[The Myth of Atlas and Heracles](#) Brill Rodopi

Twelve eye-opening, mind-expanding, funny and provocative essays on the implications of artificial intelligence for the way we live and the way we love from New York Times bestselling author Jeanette Winterson "Talky, smart, anarchic and quite sexy," said Dwight Garner in the New York Times about Jeanette Winterson's latest novel, *Frankissstein*, which perfectly describes too this new collection of essays on the same subject of AI. In *12 Bytes*, the New York Times bestselling author of *Why Be Happy When You Can Be Normal?* Jeanette Winterson, draws on her years of thinking and reading about artificial intelligence in all its bewildering manifestations. In her brilliant, laser focused, uniquely pointed and witty style of story-telling, Winterson looks to history, religion, myth, literature, the politics of race and gender, and computer science, to help us understand the radical changes to the way we live and love that are happening now. When we create non-biological life-forms, will we do so in our image? Or will we accept the once-in-a-species opportunity to remake ourselves in their image? What do love, caring, sex, and attachment look like when humans form connections with non-human helpers, teachers, sex-workers, and companions? And what will happen to our deep-rooted assumptions about gender? Will the physical body that is our home soon be enhanced by biological and neural implants, keeping us fitter, younger, and connected? Is it time to join Elon Musk and leave Planet Earth? With wit, compassion and curiosity, Winterson tackles AI's most fascinating talking points, from the algorithms that data-dossier your whole life to the weirdness of backing up your brain.

"There is no such thing as autobiography, there is only art and lies". Set in a London of the near future, its three principal characters, Handel, Picasso and Sappho, separately flee the city and find themselves on the same train, drawn to one another through the curious agency of a book. Stories within stories take us through the unlikely love affairs of one Doll Sneerpiece, an 18th century bawd, and into the world of painful beauty where language has the power to heal. *Art & Lies* is a question and a quest: How shall I live?

Motherless and anchorless, red-headed Silver is taken in by the timeless Mr. Pew, keeper of the Cape Wrath lighthouse, located at the isolated northwestern tip of Scotland. Pew teaches her to "man the light" but more importantly he tells her ancient tales of longing and rootlessness, of ties that bind and of the slippages

that occur throughout every life, not least those of the local inhabitants. One local, Babel Dark, a nineteenth-century clergyman who loved one woman but married another, opens like a map that Silver must follow. Caught in her own particular darknesses, she embarks on an Ulyssean sift through the stories we tell ourselves, stories of love and loss, of passion and regret, stories of unending journeys that move through places and times, and the bleak finality of the shores of betrayal. A story of mutability, of talking birds and stolen books, of Darwin and Stevenson and of the Jekyll and Hyde in all of us, *Lighthousekeeping* is a way in to the rooms of our own that we secretly inhabit and the lighthouses we strive towards. Jeanette Winterson is one of the most extraordinary and original writers of her generation and this shows her at her lyrical best.

 LONGLISTED FOR THE BOOKER PRIZE. From New York Times bestselling author Jeanette Winterson comes her most anticipated book since *Why Be Happy When You Could Be Normal?* about the bodies we live in and the bodies we desire. Since her astonishing debut at twenty-five with *Oranges Are Not the Only Fruit*, Jeanette Winterson has achieved worldwide critical and commercial success as "one of the most daring and inventive writers of our time" (Elle). Her new novel, *Frankissstein*, is an audacious love story that weaves disparate lives into an exploration of transhumanism, artificial intelligence, and queer love. Lake Geneva, 1816. Nineteen-year-old Mary Shelley is inspired to write a story about a scientist who creates a new life-form. In Brexit Britain, 2019, a young transgender doctor called Ry is falling in love with Victor Stein, a celebrated professor leading the public debate around AI and carrying out some experiments of his own in a vast underground network of tunnels. Meanwhile, Ron Lord, just divorced and living with his mum, is set to make his fortune launching a new generation of sex dolls for lonely men everywhere. Across the Atlantic, in Phoenix, Arizona, a cryogenics facility houses dozens of bodies of men and women who are medically and legally dead...but waiting to return to life. What will happen when homo sapiens is no longer the smartest being on the planet? In fiercely intelligent prose, Jeanette Winterson shows us how much closer we are to that future than we realize. Funny and furious, bold and clear-sighted, *Frankissstein* is a love story about life itself.

