THE ONLY VERSION OF THIS BOOK NOW  
IN PRINT & AVAILABLE In 1995 the first  
edition of *Dressed to Kill: The Link  
Between Breast Cancer and Bras*  
revealed the disturbing results of a study  
that showed a notable correlation  
between the wearing of bras and the  
incidence of breast cancer. The women  
studied who wore bras 24 hours a day  
were 125 times more likely to have  
breast cancer compared to bra-free  
women. Instead of experiencing interest  
in their research, Sydney Ross Singer  
and Soma Grismaijer were subjected to a  
barrage of mercurial assaults. Industry  
representatives refused to consider the  
results and dismissed the book out of  
hand. Mr. Singer even became the target  
of personal scrutiny. The American  
Cancer Society took the unusual step of  
issuing statements of absolute  
condemnation that were devoid of  
scientific methodology. The authors had  
clearly upset the status quo. But despite  
the continuous attacks, the evidence  
would not disappear. The authors were  
determined to get their message out.  
They were emboldened by people who  
contacted them from around the world  
with messages of support. New studies  
and research emerged that was  
consistent with their own research. So  
much so that it became clear that an  
updated book was needed. So vociferous  
are the opponents of this theory that the  
publisher received threats if they  
proceeded with publication of the book.  
The details of this incident are included  
in the book's Foreword. The second

edition of *Dressed to Kill: The Link

resistance to the bra-cancer link since  
the release of the first edition • Analysis  
of opposing research designed to  
reassure women to wear bras Breast  
cysts and cancer are epidemic at this  
time in history. The healthcare industry  
says that the cause of 70 percent of all  
breast cancer is unknown. *Dressed to Kill*  
helps solve this mystery, explaining how  
one of the greatest threats to breast  
health is something that women do to  
themselves every day. This book has its  
roots in a personal crisis in the authors'  
lives, when Soma was shocked to find a  
lump in her breast while pregnant.  
Looking for clues regarding the cause of  
the lump led this husband-and-wife  
medical anthropology team to develop a  
new theory and to conduct an extensive  
survey of nearly 5,000 United States  
women, half of whom had breast cancer,  
in an attempt to uncover a hidden cause  
of this devastating disease. Pioneers in  
the new field of Applied Medical  
Anthropology, Singer and Grismaijer  
explain their unique approach to  
researching and understanding the  
cultural causes of disease in easy-to-  
read language that is accessible to the

layperson and professional alike. Dressed to Kill has already had an impact on the healthcare and fashion worlds, moving some doctors to rethink the prevention and treatment of breast disease, and some clothing designers to rethink their products. Controversial for its challenge to established custom and medical dogma, this breakthrough book is already a classic, and in this updated edition, it continues to suggest new ways of dealing with an old and all-too-common women's health issue.

SOON TO BE A MAJOR MOTION PICTURE—The #1 New York Times bestselling worldwide sensation with more than 12 million copies sold, “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature”(The New York Times Book Review), now in paperback for the first time. For years, rumors of the "Marsh Girl" have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become

intrigued by her wild beauty, Kya opens herself to a new life--until the unthinkable happens. Where the *Crawdads* Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

**The Rules of Attraction** Penguin

A New York Times Notable Book, winner of the Jerwood Award from the Royal Society of Literature, a New York Times Book Review Editors' Choice, and named a Book of the Year by the Telegraph, Spectator, Observer, and BBC History Magazine, this bold new history of the rise of Christianity shows how its radical followers helped to annihilate Greek and Roman civilizations. The Darkening Age is the largely unknown story of how a militant religion deliberately attacked and suppressed the teachings of the Classical world, ushering in centuries of unquestioning adherence to "one true faith." Despite the long-held notion that the early Christians were meek and mild, going to their martyrs' deaths singing hymns of love and praise, the truth, as Catherine Nixey reveals, is very different. Far from being meek and mild, they were violent, ruthless, and fundamentally intolerant. Unlike the polytheistic world, in which the addition of one new religion made no fundamental difference to the old ones, this new ideology stated not only that it was the way, the truth, and the light but

that, by extension, every single other way was wrong and had to be destroyed. From the first century to the sixth, those who didn't fall into step with its beliefs were pursued in every possible way: social, legal, financial, and physical. Their altars were upturned and their temples demolished, their statues hacked to pieces, and their priests killed. It was an annihilation. Authoritative, vividly written, and utterly compelling, this is a remarkable debut from a brilliant young historian.

The Gift of the Magi Headline Review

Amoral, cunning, ruthless, and instructive, this multi-million-copy New

York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

*The Link Between Breast Cancer and Bras* The Creative Company

From the bestselling author of *Bright Lights, Big City* and *Brightness Falls* comes a chronicle of a generation, as enacted by two men who represent all the passions and extremes of the class of 1969. Patrick Keane and Will Savage meet at prep school at the beginning of the explosive '60s. Over the next 30 years, they remain friends even as they pursue radically divergent destinies--and harbor secrets that defy rebellion and conformity.

**The Darkening Age** Harper Collins

Voted America's Best-Loved Novel in PBS's *The Great American Read* Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep

One of the most cherished stories of all time, *To Kill a Mockingbird* has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.

*In Cold Blood* St. Martin's Griffin

Strange, wondrous things happen in these two short stories, which are both the perfect introduction to Gabriel García Márquez, and a wonderful read for anyone who loves the magic and marvels of his novels. After days of rain, a couple find an old man with huge wings in their courtyard in 'A Very Old Man with Enormous Wings' - but is he an angel? Accompanying 'A Very Old Man with Enormous Wings' is the short story 'The Sea of Lost Time', in which a seaside town is brought back to life by a curious smell of roses.
