Discovering the Miracle of the Scarlet Thread in Every Book of the Bible Best Day Books For Young Readers

Music in Ireland is one of several case-study volumes that can be used along with *Thinking Musically*, the core book in the Global Music Series. *Thinking Musically* incorporates music from many diverse cultures and establishes the framework for exploring the practice of music around the world. It sets the stage for an array of case-study volumes, each of which focuses on a single area of the world. Each case study uses the contemporary musical situation as a point of departure, covering historical information and traditions as they relate to the present. Visit www.oup.com/us/globalmusicfor for a list of case studies in the Global Music Series. The website also includes instructional materials to accompany each study. *Music in Ireland* provides an engaging and focused introduction to Irish traditional music--types of singing, instrumental music, and dance that reflect the social values and political messages central to Irish identity. This music thrives today not only in Ireland but also in areas throughout North America, Europe, Australia, and Asia. Vividly evoking Irish sounds, instruments, and dance steps, *Music in Ireland* provides a springboard for the discussion of cultural and historical issues of identity, community, nationalism, emigration, transmission, and gender. Using the informal instrumental and singing session as a focalpoint, Dorothea E. Hast and Stanley Scott take readers into contemporary performance environments and explore many facets of the tradition, from the "craic" (good-natured fun) to performance style, repertoire, and instrumentation. Incorporating first-person accounts of performances and interviews with performers and folklorists, the authors emphasize the significant roles that people play in music-making and illuminate national and international musical trends. They also address commercialism, globalization, and cross-cultural collaboration, issues that have become increasingly important as more Irish artists enter the global marketplace through recordings, tours, and large-scale productions like

Riverdance. Packaged with a 70-minute CD containing examples of the music discussed in the book, *Music in Ireland* features guided listening and hands-on activities that allow readers to gain experience in Irish culture by becoming active participants in the music.

Alice Keppel, the married lover of Queen Victoria's eldest son and great-grandmother to Camilla Parker-Bowles, was a key figure in Edwardian society. Hers was the acceptable face of adultery. Discretion was her hallmark. It was her art to be the king's mistress and yet to laud the Royal Family and the institution of marriage. Formidable and manipulative, her attentions to the king brought her wealth, power, and status. Her daughter Violet Trefusis had a long tempestuous affair with the author and aristocrat Vita Sackville-West, during which Vita left her husband

and two sons to travel abroad with Violet. It was a liaison that threatened the fabric of Violet's social world, and her passion and recalcitrance in pursuit of it pitted her against her mother and society. From memoirs, diaries, and letters, Diana Souhami portrays this fascinating and intense mother/daughter relationship in *Mrs. Keppel and Her Daughter*. Her story of these women, their lovers, and their lovers' mothers, highlights Edwardian - and contemporary - duplicity and double standards and goes to the heart of questions about sexual freedoms.

The Assassin paid no heed to his quarry's death throes. His attention remained fixed on the long blade in his fist, on its pommel of yellowed ivory carved in the shape of a djinni's snarling visage. "I am al-Hashishiyya," he said to the glittering-eyed devil. "I am Death incarnate." So am I, the devil replied . . . On the banks of the ageless Nile, from a palace of gold and lapis lazuli, the young Caliph Rashid al-Hasan rules as a figurehead over a crumbling empire. Cairo is awash in deception. In the shadow of the Gray Mosque, generals and emirs jockey for position under the scheming eyes of the powerful grand vizier. In the crowded souks and narrow alleys, warring factions employ murder and terror to silence their opponents. Egypt bleeds. And the scent draws her enemies in like sharks: the swaggering Kurd, Shirkuh, who serves the pious Sultan of Damascus and Amalric, the Christian king of Jerusalem whose greed is insatiable and whose knights are hungry for battle. And yet, all is not lost. There is an old man who lives on a remote mountainside in a distant land. He holds the power of life and death over the warring factions of the Muslim world - and decides to come to the Caliph's aid. He sends his greatest weapon into Egypt. He sends a single man. An Assassin. The one they call the Emir of the Knife.... In this lighting-paced epic, bestselling author Scott Oden masterfully blends history and adventure in the style of Robert E. Howard. Bringing medieval Cairo, the true jewel of the Arabian Nights, to exhilarating life, full of intrigue and thunderous battle, Oden resurrects one of the Ancient World's most beautiful and beguiling countries.

