 Ross and Rachel had a baby, Britney and Justin broke up, and Time magazine asked if Bono could save the world. From the glittering tinsel of Hollywood to the advertising slogan you can't get out of your head, we are surrounded by popular culture. In A Matrix of Meanings Craig Detweiler and Barry Taylor analyze aspects of popular culture and ask, What are they doing? What do they

represent? and What do they say about the world in which we live? Rather than deciding whether Bono deserves our admiration, the authors examine the phenomenon of celebrity idolization. Instead of deciding whether Nike's "Just do it" campaign is morally questionable, they ask what its success reflects about our society. A Matrix of Meanings is a hip, entertaining guide to the maze of popular culture. Plentiful photos, artwork, and humorous sidebars make for delightful reading. Readers who distrust popular culture as well as those who love it will find useful insight into developing a Christian worldview in a secular culture.

 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools—in all areas of the school curriculum, across many grade levels. Pop-up books possess universal appeal. Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three-dimensional work of Robert Sabuda, David A. Carter, and other pop-up book creators. Sabuda himself was inspired to become a pop-up book artist after experiencing the 1972 classic pop-up The Adventures of Super Pickle. The effect of these movable books on young minds is uniquely powerful. Besides riveting

children's attention, pop-up books can also help build motor skills, teach cause and effect, and develop spatial understanding of objects. Based on their direct experience and many presentations to teachers and librarians, the authors have provided template lesson plans with curriculum and standards links for using the best pop-up books currently available in the instructional program of the school. The book also includes profiles of the most notable authors, a history of the format, definitions of terms such as "flap book" and "paper engineer," and information on how to create movable books. Librarians will find the section regarding collection development with the format—how and where to acquire them, proper storage methods—and the annotated listing of the authors' 50 favorite pop-ups extremely helpful.

Wenn das Gedächtnis des eigenen Vaters schwindet, hilft nur noch Humor. Und ein gutes Steak. Rachel Khongs Debütroman »Das Jahr, in dem Dad ein Steak bügelte« thematisiert den Moment im Leben jedes Menschen, wenn sich das Eltern-Kind-Verhältnis umkehrt. Sehr humorvoll beschreibt sie den Alltag mit einem dementen Familienmitglied, mit all seinen traurigen Tiefen, aber auch mit den urkomischen Höhen. Ruth ist 30, als ihr Verlobter sie plötzlich verlässt. Völlig aus der Bahn geworfen, kommt sie der Bitte ihrer Mutter nach, kündigt Job und Wohnung und zieht für ein Jahr wieder zurück zu ihren Eltern. Dort soll sie ein Auge auf ihren Vater werfen, einen berühmten Geschichtspräsidenten, der nach und nach sein Gedächtnis verliert. Aus purer Verzweiflung verbannt seine Ehefrau alles aus dem Haus, was nur irgendwie im Verdacht steht, Demenz zu begünstigen. Ruth schafft es aber zusammen mit einigen Verbündeten, dem Leben ihres Vaters noch einmal einen Sinn zu geben, indem sie zum Beispiel sein geliebtes Seminar zur amerikanischen Geschichte heimlich weiterhin stattfinden lassen, ohne dass der Dekan Wind davon bekommt. Mit viel Humor und einer ordentlichen Portion Situationskomik schildert Ruth das Jahr mit ihrem Vater, das die beiden immer enger zusammenschweißt. »Unglaublich ergreifend. Rachel Khongs erster Roman schleicht sich an, so wie das Leben es manchmal tut. Und der Herzscherz. Und die Liebe.« Miranda July
