Mallory Graham is returning home to the heat and vines of Southern California in search of the peace she can't find in the city. Her parents' vineyard is an escape for tourists, but full of mixed memories for Mallory. It may also be the one place she can find the forgiveness she seeks. But can things ever go back to the way

they once were—in the days before that long, hot, heartbreaking summer? Growing up, it was Mallory and Kelly. Kelly and Mallory. Nothing could come between them. That summer before college, bucket list in hand, they greeted every sunrise and chased every sunset. Tattoos—check. Sleeping under the stars—check. But when Mallory met Sam, everything changed. Older, experienced and everything Mallory never knew she wanted, Sam was her first taste of love—and the one adventure Mallory didn't want to share

with Kelly. But Kelly had her own secrets, too, until the night tragedy struck and their perfect summer—and their friendship—unraveled. Now, after ten years away, Mallory is home and determined to make amends. No more secrets, no more half-truths. As Kelly slowly lets her guard down, Mallory convinces her to complete their unfinished list of hopes and dreams. But Mallory's not the only one back in town, and when Sam reappears, Mallory risks making all the same mistakes—and maybe a few new ones—to try to heal that which was broken.

Rulerwork Quilting Idea Book Rodale Books

To celebrate the 20th anniversary of his highly successful series of patchwork and quilting books, Kaffe Fassett has returned to his American roots. Using the collection of American vintage quilts in Britain's American Museum in Bath as his inspiration, Kaffe has chosen 18 different quilts as the basis for his 20 new designs in this book. Designs feature both his latest fabrics and his much-loved classics, mostly from the

Kaffe Fassett Collective but also his latest collection of Artisan fabrics. An introductory section, this book features the original quilts that inspired Kaffe, and tells the reader something about their provenance. The new designs demonstrate Kaffe's vivid and unique color combinations, giving new meaning to familiar block patterns such as Tumbling Blocks, Starbursts, and Log Cabins. Photographed in bucolic Bucks County, Pennsylvania. Each pattern contains full step-by-step piecing instructions and detailed diagrams.

Kaffe Fassett uses the colorful Venetian island of Burano to form the backdrop of another stunning collection of new quilt designs from the Kaffe Fassett Studio. In this 22nd installment of Kaffe Fassett's

ever-popular series of patchwork and quilting books, the quilts have been photographed on location in Burano, a tiny island in Italy's Venetian archipelago, famous for its lace making but also for its brilliantly painted houses in a myriad jewel colors. The colorful house walls, sometimes distressed and occasionally decorated with murals, form the backdrop, along with the canals, bridges, and boats of this special Venetian island, to another wonderful selection of Kaffe's new quilt designs. The collection of 19 quilts features both new fabric designs from the Kaffe Collective and some of his Classics. Bali Brocade makes a fantastic background to Kaffe's sumptuous Shimmer Star quilt with its ripples of pattern in contrasting prints. His two versions of a very simple

quilt, comes in two very different colorways. Hot Steps is a riot of color, whereas by contrast its sister quilt, Cool Steps, in dusty blues, greens, and greys has an dreamy quality. Liza Prior Lucy's rich and dark Turkish Coffee quilt, with its hint of Eastern promise, fussy cuts Kaffe's new Turkish Delight fabric to brilliant effect. Kaffe Fassett's Quilts in Burano provides all the instructional text, diagrams, and templates to make the quilts, plus a section on basic patchwork techniques for less experienced quilters.

20 Favorite Quilts in New Colorways from Rowan

Pucker or Puckering is the most used (abused?) term in the garment manufacturing industry. Pick up any quality controllers report, and the first thing that will strike your eye will be "...Puckering in armhole, ...Puckering in neckline binding, ...control Puckering in bottom hem..." the list is endless.

Buying office quality controllers are as enamoured of this term as much as manufacturers abhor it. What is it that makes it so distasteful? Why does it

occur? How can it be controlled? While there are numerous leaflets, documents and articles available on pucker, we have found that the majority of them lay great stress on "inherent pucker" (only material parameters). In this booklet have tried to include process parameters as well as sewing of lightweight fabrics. All said and done, the problem is so intricately interdependent that exhaustive compilation is well nigh impossible. We are sure this booklet will help manufacturers to understand the rationale behind this publication and we will consider our effort successful if enthusiastic readers regularly inform us about newer methods to tackle the problem.
