---

*The Crusades, C.1071-c.1291* Routledge  
A concise, general history of the crusades from the beginnings to the fall of the last strongholds in 1291.

### **The Essential Reference Guide** Yale University Press

From the Viking invasions to the Crusades to the Hundred Years War, wars were crucial agents of change in medieval Europe. They fostered many economic and political changes. They also affected the science, technology, religion, and culture of the parties involved. This two-volume encyclopedia examines all aspects of

warfare and military technology in medieval times. Featuring the latest research from the leading experts in medieval military history, the set provides an exhaustive and accurate view of how and why wars were waged throughout Europe, the Byzantine Empire, and the Crusader States from circa 500 CE to circa 1500. Although many reference works have been published in medieval history,

this is the first and only encyclopedia to focus exclusively on medieval warfare, offering unique insight into the subject by addressing developments in military technology across the period with articles on topics such as gunpowder and shields. The encyclopedia will appeal to scholars and readers of all levels interested in military history and in the medieval world. *The Crusades and the Military Orders* ABC-CLIO

Christianity has been accused of being misogynistic, pro-slavery, and anti-science, and some say it is finally beginning its long decline. This book provides an entirely different side to the stories about this faith. • Provides an introduction to Christianity in its historical context • Examines particular misconceptions related to Christianity through history along with what are now believed to be the historical truths • Excerpts primary source documents for evidence for how the misconceptions developed and spread • Offers a selected general bibliography of the most important sources of additional information  
**Lebanon** Central European University Press

Presenting numerous interconnected insights into life in Greater Syria in the twelfth century, this book covers a wide range of themes relating to Crusader-Muslim relations. Some chapters deal with various literary sources, including little-known Crusader chronicles, a jihad treatise, a lost Muslim history of the Franks, biographies, letters and poems. Other chapters look at material culture, from coins to urban development, internal relations between Sunni and Shi'ite Muslims and between Crusader and Oriental Christians, and the role of the Turkmen. New insights into the career of Saladin are revealed, for example through the work of a little-known propagandist at his court, and Saladin's use of gift-giving for political purposes, as well as neglected aspects of the rule of his family dynasty, the Ayyubids, which succeeded him. Special attention is paid to the Christians residing in the Middle East, from Italians to Melkites and Armenians.  
*The Crusades and the Near East* Routledge  
"Faith and Sword explores the long and bloody history of the Muslim-Christian conflict, and examines the causes of present-day tensions between Islamic

nations and the secular West. This book examines the Christian-Muslim conflict through all its stages and shows how our current situation has emerged. Ranging from Morocco to Indonesia, and from Russia to Somalia, it sheds light on the complex political and religious dynamics that form the background to one of the most important conflicts of our time."--BOOK JACKET.

**From Antiquity to the Empire of Modernity** Routledge

The Crusades continue to exert a fascination in the West as a story of perceived gallantry and battles against impossible odds. Yet what is less often considered is their effect on the Holy Land, and in particular the response of the Muslim world to the invasions of European Crusaders. In this book, W. B. Bartlett, author of four books on the Crusades, looks at these great events from the Muslim point of view. One of the effects was to unite a previously divided Islamic world against a common enemy. In the process, they gave an unstoppable impetus towards the declaring of jihad against the West, a holy war against Christendom. They also helped to shape

the careers of some important figures, most notably Saladin, but also other great men like Sultan Baibars and Nur al-Din. The rise of these great leaders is traced in this book, as are the many great battles that were fought by men just as devoted to their cause as the Crusaders were.

The Oxford Encyclopedia of Medieval Warfare and Military Technology

Routledge

Proceedings of a conference on a theme, the 34 essays by specialists from 15 countries prevent various facets of the struggles waged for the possession of the Holy Land between the 10th and 13th centuries, and of the activities of the military orders elsewhere in Europe.

