Chemistry: The Central Science incorporates a consistent problem solving process throughout so students always know where to go when problem solving. Analyze/Plan/Solve/Check helps students understand what they are being asked to solve, to plan how they will solve each problem, to work their way through the solution, and to check their answers. This 4 step problem solving methodology is introduced in chapter 3 (pg. 89) and implemented throughout the book. Chemistry: The Central Science - Pearson This manual contains 43 finely tuned, self-contained experiments chosen to introduce basic lab techniques and to illustrate core chemical principles.
