Edward Lear wrote a well-known autobiographical poem that begins 'How pleasant to know Mr Lear!' But how well do we really know him? On the one hand he is, in John Ashbery's words, 'one of the most popular poets who ever lived!'; on the other hand he has often been overlooked or marginalized by scholars and in literary histories. James Williams's account, the first book-length critical study of the poet since the 1980s, sets out to re-introduce Lear and to accord him his proper place: as a major Victorian figure of continuing

appeal and relevance, and especially as a poet of beauty, comedy, and profound ingenuity. Williams approaches Lear's work thematically, tracing some of its most fundamental subjects and situations. Grounded in attentive close readings, Williams also connects Lear's nonsense with his various other creative endeavours: as a zoological illustrator and landscape painter, a travel writer, and a prolific diarist and correspondent.

 Since 2000, London has seen unprecedented levels of unrest. Its streets have become the battleground for a host of new demands and new ideological standpoints; its occupants, protesters and authority alike, have had to invent new tactics to cope with the pressure of street

politics and advances in social media. Riot City deals in detail with the story behind the capital's unrest from the perspective of protesters, police and government. Using a range of sources, from security briefings to reportage, Clive Bloom provides an analysis of the modern protest movement, placing it in the context of a long history of rebellion. From the student protests to the August riots, Bloom deftly draws parallels between London's shocking events and reveals, more disturbingly, how many lessons can still be learned from our riotous past.

A feminist musician icon, Viv Albertine reveals the rocking, uncompromising story of her life on the front lines at the birth of

the British punk movement and beyond in this exciting, humorous, and inspiring memoir. Selected by the New York Times as one of the 50 Best Memoirs of the Past 50 Years Viv Albertine is a pioneer. As lead guitarist and songwriter for the seminal band The Slits, she influenced a future generation of artists including Kurt Cobain and Carrie Brownstein. She formed a band with Sid Vicious and was there the night he met Nancy Spungen. She tempted Johnny Thunders...toured America with the Clash...dated Mick Jones...and inspired the classic Clash anthem "Train in Vain." But Albertine was no mere muse. In *Clothes, Clothes, Clothes. Music, Music, Music. Boys, Boys, Boys.*, Albertine delivers a unique and unfiltered look at a traditionally male-dominated scene. Her story is so much more than a music memoir. Albertine's narrative is nothing less than a fierce correspondence from a life on the fringes of culture. The author recalls rebelling from conformity and patriarchal society ever since her days as an adolescent girl in the same London suburb of Muswell Hill where the Kinks formed. With brash honesty—and an unforgiving memory—Albertine writes of immersing herself into punk culture among the likes of the Sex Pistols and the Buzzcocks. Of her devastation when the Slits broke up and her reinvention as a director and screenwriter. Or abortion, marriage, motherhood, and surviving cancer. Navigating infidelity and negotiating divorce. And launching her comeback as a solo artist with her debut album, *The Vermilion Border*. *Clothes, Clothes, Clothes. Music, Music, Music. Boys, Boys, Boys.* is a raw chronicle of music, fashion, love, sex, feminism, and more that connects the early days of punk to the Riot Grrl movement and beyond. But even more profoundly, Viv Albertine's remarkable memoir is the story of an empowered woman staying true to herself and making it on her own in the modern world.

A spooky fantasy-adventure in which death is only the beginning! When Ben Harvester meets the mysterious Mr. October in London's Highgate Cemetery, he has no idea what a strange and dramatic turn his life is about to take. But Ben soon discovers that Mr. October works for the Ministry of Pandemonium, a secret organization responsible for tracking down lost souls and guiding them to the afterlife. And Mr. October wants him to be his new recruit. As Ben's apprenticeship begins, his eyes are opened to a new world of wonder -- a world where magic is real and ghosts haunt every crime scene,

