 This guide provides common sense advice and simple steps to manage the software contract minefield by: Providing an insight into how you may achieve greater flexibility from your licencing terms. The right questions to ask when it comes to negotiating new terms with SAP. The tools you need to ensure you get optimal value from your SAP licencing. Download the Guide.  
**SAP Licencing Guide | UKISUGSAP license for? Limited Professional User.** It is named SAP License. It allows the user to perform limited operational roles as defined by the software license. **SAP license for? Employee User.** It is also named license. It allows Employee to perform individuals owned tasks. **SAP Special License Types** "Special license types can be defined by your organisation. **Undestand SAP License Types With PDF Guides For Licensing ...**  
**SAP Licensing Quick Guide.** The SAP Licensing model is considered to be among the most complex and confusing in the generally bewildering area of software licensing. While many software vendors typically calculate their license fees by counting the number of active and inactive users, or by considering the number of servers and CPUs, SAP defines licenses according to usage — without really examining usage — an omission that may well be the root cause of the confusion.  
**SAP Licensing Quick Guide - Xpandion**  
**SAP Licensing Guide** This guide provides transparency on how SAP licenses its software and should help customers make informed and strategic software licensing decisions.  
**SAP Licensing of the SAP Business One application uses a named-user model.** Under this model, license for the application is allocated per user name. Each user can get one of the following licensing options: •Add-On Basic- includes forms that do not require a license key. For example, Master Data.  
**License Guide - SAP Q&A**  
**Licensing** Each type of user license in the BI platform grants or restricts access to particular tasks and applications. Depending on which license you have, you may be unable to access some applications or to perform some tasks in the BI repository. The BI platform supports the following types of user licenses:  
**Licensing - SAP Help Portal**  
**SAP licensing** is one of the most complicated and complex license metrics currently faced by software asset management (SAM) and software licensing professionals. SAP is different from other vendors as it calculates its software licensing in a very different way. SAP licenses are calculated on usage, something that SAP doesn't properly define. Confusion also reigns with issues around the 'named users' definition, which is the most basic element of SAP licensing.
