Every pastor wants the sermon to be an important tool for maturing those listening in the pews. Having a preaching plan is an essential part of this process. If a preacher's messages are scattered, unrelated to one another, or haphazardly prepared, it can be difficult for those in the congregation to make connections to aid their spiritual growth. Preaching with a Plan encourages and equips pastors to develop a cohesive preaching plan to guide their choice of Scripture, topics, and concepts on which to expound on Sunday mornings. It answers four critical questions for pastors, including: Who plans preaching? Why should I plan my preaching? What kinds of preaching plans are available? How do I put together a preaching plan? Moving quickly from theory to practice, Preaching with a Plan helps pastors develop an entire year's worth of sermons designed to educate, enrich, and nurture mature believers.

In this excellent manual, William Evans offers practical guidance to preparing excellent, thought-provoking and eloquent sermons on a variety of spiritual topics. The first two thirds of this book contains a variety of discussions regarding sermons. Knowing one's own personality and skills of oration is emphasized as important, as is an understanding and ability to interpret and properly present a chosen scriptural text. The piecing together and assembly of the chosen themes, and the

three major phases of a good sermon - Introduction, Body, and Conclusion - are all discussed. In the later portions of the text, the author shows us examples of themes he has himself used over the years. Quoting the Gospels and highlighting each selection, Evans demonstrates a lucidity in justifying choices. He considers how each forms a picture for the audience and evoke spiritual thought in every listener. Finally, we are given an in-depth look at the system which William Evans used to prepare and organize his sermons.

This volume is not an attempt to present a complete and exhaustive treatment on Homiletics—the science and art of preaching, for there are already on the market larger and more comprehensive works on the subject. This book is prepared not only for theological students but also to supply the need of such as find themselves denied the privileges of a regular ministerial training, but who, nevertheless, feel themselves called upon to preach or proclaim the gospel of the Lord Jesus Christ. Indeed the lectures herein printed are in substance the same as delivered to young men and women preparing themselves for Christian service in a Bible training school. This fact accounts for their conversational style, which the author has not deemed wise to change. Christian laymen, even though not preachers in the accepted sense of that term, desiring to be able to prepare brief gospel addresses and Bible readings, will find the help they need in this volume. Those seeking help in the preparation of "talks" for young peoples' societies, conventions, leagues, etc., may receive hints and suggestions in this work. The book contains theory and practice. Part One deals with the method of constructing various kinds of sermons and Bible addresses. Part Two is composed of outlines illustrating Part One. The closing chapter on "Illustrations and Their Use" has been found so helpful wherever delivered that it is thought advisable to give it a place in this volume. WILLIAM EVANS

Though the Bible says that God has chosen to save the world through the foolishness of the message preached, it does not mean He has chosen to save the world through "foolish preaching." For since, in the wisdom of God, the world through wisdom did not know God, it pleased God through the foolishness of the message preached to save those who believe. NKJV (1 Corinthians 1:21)"The foolishness of the message preached" is not same as "foolish preaching" This book was written to show you the difference between the two and further help you to know how to prepare and preach sound, biblical messages from God's Holy Book.