A startling and profound exploration of how Jewish history is exploited to comfort the living. Renowned and beloved as a prizewinning novelist, Dara Horn has also been publishing penetrating essays since she was a teenager. Often asked by major publications to write on subjects related to Jewish culture—and increasingly in response to a recent wave of deadly antisemitic attacks—Horn was troubled to realize what all of these

assignments had in common: she was being asked to write about dead Jews, never about living ones. In these essays, Horn reflects on subjects as far-flung as the international veneration of Anne Frank, the mythology that Jewish family names were changed at Ellis Island, the blockbuster traveling exhibition *Auschwitz*, the marketing of the Jewish history of Harbin, China, and the little-known life of the "righteous Gentile" Varian Fry. Throughout, she challenges us to confront the reasons why there might be so much fascination with Jewish deaths, and so little respect for Jewish lives unfolding in the present. Horn draws upon her travels, her research, and also her own family life—trying to explain Shakespeare's *Shylock* to a curious ten-year-old, her anger when swastikas are drawn on desks in her children's school, the profound perspective offered by traditional religious practice and study—to assert the vitality, complexity, and depth of Jewish life against an antisemitism that, far from being disarmed by the mantra of "Never forget," is on the rise. As Horn explores the (not so) shocking attacks on the American Jewish community in recent years, she reveals the subtler dehumanization built into the public piety that surrounds the Jewish past—making the radical argument that the benign reverence we give to past horrors is itself a profound affront to human dignity.

By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by

the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon. Praise for *Cloud Atlas* “[David] Mitchell is, clearly, a genius. He writes as though at the helm of some perpetual dream machine, can evidently do anything, and his ambition is written in magma across this novel’s every page.”—The New York Times Book Review “One of those how-the-holy-hell-did-he-do-it? modern classics that no doubt is—and should be—read by any student of contemporary literature.”—Dave Eggers “Wildly entertaining . . . a head rush, both action-packed and chillingly ruminative.”—People “The novel as series of nested dolls or Chinese boxes, a puzzle-book, and yet—not just dazzling, amusing, or clever but heartbreaking and passionate, too. I’ve never read anything quite like it, and I’m grateful to have lived, for a while, in all its many worlds.”—Michael Chabon “*Cloud Atlas* ought to make [Mitchell] famous on both sides of the Atlantic as a writer whose fearlessness is matched by his talent.”—The Washington Post Book World “Thrilling . . . One of the biggest joys in *Cloud Atlas* is watching Mitchell sashay from genre to genre without a hitch in his dance step.”—Boston Sunday Globe “Grand and elaborate . . . [Mitchell] creates a world and language at once foreign and strange, yet strikingly familiar and intimate.”—Los Angeles Times *Written on the Body* Grove Press

A BBC TWO BETWEEN THE COVERS BOOK CLUB PICK Question: What’s worse than being in a wheelchair? Answer: Being a fuck-up in a wheelchair. After a car accident Jarred discovers he’ll never walk again. How can he stop himself careering out of control? As he tries to piece his life together again, he looks back over his past – the tragedy that blasted his family apart, why he ran away, the damage he’s caused himself and others – and starts to wonder whether, maybe, things don’t always have to stay broken after all. The Coward is about hurt and forgiveness. It’s about how the world treats disabled people. And it’s about how we write and rewrite the stories we tell ourselves about our lives – and try to find a happy ending.

