting narrative takes the reader from the marshy swamps of the Mekong Delta to the bomb-saturated Red River Delta, from the corridors of power in Hanoi and Saigon to the Nixon White House, and from the peace negotiations in Paris to high-level meetings in Beijing and Moscow, all to reveal that peace never had a chance in Vietnam. Hanoi's War renders transparent the internal workings of America's most elusive enemy during the Cold War and shows that the war fought during the peace negotiations was bloodier and much more wide ranging than it had been previously. Using never-before-seen archival materials from the Vietnam Ministry of Foreign Affairs, as well as materials from other archives around the world, Nguyen explores the politics of war-making and peace-making not only from the North Vietnamese perspective but also from that of South Vietnam, the Soviet Union, China, and the United States, presenting a uniquely international portrait.

[Jungle Counting](#) Cornell University Press

In 1960 revolutionaries in South Viet Nam created the National Liberation Front, a political and military organization committed to overthrowing the Saigon government and liberating Viet Nam south of the seventeenth parallel. The role of the NLF during the war has been hotly debated, with officials in Washington claiming from the outset that the NLF was merely a puppet of Hanoi. Based on over a hundred interviews with former Communist cadre and high ranking Party officials as well as extensive archival research in Viet Nam, Robert K. Brigham's is a definitive work that provides a focus on the NLF not found elsewhere. It contributes greatly to our understanding of the Viet Nam War and encourages a reassessment of that conflict. Brigham assesses the impact of the NLF's diplomatic strategy on the conduct and outcome of hostilities, explores the origin and pursuit of its policy objectives, and defines its true relationship with North Viet Nam. He contends that the NLF's success in convincing the world that it was independent of Hanoi was critical in upsetting the political and military balance in South Viet Nam and frustrating the U.S. war effort. In addition, he

argues that differences in goals among Communists—building socialism in the north, liberating the south—resulted in disagreements over responses to American intervention, and he shows how these differences entered into foreign relations and seriously undermined revolutionary efforts. *Why the Iraqi Resistance to the Coalition Invasion Was So Weak* Little, Brown
A study of the evolving 'national styles' of conducting insurgencies and counter-insurgency, as influenced by transnational trends, ideas and practices.

The Best of History Web Sites Simon and Schuster

The first documented, systematic study of a truly revolutionary subject, this 1937 text remains the definitive guide to guerrilla warfare. It concisely explains unorthodox strategies that transform disadvantages into benefits.

[Hanoi's War](#) Penguin

This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

Why Did the Vietnam War Happen? Government Printing Office

"Intense and absorbing... If you buy only one book on the Vietnam War, this is the one you want." - Chicago Tribune Christian G. Appy's monumental oral history of the Vietnam War is the first work to probe the war's path through both the United States and Vietnam. These vivid testimonies of 135 men and women span the entire history of the Vietnam conflict, from its murky origins in the 1940s to the chaotic fall of Saigon in 1975. Sometimes detached and reflective, often raw and emotional, they allow us to see and feel what this war meant to people literally on all sides: Americans and Vietnamese, generals and grunts, policymakers and protesters, guerrillas and CIA operatives, pilots and doctors, artists and journalists, and a variety of ordinary citizens whose lives were swept up in a cataclysm that killed three million people. By turns harrowing, inspiring, and revelatory, Patriots is not a chronicle of facts and figures but a vivid human history of the war. "A gem of a book, as informative and compulsively readable as it is timely." -The Washington Post Book World

Spearhead of Logistics DIANE Publishing

"An engrossing and tautly written account of a critical chapter in American history." --Los Angeles Times Nathaniel Philbrick, author of In the Hurricane's Eye, Pulitzer Prize finalist Mayflower, and Valiant Ambition, is a historian with a unique ability to bring history to life. The Last Stand is Philbrick's monumental reappraisal of the epochal clash at the Little Bighorn in 1876 that gave birth to the legend of Custer's Last Stand. Bringing a wealth of new information to his subject, as well as his characteristic literary flair, Philbrick details the collision between two American icons-George Armstrong Custer and Sitting Bull-that both parties wished to avoid, and brilliantly explains how the battle that ensued has been shaped and reshaped by national myth.

[Operation Iraqi Freedom](#) Random House

During the Vietnam War Bao Ninh served with the Glorious 27th Youth Brigade. Of the five hundred men who went to war with the brigade in 1969, he is one of only ten who survived. The Sorrow of War is his autobiographical novel. Kien works in a unit that recovers soldiers' corpses. Revisiting the sites of battles raises emotional ghosts for him and the memory of war scenes are juxtaposed with dreams and remembrances of his childhood sweetheart. The Sorrow of War burns the tragedy of war in our minds.

la Drang—The Battle That Changed the War in Vietnam Greenhaven Press, Incorporated

