An invaluable encyclopedia of Hinduism Hinduism is one of the world's oldest religions; an amalgam of diverse beliefs and schools, it originates in the Vedas and is rooted in Indian culture. Hinduism: An Alphabetical Guide illuminates complex philosophical concepts through lucid definitions, a historical perspective and incisive analyses. It examines various aspects of Hinduism, covering festivals and rituals, gods and goddesses, philosophers, memorials, aesthetics, and sacred plants and animals. The author also explores pivotal ideas, including moksha, karma, dharma and samsara, and details the diverse commentaries on the Bhagavad Gita and other important texts. Citing extensively from the regional languages, the book describes Hinduism's innumerable myths and legends, and looks at the many versions of texts including the Ramayana and Mahabharata, placing each entry in its historical context and tracing its evolution to the present. • Outlines all eighteen major Puranas, the 108 Upanishads, and a selection of Vaishnava,

Sahiva and Tantric texts • Provides quotations from rare original texts • A product of years of research, with a wide range of entries

Yoga, tantra and other forms of Asian meditation are practised in modernized forms throughout the world today, but most introductions to Hinduism or Buddhism tell only part of the story of how they developed. This book is an interpretation of the history of Indic religions up to around 1200 CE, with particular focus on the development of yogic and tantric traditions. It assesses how much we really know about this period, and asks what sense we can make of the evolution of yogic and tantric practices, which were to become such central and important features of the Indic religious scene. Its originality lies in seeking to understand these traditions in terms of the total social and religious context of South Asian society during this period, including the religious practices of the general population with their close engagement with family, gender, economic life and other pragmatic concerns.

This book is an attempt to explore the metaphorical aspect of the original work of Sri Jayadeva's Gita Govinda. Gita Govinda is an overtly misunderstood epic love poem depicting intense emotional exchanges between Radha and Krishna mediated by Radha's confidante - Sakhi. As one unravels the apparent emotions of love, elation, anxiety, depression, lack of trust etc. one sees hidden layers, revealing deeper spiritual processes in the life of a sincere seeker. The Meditations in this book are an attempt to present that esoteric journey of a sadhaka, his relationship with his Lord and the role of a Guru, as seen through the eyes of the epic work.

Agriculture is currently facing multi-faceted threats in the form of unpredictable weather variability, frequent droughts and scarcity of irrigation water, together with the degradation of soil resources and declining environmental health. These stresses result in the modification of plant physiology to impart greater resilience to changing abiotic and biotic environments, but only at the cost of declining plant productivity. In light of these facts, assessing the status of natural resource bases, and understanding the mechanisms of soil-plant-environment interactions so as to devise adaptation and mitigation approaches, represent great and imminent challenges for all of us. In this context, it is essential to understand the potential applications of modern tools, existing coping mechanisms and their integration, as this will allow us to develop suitable advanced mitigation strategies. From a broader perspective, the book deals with crop-environment interaction in the context of changing climatic conditions. To do so, it addresses four major aspects: Understanding the mechanism of carbon dynamics in the soil-plant-environment continuum; greenhouse gas fluxes in agricultural systems; and soil properties influenced by climate change and carbon sequestration processes. Mitigation and management of the photo-thermal environment to improve crop productivity; soil health under variable climate; reducing agro-ecosystem evapotranspiration losses through biophysical controls; and heat stress in field crops and its management. Studying the impact of climate change on biotic environments; insect-pest interactions; manifestations of disease; and adaptation strategies for island agro-ecosystems. Innovative approaches to assess stress impacts in crops, such as crop modeling, remote sensing, spectral stress indices etc. The book presents a collection of contributions from authoritative experts in their respective fields. Offering young researchers new perspectives and future research directions, it represents a valuable guide for graduate students and academics alike.

In this edited collection, the authors pick up the communities of practice (CoP) approach of sharing practice in their reflection on the experience of taking their CoP vision from a dream to reality. Their stories articulate the vision, the passion and the challenge of working within and/or changing existing institutional culture and practice. The book discusses strategies that worked and considers the lessons learnt to inspire future dreamers and schemers. The multiple perspectives provided in the case studies will assist higher education leaders, as well as academic and professional staff, in establishing or assessing CoPs. The book offers insights into implementation strategies, practical guidelines and ideas on how CoP theoretical underpinnings can be tailored to the higher education context.

19th Akshauhini answers all the questions about the Gita that are plaguing minds. The illustrative list of questions answered in this book are : • How can Krishna who himself ran away from battle & earned the sobriquet "RANCHOR"(meaning one who ran away from battle) advise Arjuna to fight his enemies? • How can a forty minute discourse of the Gita be complete knowledge? • How can a 5300-year-old dialog be relevant to modern times? • If the Gita is unchanging, isn't it too rigid and unsuitable for modern times? • How can one discourse cater to the needs of diverse types of people? • Does the Gita encourage violence? • Isn't the Gita sectarian and meant for Hindus? Read on to get a new perspective on the Gita and its teachings.