accident site, and hospital corridor. But with the wonder comes horror. Because the Ministry is not the only organization hunting spirits of the dead. The ghoulish Lords of Sundown want those spirits for their own sinister reasons. And as far as they're concerned, Ben's just chosen the wrong side in a very dangerous war. Vivienne Westwood began *Get A Life*, her online diary, in 2010 with an impassioned post about Native American activist Leonard Peltier. Since then, she has written two or three entries each month, discussing her life in fashion and her involvement with art, politics and the environment. Reading Vivienne's thoughts, in her own words, is as fascinating and provocative as you would expect from Britain's punk dame - a woman who always says exactly what she believes. And what a life! One week, you might find Vivienne up the Amazon, highlighting tribal communities' struggles to maintain the rainforest; another might see her visiting Julian Assange in the Ecuadorian Embassy, or driving up to David Cameron's house in the Cotswolds in a full-on tank. Then again, Vivienne might be hanging out with her friend Pamela Anderson, or in India for Naomi Campbell's birthday party, or watching Black Sabbath in Hyde Park with Sharon Osbourne. The beauty of Vivienne Westwood's diary is that it is so fresh and unpredictable. In book form, generously illustrated with her own selection of images, it is irresistible.

We present a novel approach that incorporates individual entity stress testing and losses from systemic risk effects (SE losses) into macroprudential stress testing. SE losses are measured using a reduced-form model to value financial entity assets, conditional on macroeconomic stress and the distress of other entities in the system. This valuation is made possible by a multivariate density which characterizes the asset values of the financial entities making up the system. In this paper this density is estimated using CIMDO, a statistical approach, which infers densities that are consistent with entities' probabilities of default, which in this case are estimated using market-based data. Hence, SE losses capture the effects of interconnectedness structures that are consistent with markets' perceptions of risk. We then show how SE losses can be decomposed into the likelihood of distress and the magnitude of losses, thereby quantifying the contribution of specific entities to systemic contagion. To illustrate the approach, we quantify SE losses due to Lehman Brothers' default.

This collection explores what the social and philosophical aspects of veganism offer to critical theory. Bringing together leading and emerging scholars working in animal studies and critical animal studies, *Thinking Veganism in Literature and Culture* shows how the experience of being vegan, and the conditions of thought fostered by veganism, pose new questions for work across multiple disciplines. Offering accounts of veganism which move beyond contemporary conceptualizations of it as a faddish dietary preference or set of proscriptions, it explores the messiness and necessary contradictions involved in thinking about or practicing a vegan way of life. By thinking through as well as about veganism, the project establishes the value of a vegan mode of reading, writing, looking, and thinking.

'I couldn't put this book down. Malcolm inspired us to make art out of our boredom and anger. He set us free' Bobby Gillespie, *Primal Scream* Included in the Guardian 10 best music biographies 'Excellent . . . With this book, Gorman convincingly moves away from the ossified image of McLaren as a great rock'n'roll swindler, a morally

