Daily Warm-Ups: Language Skills Grade 3 Alfred Music Publishing
 Daily Warm-Up Exercises for Jazz Ensemble was written as a series of studies to aid the jazz group in performance. It is published in two volumes, Volume I for the young or beginning ensemble, and Volume II for the more advanced group. All musical groups need a short period of time during the beginning of a rehearsal to acquaint their body functions with the needs of making music. Even though individuals warm-up by themselves in preparation for performance, the group as a whole needs to experience basic musical qualities -- blend, balance, precision, intonation -- together to ensure good ensemble performance. Hopefully, this series will provide the jazz ensemble with materials organized in a logical manner to accomplish these goals.

Myrtle's Daily Warm-ups for Clarinet Hal Leonard Corporation
 "Myrtle's Daily Warm-ups for Clarinet" is a book I wrote for my students. I was struggling to find a single source that included the scales and scale exercises, long tone exercises, articulation exercises, and register change exercises I wanted them to use. I wanted my students to be able to use the book for many years, so I designed it to grow with the student. It has easier exercises and scales for the advanced beginner, more difficult exercises for my

more advanced students (and myself), and everything in-between. If you're also looking for a one-stop shop for warm-up exercises, this book is it! Exercises include: -One octave major and minor scales -Full range major and minor scales -Major and minor scales broken down -Major and minor scales in thirds -Major and minor arpeggios -Long tone exercises in chalumeau, clarion, and altissimo ranges -Articulation exercises in chalumeau, clarion, and altissimo ranges -Register change exercises
