The British General Election of 2019
Routledge

There She Goes Again interrogates the representation of ostensibly powerful women in transmedia franchises, examining how presumed feminine traits—love, empathy, altruism, diplomacy—are alternately lauded and repudiated as possibilities for effecting long-lasting social change. By questioning

how these franchises reimagine their protagonists over time, the book reflects on the role that gendered exceptionalism plays in social and political action, as well as what forms of knowledge and power are presumed distinctly feminine. The franchises explored in this book illustrate the ambivalent (post)feminist representation of women protagonists as uniquely gifted in ways both gendered and seemingly ungendered, and yet inherently bound to expressions of their femininity. At heart, *There She Goes Again* asks under what terms and in what contexts women protagonists are imagined, envisioned,

embodied, and replicated in media. Especially now, in a period of gradually increasing representation, women protagonists demonstrate the importance of considering how we should define—and whether we need—feminine forms of knowledge and power.

After Charlie Hebdo Bloomsbury Publishing USA

This book fills a gap in our knowledge about the activities of Western supporters and members of Islamic State by examining the experience of their Australian cohort. More than 200 Australian men, women and children

travelled to Syria and Iraq to fight with Islamist groups and to help establish an Islamic State by force. Dozens more assisted Islamic State by supporting those overseas or by planning or carrying out terrorist attacks in Australia. For all that, little is publicly known about the impact of the Syrian conflict on Australia's radical Islamists. This book provides a well-researched examination of how and why so many Australians travelled to fight for or otherwise supported Islamic State. From the failed attempt to bring down an Etihad passenger plane en route from Sydney to Abu Dhabi, to showing their children holding the heads of Syrian soldiers, Australians were prominent in carrying out Islamic State's directions. Using a range of Australian and foreign court records, social and mainstream media content, this book provides the first detailed look at who these people were, what tasks they carried out, how they came to adopt this radical view of Islam and what long-term legal and security implications are likely to result from their actions. This book will be of interest to students of terrorism, political Islam and security studies. [Die magischen Kanäle](#) ROI Edizioni

This volume examines both historical developments and contemporary expressions of blasphemy across the world. The transgression of religious boundaries incurs more or less severe sanctions in various religious traditions. This book looks at how religious and political authorities use ideas about blasphemy as a means of control. In a globalised world where people of different faiths interact more than ever before and world-views are an increasingly important part of identity politics, religious boundaries are a source of controversy. The book goes beyond many others in this field by widening its scope beyond the legal aspects of freedom of expression. Approaching blasphemy as effective speech, the chapters in this book focus on real-life situations and ask the following questions: who are the blasphemers, who are their accusers and what does blasphemy accomplish? Utilising case studies from Europe, the Middle East and Asia that encompass a wide variety of faith traditions, the book guides readers to a more nuanced appreciation of the historical roots, political implications and religious rationale of attitudes towards

blasphemy. Incorporating historical and contemporary approaches to blasphemy, this book will be of great use to academics in Religious Studies and the Sociology of Religion as well as Political Science, Media Studies, History.

Tao of Charlie Munger Börsenbuchverlag
This volume brings together scholars from different fields to explore the power, consequences and everyday practices of security expertise. Expertise mediates between different forms of knowledge: scientific and technological, legal, economic and political knowledge. This book offers the first systematic study of security expertise and opens up a productive dialogue between science and technology studies and security studies to investigate the character and consequences of this expertise. In security theory, the study of expertise is crucial to understanding whose knowledge informs security making and to reflect on the impact and responsibility of security analysis. In science and technology studies, the study of security politics adds a challenging new case to the agenda of research on expertise and policy. The contributors investigate cases such as

academic security studies, security think tanks, the collaboration between science, anthropology and the military, transnational terrorism, and the ethical consequences of security expertise. Together they challenge our understanding of how expertise works and what consequences it has for security politics and international relations. This book will be of particular interest to students of critical security studies, sociology, science and technology studies, and IR/security studies in general.