An absorbing and definitive modern history of the Vietnam War from the acclaimed New York Times bestselling author of *The Secret War*. Vietnam became the Western world’s most divisive modern conflict, precipitating a battlefield humiliation for France in 1954, then a vastly greater one for the United States in 1975. Max Hastings has spent the past three years interviewing scores of participants on both sides, as well as researching a multitude of American and Vietnamese documents and memoirs, to create an epic narrative of an epic struggle. He portrays the set pieces of Dienbienphu, the 1968 Tet offensive, the air blitz of North Vietnam, and also much less familiar miniatures such as the bloodbath at Daido, where a US Marine battalion was almost wiped out, together with extraordinary recollections of Ho Chi Minh’s warriors. Here are the vivid realities of strife amid jungle and paddies that killed two million people. Many writers treat the war as a US tragedy, yet Hastings sees it as overwhelmingly that of the Vietnamese people, of whom forty died for every American. US blunders and atrocities were matched by those committed by their enemies. While all the world has seen the image of a screaming, naked girl seared by napalm, it forgets countless eviscerations, beheadings, and murders carried out by the communists. The people of both former Vietnams paid a bitter price for the Northerners' victory in privation and oppression. Here is testimony from Vietcong guerrillas, Southern paratroopers, Saigon bargirls, and Hanoi students alongside that of infantrymen from South Dakota, Marines from North Carolina, and Huey pilots from Arkansas. No past volume has blended a political and military narrative of the entire conflict with heart-stopping personal experiences, in the fashion that Max Hastings’ readers know so well. The author suggests that neither side deserved to win this struggle with so many lessons for the twenty-first century about the misuse of military might to confront intractable political and cultural challenges. He marshals testimony from warlords and peasants, statesmen and soldiers, to create an extraordinary record.

Study! Organize! Succeed! Our S.O.S Editions for The American People: Creating a Nation and a Society, 6/e, Volumes I and II offers a personalized study and review system that helps students examine the creation and development of the American nation and American society, save time studying, and perform better on exams. Our well-rounded program includes a paperback text with built-in, perforated Practice Tests, live tutoring assistance from our Tutor Center service, and access to our diagnostic testing and review system. Designed specifically to help enhance performance, this S.O.S. Edition's diagnostic testing system gauges students' prior knowledge of content and creates a unique customized study plan to help each student pinpoint exactly where additional study and review is needed. Students can follow the plan as a guide to focus their efforts and improve upon their areas of weakness with one-on-one assistance from our qualified tutors and/or by utilizing the printed Practice Tests. Additional testing features in this program help students assess their progress with the textbook material to reach their ultimate goal of success in your course. seamlessly weaves together the rich and complex story of the creation and development of the American nation and American society. With the addition of the S.O.S. Edition tools, it's a powerful combination to help your students test with confidence--and complete your course with greater comprehension and higher grades.

A History Casemate Publishers

In the opening years of the Vietnam War, a small group of American military advisors and their South Vietnamese allies were facing down the Viet Cong. The confident Americans were there to do what seemed elementary: help the South Vietnamese army defeat a ragtag guerrilla enemy. They were assured of swift success. But one officer, John Paul Vann, saw darker omens for the future—and in the Battle of Ap Bac, the Viet Cong proved him correct. Encapsulating the great terrors, mistakes, ironies, and courageous acts of the Vietnam War, “The Battle of Ap Bac” recounts the clash in which the Viet Cong first won their spurs. It is an exciting, terrifying, fast-paced portrait of close-contact warfare in the rice paddies, the story of John Vann’s attempt to singlehandedly change the terms of battle and avoid the relentless killing grounds of Vietnam that lay ahead. A key selection from Neil Sheehan’s masterpiece, *A Bright Shining Lie*—which remains the preeminent history of the Vietnam War—it offers a prescient warning for current conflicts between powerful forces and underestimated foes. A Vintage Shorts Vietnam Selection. An ebook short.

The NLF's Foreign Relations and the Viet Nam War Neal Schuman Pub

Spearhead of Logistics is a narrative branch history of the U.S. Army's Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2001 for the larger Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became again transparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters. Finally becoming a permanent branch in 1950, the Transportation Corps continued to demonstrate its capability of rapidly supporting U.S. Army operations in global theaters over the next fifty years. With useful lessons of high-quality support that validate the necessity of adequate transportation in a viable national defense posture, it is an important resource for those now involved in military

transportation and movement for ongoing expeditionary operations. This text should be useful to both officers and noncommissioned officers who can take examples from the past and apply the successful principles to future operations, thus ensuring a continuing legacy of Transportation excellence within Army operations. Additionally, military science students and military historians may be interested in this volume.

A History of the United States Army Transportation Corps Anchor

When a large group of rebels invaded Angola from a recently independent Congo in 1961, it heralded the opening shots in another African war of independence. Between 1961 and 1974, Portugal faced the extremely ambitious task of conducting three simultaneous counterinsurgency campaigns to preserve its hegemony of Angola, Portuguese Guinea and Mozambique. While other

European states were falling over themselves in granting independence to their African possessions, Portugal chose to stay and fight despite the odds against success. That it did so successfully for thirteen years in a distant multi-fronted war remains a remarkable achievement, particularly for a nation of such modest resources. For example, in Angola the Portuguese had a tiny air force of possibly a dozen transport planes, a squadron or two of F-86s and perhaps twenty helicopters: and that in a remote African country twice the size of Texas. Portugal proved that such a war can be won. In Angola victory was complete. However, the political leadership proved weak and irresolute, and this encouraged communist elements within the military to stage a coup in April 1974 and lead a capitulation to the insurgent movements, squandering the hard-won military and social gains and abandoning Portugals African citizens to generations of civil war and destitution.