bankrupt punk Mephistopheles, and closer towards his art-school roots, his love of ideas. Tiresome, unpleasant, even cruel - he was, this book underlines, never boring' Sunday Times 'Exhaustive . . . compelling' Observer 'Definitive . . . epic' The Times 'Gobsmacker of a biography' Telegraph 'This masterful and painstaking biography opens its doorway to an era of fluorescent disenchantment and outlandish possibility' Alan Moore Malcolm McLaren was one of the most culturally significant but misunderstood figures of the modern era. Ten years after his life was cruelly cut short by cancer, *The Life & Times of Malcolm McLaren* sheds fascinating new light on the public achievements and private life of this cultural iconoclast and architect of punk, whose championing of street culture movements including hip-hop and Voguing reverberates to this day. With exclusive contributions from friends and intimates and access to private papers and family documents, this biography uncovers the true story behind this complicated figure. McLaren first achieved public prominence as a rebellious art student by making the news in 1966 after being arrested for burning the US flag in front of the American Embassy in London. He maintained this incendiary reputation by fast-tracking vanguard and left-field ideas to the centre of the media glare, via his creation and stewardship of the Sex Pistols and work with Adam Ant, Boy George and Bow Wow Wow. Meanwhile McLaren's ground-breaking design partnership with Vivienne Westwood and his creation of their visionary series of boutiques in the 1970s and early '80s sent shockwaves through the fashion industry. *The Life & Times of Malcolm McLaren* also essays McLaren's exasperating Hollywood years when he broke bread with the likes of Steven Spielberg though his slate of projects, which included the controversial *Heavy Metal*, *Surf Nazis* and *Wilde West*, in which Oscar Wilde introduced rock'n'roll to the American mid-west in the 1880s, proved too rich for the play-it-safe film business. With a preface by Alan Moore, who collaborated with McLaren on the unrealised film project *Fashion Beast*, and an essay by Lou Stoppard casting a twenty-first-century perspective over his achievements, *The Life & Times Of Malcolm McLaren* is the explosive and definitive account of the man dubbed by Melvyn Bragg 'the Diaghilev of punk'. **Moon Galapagos Islands** Moon Travel *The Rough Guide to South America on a Budget* is the definitive guide to making the most of this exotic region without breaking the bank. E. F., Regular* Scholastic Inc. *Reading Veganism: The Monstrous Vegan, 1818 to Present* focuses on the iteration of the trope 'the monstrous vegan' across two hundred years of Anglophone literature. Explicating, through such monsters, veganism's relation to utopian longing and challenge to the conceptual category of the 'human,' the book explores ways in which ethical identities can be written, represented, and transmitted. *Reading Veganism* proposes that we can recognise and identify the monstrous vegan in relation to four key traits. First, monstrous vegans do not eat animals, an abstinence that generates a seemingly inexplicable anxiety in those who encounter them. Second, they are hybrid assemblages of human and nonhuman animal parts, destabilising existing taxonomical classifications. Third, monstrous vegans are sired outside of heterosexual reproduction, the product of male acts of creation. And finally, monstrous vegans are intimately connected to acts of writing and literary creation. The principle contention of the book is that understandings of veganism, as identity and practice, are limited without a consideration of multiplicity, provisionality, failure, and insufficiency within vegan definition and lived practice. Veganism's association with positivity, in its drive for health and purity, is countered by a necessary and productive negativity generated by a recognition of the horrors of the modern world. Vegan monsters rehearse the key paradoxes involved in the writing of vegan identity. **Moon MapGuide London** Penguin WINNER OF THE RALPH J. NME *A Novel/ Serpent's Tail* Poems from a RunawayA True StoryCreatespace Independent Publishing Platform [Protest and Rebellion in the Capital](#) Pan Macmillan When Dickens was nineteen years old, he wrote a poem for Maria Beadnell, the young woman he wished to marry. The poem imagined Maria as a welcoming landlady offering lodgings to let. Almost forty years later, Dickens died, leaving his final novel unfinished - in its last scene, another landlady sets breakfast down for her enigmatic lodger. These kinds of characters are everywhere in Dickens's writing. *Charles Dickens and the Properties of Fiction: The Lodger World* explores the significance of tenancy in his fiction. In nineteenth century Britain the vast majority of people rented, rather than owned, their homes. Instead of keeping to themselves, they shared space - renting, lodging, taking lodgers in, or simply living side-by-side in a crowded modern city. Charles Dickens explored both the chaos and the unexpected harmony to be found in rented spaces, the loneliness and sociability, the interactions between cohabitants, the complex gender dynamics at play, and the relationship between space and money. *Charles Dickens and the Properties of Fiction* demonstrates that a cosy, secluded home life was beyond the reach of most Victorian Londoners, and considers Dickens's nuanced conception of domesticity. Tenancy maintained an enduring hold upon his imagination, giving him new stories to tell and offering him a set of models to think about authorship. He celebrated the fact that unassuming houses brim with narrative potential: comedies, romances, and detective plots take place behind their doors. *Charles Dickens and the Properties of Fiction: The Lodger World* wedges these doors open. What our tendency to justify the mistakes in poems reveals about our faith in poetry—and about how we read Keats mixed up Cortez and Balboa. Heaney misremembered the name of one of Wordsworth's lakes. Poetry—even by the greats—is rife with mistakes. In *The Poet's Mistake*, critic and poet Erica McAlpine gathers together for the first time numerous instances of these errors, from well-known historical gaffes to never-before-noticed grammatical incongruities, misspellings, and solecisms. But unlike the many critics and other readers who consider such errors felicitous or essential to the work itself, she makes a compelling case for calling a mistake a mistake,

arguing that denying the possibility of error does a disservice to poets and their poems. Tracing the temptation to justify poets' errors from Aristotle through Freud, McAlpine demonstrates that the study of poetry's mistakes is also a study of critical attitudes toward mistakes, which are usually too generous—and often at the expense of the poet's intentions. Through remarkable close readings of Wordsworth, Keats, Browning, Clare, Dickinson, Crane, Bishop, Heaney, Ashbery, and others, *The Poet's Mistake* shows that errors are an inevitable part of poetry's making and that our responses to them reveal a great deal about our faith in poetry—and about how we read.