American Indian Politics and the American Political System Springer Nature

The recruitment of ISIS terrorists may have begun as an extremist crusade in Iraq, but it has quickly become a global phenomenon that is taking hold of people from diverse backgrounds, cultures, and belief systems. The iconic image of a terrorist as an old, angry, middle-eastern man is long gone. It has since been replaced by young men and women of all races and religious upbringings, in tactical gear and ski masks, carrying heavy artillery. From the outside looking into the Islamic State, most people see these men

and women as nothing more than evil terrorists with a psychotic penchant for violence. Internally, they perceive themselves as freedom fighters or mujahedeen, who violate the laws of men to protect their community according to the will of Allah. Ultimately, neither of these perceptions are based in reality. While some experts claim that terrorist recruitment is completely random, criminologist Kimberly Mehlman-Orozco has identified clear patterns which can be used to explain how regular people are being conscripted into terrorism. Using interviews with convicted terrorists, in-depth research and analysis of extremist propaganda, and case-specific details, Dr. Mehlman-Orozco provides nuanced theories into the methods of terrorist recruitment—methods which can be used to identify persons at high risk of being targeted. The *Jihadi Next Door* provides unprecedented information that can be used to actually combat terrorism. By laying bare the tactics used by ISIS to deceive and exploit new recruits and exposing the veneer these extremists operate under, Dr. Mehlman-Orozco hopes to empower readers with the knowledge

needed to prevent future recruitment and thereby preventing acts of terrorism. *Criminals and Terrorists in Partnership* Routledge

The British General Election of 2019 is the definitive account of one of the most consequential and controversial general elections in recent times, when Boris Johnson gambled everything calling an early election to 'Get Brexit Done', and emerged triumphant. Drawing upon cutting-edge research and wide-ranging elite interviews, the new author team provides a compelling and accessible narrative of this landmark election and its implications for British politics, built on unparalleled access to all the key players, and married up to first-class data analysis. The 21st volume in a prestigious series dating back to 1945, it offers something for everyone from Westminster insiders and politics students to the interested general reader.

Curable Youth United Foundation
A series of laws passed in the 1970s promised the nation unprecedented transparency in government, a veritable “sunshine era.” Though citizens enjoyed a new arsenal of secrecy-busting tools,

officials developed a handy set of workarounds, from over classification to concealment, shredding, and burning. It is this dark side of the sunshine era that Jason Ross Arnold explores in the first comprehensive, comparative history of presidential resistance to the new legal regime, from Reagan-Bush to the first term of Obama-Biden. After examining what makes a necessary and unnecessary secret, Arnold considers the causes of excessive secrecy, and why we observe variation across administrations. While some administrations deserve the scorn of critics for exceptional secrecy, the book shows excessive secrecy was a persistent problem well before 9/11, during Democratic and Republican administrations alike. Regardless of party, administrations have consistently worked to weaken the system's legal foundations. The book reveals episode after episode of evasive maneuvers, rule bending, clever rhetorical gambits, and downright defiance; an army of secrecy workers in a dizzying array of institutions labels all manner of documents "top secret," while other government workers and agencies manage to suppress information with a

"sensitive but unclassified" designation. For example, the health effects of Agent Orange, and antibiotic-resistant bacteria leaking out of Midwestern hog farms are considered too "sensitive" for public consumption. These examples and many more document how vast the secrecy system has grown during the sunshine era. Rife with stories of vital scientific evidence withheld, justice eluded, legalities circumvented, and the public interest flouted, *Secrecy in the Sunshine Era* reveals how our information society has been kept in the dark in too many ways and for too long.

International Case Studies of Terrorist Rehabilitation Rutgers University Press

Since the 1970s, the Site C Dam in northeastern British Columbia's Peace River Valley has been touted by B.C. Hydro and successive governments as necessary to meet the province's increasing energy needs. With its enormous \$10 billion price tag, the dam would be the largest public works project in BC history. It would be the third dam on the Peace River, and destroy traditional unceded territory belonging to Treaty 8 First Nations. Following the last