**Financing the Latin East, 1187-1274**

Macmillan

Winner of the American Sociological Association's 'Distinguished Book Award' in the Religion category. For most of us, "Apocalypse" suggests the cataclysmic end of the world. Yet in Greek "apocalypse" means "revelation," and the real subject of the Book of Revelation is how the sacred arises in history at a moment of crisis and destiny. With origins in ancient religions, the apocalyptic has

been a transformative force from the time of the Crusades, through the Reformation, the French Revolution and modern communism, all the way to the present day "Islamic Jihad" and "War on Terror." In *Apocalypse*, John R. Hall explores the significance of apocalyptic movements and the role they have played in the rise of the West and "The Empire of Modernity." This brilliant cross-disciplinary study offers a novel basis for rethinking our social order and its ambivalent relations to sacred history. *Apocalypse* will attract general readers seeking new understandings of the world in challenging times. Scholars and students will find a compelling synthesis that draws them into conversation with others interested in religion, theology, culture, philosophy, and phenomenology, as well as sociology, social theory, western civilization, and world history.

**The Second Crusade** Boydell Press

Between the eleventh and fifteenth centuries, the social and cultural worlds of medieval Europe and the Eastern Mediterranean were transformed by the religious impetus of the crusades. Today we bear witness to these transformations

in the material and environmental record revealed by new archaeological excavations and reappraisals of museum collections. This volume highlights new archaeological knowledge being developed by scholars working in the fields of history, archaeology, numismatics, and architecture to demonstrate its potential to change and augment our understanding of the crusades. The 16 chapters in this volume deploy a contemporary scientific approach to archaeology of the crusades to give an up-to-date account into the diverse range of research in this area. They explore five key themes: the implications of scientific methods, new excavations and surveys, architectural analyses, sigillography, and the application of social interpretations. Together these chapters provide a new way of approaching the study of the crusades, and demonstrate the value of taking a holistic view that utilises the full diverse range of evidence available to us. The History of Christianity: Facts and Fictions BRILL

The dramatic Muslim victory over the Crusaders that finally ended the Christian dream of ruling the Middle East.

*Richard I* Yale University Press

The Crusades were fought by "Latin" Christians against Muslims, pagans, and even fellow Christians whom they believed were threatening the existence of their Christian faith.

Hodder Education

This German-to-English translation of a highly successful book is a clear, approachable, student-friendly introduction to the history of the Crusades. With a long chronological span, from the eleventh to the late fifteenth century, and with a wide geographical coverage of the whole of Europe and some of the Middle East, *The Crusades* is clear, concise and more wide-ranging than most single-volume works. Taking recent scholarship into account, and using boxes, case studies, marginal directions and chronologies, the book is well laid out and easy to follow, providing a comprehensive overview of the crusade movement for students at all university levels.

*International Encyclopedia of Military History* OUP Oxford

This book offers a new appraisal of the ancestry and career of Godfrey of Bouillon (c.1060-1100), a leading participant in the

First Crusade (1096-99), and the first ruler of Latin Jerusalem (1099-1100), the polity established by the crusaders after they captured the Holy City. While previous studies of Godfrey's life have tended to focus on his career from the point at which he joined the crusade, this book adopts a more holistic approach, situating his involvement in the expedition in the light of the careers of his ancestors and his own activities in Lotharingia, the westernmost part of the kingdom of Germany. The findings of this enquiry shed new light on the repercussions of a range of critical developments in Latin Christendom in the eleventh and early twelfth centuries, including the impact of the 'Investiture Conflict' in Lotharingia, the response to the call for the First Crusade in Germany, Godfrey's influence upon the course of the crusade, his role in its leadership, and his activities during the initial phases of Latin settlement in the Holy Land in its aftermath.

Faith, Power, and Violence in the Age of Crusade and Jihad John Wiley & Sons

"A new appraisal of the Order of the Hospitallers, showing how they were responsible for the survival of the Christian

settlement in the East"--Provided by publisher.

