Bobbie Merica is the author of *Medical Moulage: How to Make Your Simulations Come Alive* and owner of Moulage Concepts, an international medical and trauma moulage company that specializes in ...

**Bobbie Merica | EMS World of Emergency Response Teams and other medical or military personnel.**

- Moulage can add realism to a simulated event and allow the participants to visualise a true representation of an injury

or medical condition. • Moulage can assist the participant in prioritising their plan of treatment.

Moulage may be as simple as applying pre-made rubber or latex “wounds” to a healthy “patient’s” limbs, chest, head, etc., or as complex as using complicated makeup and theatre techniques to provide elements of realism, vomitus, open fractures to the training simulation.)