provincial election, the newly appointed NDP government called for a review of the project, but work on the dam continues. This comes after protests by aboriginal groups and landowners, several lawsuits against the government, and federal government intervention to let the dam go ahead. More recently, there has been a call from a United Nations panel to review how the dam will affect Indigenous land. This book presents the independent voices of citizen experts describing every important impact of the dam, including: Sustainable energy expert Guy Dauncey on future energy demand, and whether there is likely to be a need for the dam's electricity An interview with aboriginal activist Helen Knott on the dam's assault on traditional lands and culture, in particular Indigenous women Agrologist Wendy Holm on the farm land impact — prime horticulture land important to food security and nutrition Family physician Warren Bell on the effect that loss of traditional way of life and connection to the land has had on the health of aboriginal people Wildlife biologist Brian Churchill with forty years' experience of studying its land and wildlife Former

environmental minister Joan Sawicki on government cover-ups and smoking guns
 Energy industry watchdog Andrew Nikiforuk on the links between dams, fracking and earthquakes
 Award-winning broadcaster Rafe Mair on how party politics corrupts political leadership, and the role of activism and civil disobedience in shaping government decision-making
 David Schindler, one of the world's foremost water ecologists, explains the role dams like Site C will play in Canada's climate change strategy
 Joyce Nelson connects the dots between the Site C dam and continental water sharing plans
How to Raise an Adult Cornell University Press

A historical analysis of the transatlantic relations of the American Indian radical sovereignty movement of the late Cold War. From Wounded Knee to Checkpoint Charlie examines the history of the transatlantic alliance between American Indian sovereignty activists and Central European solidarity groups, and their entry into the United Nations in the 1970s and 1980s. In the late Cold War, Native American activists engaged in transnational diplomacy for nation building

by putting outside pressure on the US government for a more progressive Indian policy that reached for the full decolonization of Native American communities into independence. By using extensive multinational archival research complemented by interviews, György Ferenc Tóth investigates how older transatlantic images of American Indians influenced the alliance between Native activists and Central European groups, how this coalition developed and functioned, and how the US government and the regimes of the Eastern Bloc responded to this transatlantic alliance. This book not only places the American Indian radical sovereignty movement in an international context, but also recasts it as a transnational struggle, thus connecting domestic US social and political history to the history of Cold War transatlantic relations and global movements.
Difficult Death, Dying and the Dead in Media and Culture Simon and Schuster
 North Carolina musicians pioneered and mastered the genres of old-time and bluegrass music. The roots of American music are deeply grounded in North Carolina's music history. Doc Watson

played mountain fiddle tunes on guitar. He emerged as the father of flatpicking and forever changed the role of the guitar in American music. Charlie Poole created techniques that eventually defined bluegrass, and folks around the state heard his banjo on some of the most important old-time recordings. Rising star Rhiannon Giddens keeps the music alive today through new interpretations of classic old-time and bluegrass songs. Elizabeth Carlson profiles these and other masters of string music in this fascinating record of North Carolina's musical past, present and future.

Stimulating Story Writing! Inspiring Children aged 7-11 offers innovative and exciting ways to inspire children to want to create stories and develop their story writing skills. This practical guide offers comprehensive and informed support for professionals to effectively engage 'child authors' in stimulating story writing activity. Packed full of story ideas, resource suggestions and practical activities, the book explores various ways professionals can help children to develop

the six key elements of story, these being character, setting, plot, conflict, resolution and ending. All of the ideas in the book are designed to complement and enrich existing writing provision in classrooms with strategies such as role play, the use of different technologies, and using simple open ended resources as story stimuli. Separated into two sections and with reference to the Key Stage 2 curricula, this timely new text provides professionals with tried and tested strategies and ideas that can be used with immediate effect. Chapters include: • Creating Characters • The Plot Thickens • Inspired Ideas • Resourcing the Story Stimulation This timely new text is the perfect guide for inspiring children aged 7-11 in the classroom and will be an essential resource for teachers and students on teacher training courses.

Charlie Munger Rotpunktverlag

Watching Murder shines a light onto the dark world of jihadi murder videos and the people who watch and share them on the internet. Images and videos of murder, torture and other cruelties are everywhere on the internet. Why do some people seek out and watch this material, how are they

affected by it and do they have a right to watch any of it in the first place? In this ground-breaking book, terrorism scholar Simon Cottee visits the murky fringes of the internet in search of answers. Focusing on ISIS, he shows how the group transformed the urban myth of the snuff movie into a grim reality watched by tens of thousands of people across the globe. On shock-sites, he finds a contingent of ISIS fans who, while hating the group, love to watch its most monstrous depredations in high definition. He interviews his fellow extremism researchers and asks them about all the dark things they have seen online and how this has affected their mental health. He speaks with the "cleaners" whose job is to report and remove violent jihadi propaganda from the internet. And he surveys thousands of young adults to find out what they think of ISIS and its notorious beheading videos. Cottee exposes the hysteria around online radicalization, and shows how our engagement with violent online spectacles is much more complex and multifaceted than many would have us believe. Watching Murder will appeal to anyone with an interest in violence, media,

terrorism and ISIS. It will be of particular interest to students and scholars of terrorism studies, political science, culture and communication.

