Course: Principles of Management is the
introductory course taken by most
undergraduate business majors. Almost
every text/course is organized around
the four functions of management:
planning, leading, organizing, and
controlling (PLOC). What makes the texts
different are their approach to the
subject (principles vs. OB focused) and
their strengths of coverage
(high/strategic vs. low
level/applied/skills). The aim of this text
is to show how the four functions
interact.
