Das Werk "Billy Budd" ist der letzte Roman des amerikanischen Schriftstellers Herman Melville (1819–1891). Verfasst zwischen 1886 und 1891, blieb er lange Zeit verschollen und erst 1924 wiederentdeckt und

veröffentlicht. Das Manuskript konnte offensichtlich von dem Autor vor seinem Tode nicht mehr vollendet werden und wirft eine Reihe von Problemen auf, die das Verständnis und auch die Deutung des Romans erschweren.

A smart, snappy, and comprehensive guide for the millions of adults who are thinking about going—or going back—to college and want to know how to do it right As anyone who has done it knows, going back to school is a major undertaking. For younger and older adults alike, starting or returning to school presents different challenges than those encountered by teens fresh out of high school and heading straight to

college. Countless Americans take on this task while working, raising kids, caring for parents, volunteering, serving in the military—and in some cases all of the above. Although the "non-traditional" undergraduate student is in fact the new normal, the glut of college guides out there don't include practical advice for the busy moms, frustrated employees, and ambitious adults who are applying to college or hoping to finish earning a degree. *Never Too Late* will help readers jump-start a new professional path or speed down the one they're already on by guiding them through vital questions: What should I study? How can I afford the time and money required to get a college degree? How do I compare schools? With key chapters on flexibility ("It's About Time!" and "Face-to-Face or

Cyberspace?") and rankings of the best colleges for grown-ups diving back into the books, *Never Too Late* is an essential reference for adults seeking a richer life—and a meaningful place in our rapidly changing economy and world.

English is a very important school subject for second language learners. In an effort to get high scores, students feel anxious when taking reading comprehension tests. This action research project studied the reasons for the anxiety ESL/EFL grade 9 students feel. It researched ways of helping them deal with the situation so that they could raise their academic performance on the reading tests. Students learned to apply test taking and reading techniques to

prepare them for reading comprehension tests. Reading and test taking skills provided ESL/EFL students with the tools to cope with reading comprehension tests. After applying reading strategies and relaxation exercises, students scored higher on the tests.

The new edition of this comprehensive text fills an important role in teacher professional preparation by focusing on

how to teach the grammar and vocabulary that are essential for all L2 writing teachers and student-writers. Before L2 writers can begin to successfully produce academic prose, they need to understand the foundations of the language and develop the language tools that will help them build reasonable quality text. Targeting specific problem areas of students' writing, this text offers a wealth of techniques for teaching writing, grammar, and vocabulary to second-language learners. Updated with current research and recent corpus analysis findings, the second edition features a wealth of new materials, including new teaching activities; student exercises and assignments; and substantially revised appendices with supplementary

word and phrase lists and sentence components. Designed for preservice ESL/ELT/TESOL courses as well as Academic Writing and Applied Linguistics courses, this book includes new, contextualized examples in a more accessible and easy-to-digest format. *Basic Skills Education in Community Colleges* Routledge

This edited book addresses a range of aspects of internationalization in vocational education and training (VET) in different countries. It considers the impact of internationalization and student mobility on VET at the sectoral, institutional and individual levels as the sector emerges as a key tool for social and structural change in developing nations and as a flexible and entrepreneurial means of growth in

developed nations. The book explores not only the effects of the neo-liberal market principle underpinning VET practices and reforms, but importantly considers internationalization as a powerful force for change in vocational education and training. As the first volume in the world that examines internationalization practices in VET, the book provides VET and international education policymakers, practitioners, researchers and educators with both conceptual knowledge and practical insights into the implementation of internationalization in VET.

*Handbook on Measurement, Assessment, and Evaluation in Higher Education* Routledge

This volume offers administrators and practitioners a summary guide to assessment in higher education, from the reasons for undertaking assessment to the delivery of findings. It opens with the questions that precede an effective study and drive research design: To what extent is the study aimed at educational improvement, and to what extent is it aimed at external accountability? Are the results expected

to demonstrate goal attainment, improvement, comparison to others, meeting standards, cost-effective investment? What is the population from whom assessment data are being collected: Are we measuring the knowledge and skills of individuals and making decisions about their remediation, certification, or development? Or are we sampling from particular groups of students and comparing them to each other, or perhaps to themselves over time? The core of the volume is devoted to the objects of assessment: basic skills, general education knowledge, attainment in the major, personal growth, attitudes and satisfaction, and alumni outcomes, keeping in mind both cognitive and noncognitive measures.