Exam board: AQA; Pearson Edexcel; OCR Level: AS/A-level Subject: History First teaching: September 2015 First exams: Summer 2016 (AS); Summer 2017 (A-level) Put your trust in the textbook series that has given thousands of A-level History students deeper knowledge and better grades for over 30 years. Updated to meet the demands of today's A-level specifications, this new generation of Access to History titles includes accurate exam guidance based on examiners' reports, free online activity worksheets and contextual information that underpins students' understanding of the period. - Develop strong historical knowledge: in-depth analysis of each topic is both authoritative and accessible - Build historical skills and understanding: downloadable activity worksheets can be used independently by students or edited by teachers for classwork and homework - Learn, remember and connect important events and people: an introduction to the period, summary diagrams, timelines and

links to additional online resources support lessons, revision and coursework - Achieve exam success: practical advice matched to the requirements of your A-level specification incorporates the lessons learnt from previous exams - Engage with sources, interpretations and the latest historical research: students will evaluate a rich collection of visual and written materials, plus key debates that examine the views of different historians

*A/AS Level History for AQA The Age of the Crusades, c1071-1204 Student Book*  
Manchester University Press

A new series of bespoke, full-coverage resources developed for the AQA 2015 A/AS Level History. Written for the AQA A/AS Level History specifications for first teaching from 2015, this print Student Book provides full coverage of The Age of the Crusades, c1071-1204 Breadth component. Completely matched to the new AQA specification, this full-colour Student Book provides valuable background information to contextualise the period of study. Supporting students in developing their critical thinking, research and written communication skills, it also encourages them to make links between

different time periods, topics and historical themes.

*The Crusades* Routledge

An in-depth portrait of the Crusades-era Mediterranean world shares insights into the forces that shaped it, challenging modern opinions about its religious extremism while discussing such topics as the coexistence of people of differing faiths and the period's military and cultural practices.

*The Historia Ierosolimitana of Baldric of Bourgueil* Bloomsbury Publishing

Marginality assumes a variety of forms in current discussions of the Middle Ages. Modern scholars have considered a seemingly innumerable list of people to have been marginalized in the European Middle Ages: the poor, criminals, unorthodox religious, the disabled, the mentally ill, women, so-called infidels, and the list goes on. If so many inhabitants of medieval Europe can be qualified as "marginal," it is important to interrogate where the margins lay and what it means that the majority of people occupied them. In addition, we scholars need to reexamine our use of a term that seems to have such broad applicability to ensure that we avoid

imposing marginality on groups in the Middle Ages that the era itself may not have considered as such. In the medieval era, when belonging to a community was vitally important, people who lived on the margins of society could be particularly vulnerable. And yet, as scholars have shown, we ought not forget that this heightened vulnerability sometimes prompted so-called marginals to form their own communities, as a way of redefining the center and placing themselves within it. The present volume explores the concept of marginality, to whom the moniker has been applied, to whom it might usefully be applied, and how we might more meaningfully define marginality based on historical sources rather than modern assumptions. Although the volume's geographic focus is Europe, the chapters look further afield to North Africa, the Sahara, and the Levant acknowledging that at no time, and certainly not in the Middle Ages, was Europe cut off from other parts of the globe.

*Conflict and Co-Existence* Cambridge University Press

*In A Philosopher of Scripture: The Exegesis*

and Thought of Tanḥum ha-Yerushalmi, Raphael Dascalu presents a detailed intellectual portrait of Tanḥum ha-Yerushalmi (d. 1291, Egypt) – a Jewish philosopher and mystic, linguist and philologist, and a biblical exegete of singular breadth.

**The Hospitallers and the Holy Land**  
ABC-CLIO

John of Brienne's progress, from mid-ranking knightly status to king of

Jerusalem and, later, Latin emperor of Constantinople, traces one of the most remarkable careers in the entire medieval period. But how and why did he achieve such heights? This biographical study of aristocratic social and geographical mobility in the 'Age of the Crusades' reassesses John's fascinating life, and explores how families and dynasticism, politics, intrigue, religion and war all

contributed to John's unprecedented career. John was a major figure in the history of the thirteenth-century Mediterranean, and yet very much a product of the workings of the society of his day. This book reveals how John's life, and its multifarious connections to France, Italy, the German empire and the papacy, can illuminate the broad panorama of the early thirteenth-century world, and the zenith of the crusading movement.