The Organization of Islamic Cooperation and Human Rights SUNY Press

Sie haben Menschen vergiftet, erschossen oder mit ihren eigenen Händen umgebracht. Sie haben ihre Opfer zerstückelt, vergraben oder verspeist. Charles Manson, Issei Sagawa, Dorothea Puente, Peter Lundin und Wayne Lo sind kaltblütige Mörder. Aus ihren Taten machen sie noch dazu ein Mordsgeschäft. Als »Ikonen des Horrors« verkaufen sie »Murderabilia«, laden zu kostspieligen Interviews oder versteigern Marathonsex. Micael Dahlén, schwedischer Wirtschaftsprofessor mit Kultstatus, hat sich in ihren Bannkreis begeben und fünf »Monster« hautnah erlebt. Ein schonungsloses Buch über die Faszination des Bösen und eine ekelerregende Wahrheit über die Welt, in der wir leben.

Secrecy in the Sunshine Era Antje Kunstmann

Jeremy Scahill erzählt in dieser packenden investigativen Reportage, wie es dazu

kam, dass Mord zu einem zentralen Instrument der U.S.-Sicherheitspolitik geworden ist, und welche Konsequenzen diese Entscheidung hat – für unzählige Menschen in den unterschiedlichsten Ländern und für die Zukunft der amerikanischen Demokratie. In Afghanistan und Pakistan, Jemen, Somalia und anderen Ländern interviewte Scahill CIA-Agenten, Söldner und Spezialkräfte der US-Army. Er begab sich tief in das von Al-Qaida gehaltene Territorium im Jemen, traf von der CIA protegierte Warlords in Mogadischu und sprach mit den zivilen Opfern der Einsätze amerikanischer Spezialkommandos und Drohnenattacken, die die Vereinigten Staaten lieber geheim halten wollen. In dieser bedrohlichen Geschichte von der Front der unerklärten Kriege dokumentiert Jeremy Scahill das neue Paradigma der amerikanischen Kriegsführung: Gekämpft wird überall, von Spezialkräften, die offiziell gar nicht existieren, aber weltweit unzählige Einsätze durchführen, die nie ans Licht der Öffentlichkeit geraten. Scahill enthüllt das erschreckende Bild einer geheimen U.S.-Mordmaschinerie, die mächtiger geworden ist als jeder Präsident, der ins Weiße Haus

einzieht. Und er zeigt, dass diese verdeckten amerikanischen Kriege, anstatt die USA – und die Welt – vor dem Terror zu schützen, dazu führen, dass der Terror wachsen und sich weiter ausbreiten wird. Das Tao des Charlie Munger University Press of Kansas
Stimulating Emerging Story Writing!
 Inspiring Children aged 3-7 offers innovative and exciting ways to inspire young children to want to create stories and develop their emerging story writing skills. This practical guide offers comprehensive and informed support for professionals to effectively engage ‘child authors’ in stimulating story writing activities. Packed full of story ideas, resource suggestions and practical activities, the book explores the various ways professionals can help young children to develop the six key elements of story, these being character, setting, plot, conflict, resolution and ending. All of the ideas in the book are designed to support a setting’s daily writing provision such as mark making opportunities, role play and using simple open ended play resources. Separated into two sections and with reference to the EYFS and Key Stage 1

curricula, this timely new text provides practitioners with tried and tested strategies and ideas that can be used with immediate effect. Chapters include: Creating Characters The Plot Thickens Inspired Ideas Resourcing the Story Stimulation This timely new text is the perfect guide for inspiring young children aged 3-7 in the classroom and will be an essential resource for practitioners, teachers and students on both early years and teacher training courses.