One chapter describes common obstacles to effective assessment; others describe conceptual models, research methods, and data collection strategies and instruments. The concluding chapter underscores the importance of communicating research results effectively. This is a special volume of the Jossey-Bass higher education quarterly report series New Directions for Institutional Research. Always timely and comprehensive, New Directions for Institutional Research provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management.

Examines the widespread phenomenon of poor literacy skills in adults across the globe This handbook presents a wide range of research on adults who have low literacy skills. It looks at the cognitive, affective, and motivational factors underlying adult literacy; adult literacy in different countries; and the educational approaches being taken to help improve adults' literacy skills. It includes not only adults enrolled in adult literacy programs, but postsecondary students with low literacy skills, some of whom have reading disabilities. The first section of The Wiley Handbook of Adult Literacy covers issues such as phonological abilities in adults who have not yet learned to read; gender

differences in the reading motivation of adults with low literacy skills; literacy skills, academic self-efficacy, and participation in prison education; and more. Chapters on adult literacy, social change and sociocultural factors in South Asia and in Ghana; literacy, numeracy, and self-rated health among U.S. adults; adult literacy programs in Southeastern Europe and Turkey, and a review of family and workplace literacy programs are among the topics featured in the second section. The last part examines how to teach reading and writing to adults with low skills; adults' transition from secondary to postsecondary education; implications for policy, research, and practice in the adult education field; educational technologies that support reading

comprehension; and more. Looks at the cognitive processing challenges associated with low literacy in adults. Features contributions from a global team of experts in the field. Offers writing strategy instruction for low-skilled postsecondary students. The Wiley Handbook of Adult Literacy is an excellent book for academic researchers, teacher educators, professional developers, program designers, and graduate students. It's also beneficial to curriculum developers, adult basic education and developmental education instructors, and program administrators, as well as clinicians and counselors who provide services to adults with reading disabilities.

1955, in einer Vorstadt nahe New York: Hinter dem gepflegten Vorgarten tobt ein Ehekrieg. Frank und April Wheeler, einst ein junges, hoffnungsfrohes und vielversprechendes Paar, drohen unter dem Druck der allgemeinen Erwartungen an eine glückliche Ehe und ein erfolgreiches Berufsleben zugrunde zu gehen. Harmlose Äußerungen entzünden sich zu Hasstiraden und steigern sich zu bedrohlicher Wortlosigkeit. Richard Yates' Debütroman machte ihn in den USA schlagartig bekannt und sorgte auch in Deutschland dafür, dass Jahre

nach dem Tod des Autors das Yates-Fieber ausbrach. »Das eindringliche Psychogramm einer Ehe, die von Beginn an den Virus des Scheiterns in sich trägt. (...) Eine Tragödie hinter pastellfarbenen Fassaden.« Brigitte

In den 1930er-Jahren hat der Maler Masuji Ono seine Kunst in den Dienst der japanischen Expansionspolitik gestellt. Jetzt, nach dem Krieg, ist sein damaliger Patriotismus anrühlich geworden, und als seine Tochter heiraten will, wird seine politische Vergangenheit zur Belastung für die Familie. Seine Lebensbeichte offenbart ein heilloses Geflecht von Schuld und Irrtum und ist ein Läuterungsprozess, nach dem er nicht mehr derselbe sein wird wie zuvor. Kazuo Ishiguros eindringlicher,

meisterhaft erzählter Roman über einen Künstler, der mit seiner Vergangenheit ringt, lässt das vom Krieg zerrüttete Japan der Nachkriegszeit wieder aufleben, ein Land im Umbruch, in dem verschiedene Lebensweisen um die Vorherrschaft kämpfen und ein Volk zwischen Tradition und Moderne nach einem neuen Lebenssinn sucht.

As enrollment figures for ESL and former ESL students in higher education continue to grow, it's necessary for educators who work with these students to reflect on current practices, develop new understandings, and take action when change is warranted. This collection explores some of the most important challenges for English for

Academic Purposes (EAP) educators in a crucial area of U.S. higher education--community colleges. Community college mission statements generally feature a strong commitment to meeting local needs. The studies presented in this book serve to illustrate community connections and the social implications of them. Readers will gain insight into relevant practice while learning from

studies that can serve as a basis for additional research. The chapters are organized according to five themes--curricula, technology, retention and persistence, identity, and defining and assessing success—areas that all ESL programs in community colleges are struggling to reform. Each part features a sampling of research combined with varied perspectives on each topic.