From the bestselling author of *Lawrence in Arabia*, a piercing account of how the contemporary Arab world came to be riven by catastrophe since the 2003 United States invasion of Iraq. In 2011, a series of anti-government uprisings shook the Middle East and North Africa in what would become known as the Arab Spring. Few could predict that these convulsions, initially hailed in the West as a triumph of democracy, would give way to brutal civil war, the terrors of the Islamic State, and a global refugee crisis. But, as New York Times bestselling author Scott Anderson shows, the seeds of catastrophe had been sown long before. In this gripping account, Anderson examines the myriad complex causes of the region's profound unraveling, tracing the ideological conflicts of the present to their origins in the United States invasion of Iraq in 2003 and beyond. From this investigation emerges a rare view into a land in upheaval through the eyes of six individuals—the matriarch of a dissident Egyptian family; a

Libyan Air Force cadet with divided loyalties; a Kurdish physician from a prominent warrior clan; a Syrian university student caught in civil war; an Iraqi activist for women's rights; and an Iraqi day laborer-turned-ISIS fighter. A probing and insightful work of reportage, *Fractured Lands* offers a penetrating portrait of the contemporary Arab world and brings the stunning realities of an unprecedented geopolitical tragedy into crystalline focus.

The groundbreaking exploration of the power of empathy by renowned child-psychiatrist Bruce D. Perry, co-author, with Oprah Winfrey, of *What Happened to You? Born for Love* reveals how and why the brain learns to bond with others—and is a stirring call to protect our children from new threats to their capacity to love. "Empathy, and the ties that bind people into relationships, are key elements of happiness. *Born for Love* is truly fascinating." — Gretchen Rubin, author of *The Happiness Project* From birth, when babies' fingers instinctively cling to those of adults, their bodies and brains seek an intimate connection, a bond made possible by empathy—the ability to love and to share the feelings of others. In this provocative book, psychiatrist Bruce D. Perry and award-winning science journalist Maia Szalavitz interweave research and stories from Perry's practice with cutting-edge scientific studies and historical examples to explain how empathy develops, why it is essential for our development into healthy adults, and how to raise kids with empathy while navigating threats from technological change and other forces in the modern world. Perry and Szalavitz show that compassion underlies the qualities that make society work—trust, altruism, collaboration, love, charity—and how difficulties related to empathy are key factors in social problems such as war, crime, racism, and mental illness. Even physical health, from infectious diseases to heart attacks, is deeply affected by our human connections to one another. As *Born for Love* reveals, recent changes in technology, child-rearing practices, education, and lifestyles are starting to rob children of necessary human contact and deep relationships—the essential foundation for empathy and a caring, healthy society. Sounding an important warning bell, *Born for Love* offers practical ideas for combating the negative influences of modern life and fostering positive social change to benefit us all.

What makes hundreds of listeners cheer ecstatically at the same instant during a live concert by Egyptian diva Umm Kulthum? What is the unspoken language behind a taqsim (traditional instrumental improvisation) that performers and listeners implicitly know? How can Arabic music be so rich and diverse without resorting to harmony? Why is it so challenging to transcribe Arabic music from a recording? Inside Arabic Music answers these and many other questions from the perspective of two "insiders" to the practice of Arabic music, by documenting a performance culture and a know-how that is largely passed on orally. Arabic music has spread across the globe, influencing music from Greece all the way to India in the mid-20th century through radio and musical cinema, and global popular culture through Raqs Sharqi, known as "Bellydance" in the West. Yet despite its popularity and influence, Arabic music, and the maqam scale system at its heart, remain widely misunderstood. Inside Arabic Music de-mystifies maqam with an approach that draws theory directly from practice, and presents theoretical insights that will be useful to practitioners, from the beginner to the expert - as well as those interested in the related Persian, Central Asian, and Turkish makam traditions. Inside Arabic Music's discussion of maqam and improvisation widens general understanding of music as well, by bringing in ideas from Saussurean linguistics, network theory, and Lakoff and Johnson's

theory of cognition as metaphor, with an approach parallel to Gjerdingen's analysis of Galant-period music - offering a lens into the deeper relationships among music, culture, and human community.

Thus each rare new story from her pen has been greeted with hurrahs as well they should be, because she's one of the most skillful, caustic, and emphatic cartoon storytellers of her generation. This new book presents the biggest, richest and most delightful collection of Tyler's work to date featuring many new and previously unpublished works. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes; but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The tide is changing, though. Amber Picotas Gods Feminist Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and beauty of womanhood. God has given you permission to change the world by being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichés that minimize a womans true position in Christ!
