Science & Business Media Grammar of Santali language. *Tribal Linguistics in India* Gyan Books The origin of world civilization can be traced to the Indus Valley cradle, where brilliant and original thinkers made groundbreaking discoveries. The history of these discoveries is recorded in the vast Sanskrit literature. In this study, author M. K. Agarwal explores the

cultural and historical significance of the region. He explores Indus Valley culture, which encouraged creative thought as opposed to the Abrahamic faiths, which herded followers into dogmatic thinking. He holds that these religions prospered because of their unfettered hatred of the Vedic-Hindu-Buddhist peoples, who were demonized as pagans to be murdered, tortured,

raped, enslaved, and robbed. He also considers the achievements of that culture, such as the creation of the most affluent, most scientifically advanced, and most spiritual of all societies, with archeological moorings that can be traced back to 8000 BC. No other region can even come close to transforming people and culture like the Indus Valley, but the world's Vedic roots have

been ignored, shunned, and covered up. Uncover the history that has been lost and develop a deeper appreciation for the true cradle of human civilization with The Vedic Core of Human History. The Unwritten Literary World of Tribal Communities is nothing but the Oral Literature or Folklore. It covers stories, legends, myths, song, dances, riddles, proverbs, metaphors and such other aspects of their culture which are in their memory and handed down from generation to generation. These sources of their literary world speak of their spiritual world and the eco-system. The older persons

are the store house of their oral literature and from these sources the literary world of theirs is disseminated among the youngsters. This book gives the folklore of four tribal communities namely, the Kharias, the Oraons, the Santals and the Mundas of Orissa. The Kharias are a hunting and food gathering community, the Oraons are noted for the dance and music and the Santals are well known as

hard working cultivators and skilled in wall painting, and noted for their sense of beauty. The cultural patterns of these tribal communities and their life-ways and thought-ways are different from one another as revealed in the analysis of their oral literature. Even though they lead a life full of wants and difficulties, they are very labourious and joyful by virtue of which they forget their sorrows

and miseries.

The Munda group of languages of the Austroasiatic family are spoken within central and eastern India by almost ten million people. To date, they are the least well-known and least documented languages of the Indian subcontinent. This unprecedented and original work draws together a distinguished group of

international experts in the field of Munda language research and presents current assessments of a wide range of typological and comparative-historical issues, providing agendas for future research. Representing the current state of Munda Linguistics, this volume provides detailed descriptions of almost all of the languages in the family, in addition to

a brief chapter discussing the enigmatic Nihali language. Essays on Vaisnavism in Bengal Routledge

Jesus and Moses are Buried in India, Birthplace of Abraham and the Hebrews! is a new kind of biblical history that brings out

facts, not myths and guessing games. Unlike priests and preachers, who exhort their followers to swallow lies and spiritual ordure, I don't want my readers to swallow what I say naively. They should check all my references for themselves. This book follows the ancestors of the Hebrews from Eastern Siberia down to what is now the Indian subcontinent ; later, to what is now Israel. You'll be surprised to

find out who and what Jehovah, Abraham, Sarah, Moses, Jesus really were. The book also blasts dangerous myths, such as the Christian fundamentalists' assertion that "God" wants nearly all Jews to die in a "Battle of Armageddon." That war happened in India, thousands of years ago. We're now in Millennium 2000. It's time for mankind to let truth take over his existence.