The Tibetan Buddhist practice of Nyungne ("nyoong-nay") has been gaining increased attention in Buddhist centers across North America. Participants say the practice purifies them both physically and spiritually. This volume is the only comprehensive treatment in English of these powerful teachings. Nyungne is a profound, two-and-a-half-day practice, a length of time especially helpful for people whose schedules cannot accommodate long-term retreat. It involves the keeping of strict vows; the second day is devoted to complete silence and fasting. The meditation centers on the recitations, mantras, and guided visualizations of the Thousand-Armed Chenrezig, the embodiment of all the buddhas' loving-kindness and compassion. Translated as "abiding in the fast," Nyungne is said to be effective in the healing of illness, the nurturing of compassion, and the purification of negative karma.

This volume contains the essence of the writings and teachings of Mahayogi Gorakhnath. It is well pointed out that while the ultimate object of the search is the same for a Yogi and a philosopher, their modes of approach are different, the latter's being intellectual and the former's intuitive and spiritual. The task of a Yogi does not require any subtle intellectual speculation or the framing of

hypotheses and theories. The quest of the Yogi is a direct spiritual experience of truth on a high plane of consciousness. The highest state of Samadhi attained by the Yogi is neither purely subjective nor objective. It transcends both categories and it is an integrated experience beyond formal description. Such a transcendent state of consciousness is alone called Samadhi. This book analyses in detail the nature of Samadhi Experience. The term "Experience" is perhaps inaccurate because, in this state of Samadhi, there is no relation between subject and object, the experienter and the experienced. It is the fulfilment of life as described in the Yogasutras. The Yogi who comes back from Samadhi may not have attained Kaivalya or Moksha, but he is illuminated by his experience. If he assumes the role of a teacher or preacher, he gives expression to his experience in such forms as may be easily intelligible to the people at large. Gorakhnath was a Maha-Yogi. The cult of the Kanphata Yogis is a definite unite within Hinduism, and its study is essential for understanding this phase of the religious life of India. the book is divided into three sections. The first two sections comprising chapters 1 - 13 deal with the cult and history of this sec. the third section containing chapters 14 - 16 opens with the Sanskrit Text Goraksastaka and its English rendering and annotations. The book is fully documented. It has a preface, Glossary, Bibliography, Plates and General Index. This book is an attempt to present a systematic and consistent account of the philosophical background of the spiritual culture associated with the names of Yogi Gorakhnath and other adepts of the Natha school.

The Wrestler's Body tells the story of a way of life organized in terms of physical self-development. While Indian wrestlers are competitive athletes, they are also moral reformers whose conception of self and society is fundamentally somatic. Using the insights of anthropology, Joseph Alter writes an ethnography of the wrestler's physique that elucidates the somatic structure of the wrestler's identity and ideology. Young men in North India may choose to join an akhara, or gymnasium, where they subject themselves to a complex program of physical and moral fitness. Alter's first-hand description of each detail of the wrestler's regimen offers a unique perspective on South Asian culture and society. Wrestlers feel that moral reform of Indian national character is essential and advocate their way of life as an ideology of national health. Everyone is called on to become a wrestler and build collective strength through self-discipline.

Hanuman, the devoted monkey helper of Rama and Sita, has long been recognized as a popular character in India's ancient Ramayana epic. But more recently he has also become one of the most beloved and worshiped gods in the Hindu pantheon - enshrined in majestic new temples, but equally present in poster art, advertising, and mass media. Drawing on Sanskrit and vernacular texts, classical iconography and modern TV serials, and extensive fieldwork and interviews, Philip Lutgendorf challenges the academic cliché of Hanuman as a "minor" or "folk" deity by exploring his complex and growing role in South Asian religion and culture. This wide-ranging study examines the historical evolution of Hanuman's worship, his close association with Shiva and goddesses, his invocation in tantric ritual, his physical immortality and enduring presence in sacred sites, and his appeal to devotees who include scholars, wrestlers, healers, politicians, and middle-class urbanites. Lutgendorf also offers a rich array of entertaining stories not previously available in English: an expanding epic cycle that he christens the "Hanumayana." Arguing that Hanuman's role as cosmic "middle man" is intimately linked to his embodiment in a charming and provocative simian form, Lutgendorf moves beyond the Indian subcontinent to interrogate the wider human fascination with anthropoid primates as boundary beings and as potent signifiers of both Self and Other.