Gut Symmetries Vintage Canada The highwire artist of the English novel redraws the romantic triangle for the post-Einsteinian universe, where gender is as elastic as matter, and any accurate Grand Unified Theory (GUT) must encompass desire alongside electromagnetism and gravity. Two Filmscripts Random House “Sáenz’ poetic narrative will captivate readers from the first sentence to the last paragraph of this beautifully written novel. . . . It is also a celebration of life and a song of hope in celebration of family and friendship, one that will resonate loud and long with teens.”—Kirkus Reviews “...There is never a question of either Sáenz’s own extraordinary capacity for caring and compassion or the authenticity of the experiences he records in this heartfelt account of healing and hope.”—Booklist “Offering insight into [an adolescent’s] addiction, dysfunction and mental illness, particularly in the wake of traumatic events, Sáenz’s artful rendition of the healing process will not soon be forgotten.”—Publishers Weekly “Sáenz weaves together [18-year-old] Zach’s past, present, and changing disposition toward his future with stylistic grace and emotional insight. This is a powerful and edifying look into both a tortured psyche and the methods by which it can be healed.”—School Library Journal Zach is eighteen. He is bright and articulate. He’s also an alcoholic and in rehab instead of high school, but he doesn’t remember how he got there. He’s not sure he wants to remember. Something bad must have happened. Something really, really bad. Remembering sucks and being alive—well, what’s up with that? I have it in my head that when we’re born, God writes things down on our hearts. See, on some people’s hearts he writes Happy and on some people’s hearts he writes Sad and on some people’s hearts he writes Crazy on some people’s hearts he writes Genius and on some people’s hearts he writes Angry and on some people’s hearts he writes Winner and on some people’s hearts he writes Loser. It’s all like a game to him. Him. God. And it’s all pretty much random. He takes out his pen and starts writing on our blank hearts. When it came to my turn, he wrote. I don’t like God very much. Now, with her first collection—seventeen stories that span her entire career—Jeanette Winterson reveals all the facets of her extraordinary imagination. Whether transporting us to bizarre new geographies—a world where sleep is illegal, an island of diamonds where the rich wear jewelry made of coal—or revealing so perfectly, so exactly, the joy and pain of owning a brand-new dog, she proves herself a master of the short form. For her readers, a celebration—and for everyone else, a wonderful introduction to this highly original and consistently daring writer, who has become ‘one of our most brilliant, visionary storytellers’ (San Francisco Chronicle)

Candid and straightforward.”—Huffington Post Harold Burson, described by PRWeek as “the [20th] century’s most influential PR figure,” is perhaps the most recognized name in the industry today. The founder of PR giant Burson-Marsteller had an incredible 70-year career, in which he built a global enterprise from a one-man

By way of personal and professional examples, Burson shows readers what public relations really entails—its challenges, methodologies, and impacts. He interweaves iconic moments from the history of public relations into his story, making this “a must-read for any PR professional” (Jack Welch, executive chairman, Jack Welch Management Institute). “Every detail of Harold’s professional life is brought alive through an interesting narrative of the highs and lows . . . In this book, scholars, students and aficionados of Jeanette Winterson will find ten analyses of time, space and narrative in her works. From her very first novel, Jeanette Winterson has made her characters move in time and in space, and she has always shown a sophisticated interest in narrative forms, and this is the first book to focus entirely on these central concerns. The writers of the essays provide different perspectives on the three subjects, from postmodernism to quantum physics, queer theory to genre studies and the uncanny to stylistics. In its section on time and narrative, the volume offers a fresh approach to Winterson’s works, with a concentration on autobiographical elements, love, desire, the language of quantum physics, and the queer uncanny. The next section, space and narrative, pursues the motifs of journeys, utopic spaces, cyberspace and labyrinths, and includes a chapter on the shorter fiction. The last section, which comprises essays that cover all three elements of time, space and narrative equally, examines these themes as they affect Winterson’s representation of voices and corporeality, and her use of romance narrative in the children’s fiction. The volume covers Winterson’s major fiction, with the Introduction connecting the images of huts, rivers and fire-gazing that are found extensively in her works to the themes of time and space, and bringing the discussion up to Winterson’s latest novel, *The Stone Gods*. A mixture of established and new scholars presents in this book an exciting array of the latest ideas on this respected and popular writer.
