Young and beautiful, Lois Pryce was a
rising star at the BBC. Unbeknownst to her
co-workers, Lois lived a parallel life as a
biker babe with an overwhelming sense of
wanderlust. So she packed in her career to
ride her motorcycle on her own from the
northernmost tip of Alaska to the
southernmost tip of South America. Alone.
Armed only with the Spanish words for
'caution' and 'cheese', Lois was rather
under-prepared for multiple bear
sightings, bribing her way through

borders, spending a night in a Mexican
brothel and crashing her bike in the wilds
of Patagonia. She most certainly got the
adventure she craved, and her pulse-
pounding, soul-searching adventure has
already attracted fans worldwide - a
weblog that she kept whilst on her travels
was receiving more than two-thousand
hits a day. Her hilarious, brilliantly written
travelog will appeal to anyone who's ever
dreamt of jacking-it-all-in and running
away to see the world.

'A landmark in the process of decolonizing imperial Western knowledge.' Walter Mignolo, Duke University To the colonized, the term 'research' is conflated with

European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.
