The Trade Union Rank and File Manchester University Press
 Paul F. Clark believes union leaders should take advantage of the valuable discoveries made in behavioral science to make their organizations more effective and, in *Building More Effective Unions*, he offers an accessible and straightforward account of how they can do so. The second edition provides an updated discussion of important lessons behavioral science holds for labor organizations. It also provides new examples of how unions and their leaders have benefited from putting the principles outlined in the first edition into practice.
Transport Salaried Staff Journal Government Printing Office
 The book takes as its starting point the crisis of healthcare in the UK: impossible health targets managed through command and control management and a stomach-churning rise in racism, whistleblowing and victimisation in the NHS. The use of nationally set productivity targets combined with austerity cuts have increasingly put clinical best-practice into direct conflict with funding. Health targets have become politically controlled, and performance has become a cynical exercise in ticking boxes, cascaded within trusts and bulldozed through frontline services. This has led directly to a precarious system of employment relations, subject to the continual restructuring of services rather than the goal of creating functioning interdisciplinary teams that stand a chance of capturing clinical excellence. This book is written for workers and managers who are on the frontline of the battle for decent healthcare. The content of this book is based on the 'ordinary' expertise of the people who are actually surviving it and helpful ideas about making the best out of a bad lot. *Surviving Work in Healthcare* will be of interest to healthcare professionals and anyone working on the frontline of healthcare as well as students of management, human resources and psychology.

 The FLRA administers the labor-management relations program for 2.1 million non-Postal federal employees worldwide, approximately 1.2 million of whom are represented in 2,200 bargaining units. It is charged with providing leadership in establishing policies and guidance related to federal sector labor-management relations and with resolving disputes under, and ensuring compliance with, the Federal Service Labor-Management Relations Statute. Contains tables of decisions under the Federal Service Labor Management Relations Statute; by agency; by labor organization; and by individual. Main body includes texts of decisions. Federal Register Friday, January 16, 1976 Routledge
 After many years of indifferent decline, trade union membership is now being revitalized; strategies known as 'union organizing' are being used to recruit and re-energize unions around the globe. This book considers exactly how trade unions are working to do this and provides a much-needed evaluation of these rebuilding strategies. By comparing historical and contemporary case studies to assess the impact of various organizing campaigns, this book assesses the progress of unions across Europe and America. It raises key debates about the organizing culture and considers the impact of recent union recognition laws on employers and the government's Fairness at Work policy. A topical and in-depth study into the experiences of trade unions across Europe and America, this is a comprehensive and thought provoking book which is essential reading for those in the industrial relations field.
Decisions and Orders of the National Labor Relations Board Manchester University Press
 Monograph on historical trends in the trade union movement in the UK during the period from 1900 to 1940 with particular reference to the role of trades councils - covers trade union structure, workers representation, working class organization, political participation, the role of the labour political party and national level trade union federation (tuc), social implications of labour disputes (incl. The general strike of 1926), etc., and includes statistical tables on the membership of trades councils. Bibliography pp. 239 to 254 and references.