Stimulating Emerging Story Writing!
 Routledge

Feminismus ist hip. Beyoncé und Emma Watson bekennen sich zum »F-Wort«, Taylor Swift sowieso. Eine ganze Marketingindustrie schreibt sich »Empowerment« auf die Fahnen, um damit so gut wie jedes Produkt, von Unterwäsche bis Frühstücksflocken, an die Frau zu bringen. Was als politische Bewegung für soziale Gerechtigkeit begonnen hat, scheint heute kaum noch mehr als ein Shoppingtipp in einem großen, bunten Markt zu sein, der uns Lösungen für Probleme und Problemzonen verkauft, die erst das System zu solchen macht. Der Feminismus als Marke setzt

individuelle Selbstverwirklichung über kollektive Solidarität. Andi Zeisler, Gründerin und Herausgeberin des *Bitch Magazine,* nimmt in ihrem höchst unterhaltsamen Buch eine schillernde Reihe von Beispielen aus Popkultur, Medien und Werbung unter die Lupe und zeigt, wie der Feminismus vereinnahmt und verwässert wurde. »Ermächtigung« ist in aller Munde, auf der anderen Seite hat die Wahl Donald Trumps zum US-Präsidenten gezeigt, dass Sexismus auf erschreckende Art salonfähig ist.

Unerschrocken und mit beißendem Witz erzählt dieses Buch, wie wir es dazu haben kommen lassen, und es erinnert uns daran, dass mit Feminismus eigentlich einmal etwas anderes gemeint war.

The Jihadi Next Door OR Books

As Scandinavian societies experience increased ethno-religious diversity, their Christian-Lutheran heritage and strong traditions of welfare and solidarity are being challenged and contested. This book

explores conflicts related to religion as they play out in public broadcasting, social media, local civic settings, and schools. It examines how the mediatization of these controversies influences people's engagement with contested issues about religion, and redraws the boundaries between inclusion and exclusion.

FEATURED CONTRIBUTORSLynn Schofield Clark, Professor of Media, Film, and Journalism at the University of Denver, Colorado, USAMarie Gillespie, Professor of Sociology at the Open University, UKBirgit Meyer, Professor of Religious Studies at Utrecht University, the Netherlands
Schmutzige Kriege Stanford University Press

As the world looked on in horror at the Paris terror attacks of January and November 2015, France found itself at the centre of a war that has split across nations and continents. The attacks set in motion a steady creep towards ever more repressive state surveillance, and have fuelled the resurgence of the far right across Europe and beyond, while leaving the left dangerously divided. These developments raise profound questions about a number of issues central to

contemporary debates, including the nature of national identity, the limits to freedom of speech, and the role of both traditional and social media. After Charlie Hebdo brings together an international range of scholars to assess the social and political impact of the Paris attacks in Europe and beyond. Cutting through the hysteria that has characterised so much of the initial commentary, it seeks to place these events in their wider global context, untangling the complex symbolic web woven around 'Charlie Hebdo' to pose the fundamental question - how best to combat racism in our supposedly 'post-racial' age?

Unruly Speech Rowman & Littlefield

Written for the general reader as well as the professional, this succinct but comprehensive work examines the hybrid nature of the two violent extremist movements threatening the United States: Islamist extremism and white nationalism. Scholarship as well as popular discourse on terrorism often focuses disproportionately on specific groups without paying sufficient attention to the ideology that motivates them. This book emphasizes understanding and countering

the ideology that fuels extremism over preoccupation with specific organizations such as Al Qaeda or ISIS. It sets contemporary terrorist threats in perspective, avoiding fear-mongering and political rhetoric. The book examines the nature of violent extremism today in all its forms, including lone wolves and cyber

threats. Focusing on the threats posed by both international and domestic terrorism, it analyzes each in depth as a multidimensional hybrid phenomenon: each threat exists as an ideology, as distinct groups espousing that ideology, and as a network of followers. Short, easy-

to-read chapters take readers through the subject matter in a clear, methodical manner. Written in an accessible style by an author who has studied terrorism for more than 30 years and provided extensive media coverage on the subject, the work is a valuable addition to the literature on violent extremism.
