2013 International Conference on Complex Science Management and Education Science BoD -

Books on Demand

The 2014 International Conference on E-Commerce, E-Business and E-Service (EEE 2014) was held on May 1-2, 2014, Hong Kong. This proceedings volume assembles papers from various professionals, leading researchers, engineers, scientists and students and presents innovative ideas and research results focused on the progress of E-Commerce, E-Business and E-Service. The papers in this book group around the following topics: E-Commerce, E-Business and E-Service, Internet Computing and Information Services, Computer science and Technology and ICT for Business and Management.

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies

Appropriations for 2001: Food, nutrition, and consumer services ... rural development Edward Elgar Publishing

Electronic business, the integration of IT and the Internet into business processes, has begun to completely revolutionize business and the economy. The aim of this book is to point out the challenges and opportunities Europe and its companies are faced with in electronic business. The material is based upon the authors joint experience of years of research into the use of IT in business, industry, and government, as well as their management experience as President and CEO of leading technology organizations.

Amir Manzoor

Learn how to develop REST-style and SOAP-based web services and clients with this quick and thorough introduction. This hands-on book delivers a clear, pragmatic approach to web services by providing an architectural overview, complete working code examples, and short yet precise instructions for compiling, deploying, and executing them. You'll learn how to write services from scratch and integrate existing services into your Java applications. With greater emphasis on REST-style services, this second edition covers HttpServlet, Restlet, and JAX-RS APIs; jQuery clients against REST-style services; and JAX-WS for SOAP-based services. Code samples include an Apache Ant script that compiles, packages, and deploys web services. Learn differences and similarities

between REST-style and SOAP-based services Program and deliver RESTful web services, using Java APIs and implementations Explore RESTful web service clients written in Java, JavaScript, and Perl Write SOAP-based web services with an emphasis on the application level Examine the handler and transport levels in SOAP-based messaging Learn wire-level security in HTTP(S), users/roles security, and WS-Security Use a Java Application Server (JAS) as an alternative to a standalone web server

Linking Up and Reaching Out in Bangladesh IGI Global

E-commerce provides immense capability for connectivity through buying and selling activities all over the world. During the last two decades new concepts of business have evolved due to popularity of the Internet, providing new business opportunities for commercial organisations and they are being further influenced by user activities of newer applications of the Internet. Business transactions are made possible through a combination of secure data processing, networking technologies and interactivity functions. Business models are also subjected to continuous external forces of technological evolution, innovative solutions derived through competition, creation of legal boundaries through legislation and social change. The main purpose of this book is to provide

the reader with a familiarity of the web based e-commerce environment and position them to deal confidently with a competitive global business environment. The book contains a numbers of case studies providing the reader with different perspectives in interface design, technology usage, quality measurement and performance aspects of developing web-based e-commerce.

Through a structured literature review and an exploratory factor analysis, this thesis presents a conceptual framework with 6 key factors composed of 19 indicators, including government, consumer, company, product, operation and partnership, which affecting the development of e-logistics in cross-border relation. Then, a comprehensive competitive strategy is generated based on the framework, including government policy, logistics strategy selection, differentiated product, dual-channel inventory and transport. Finally, Walmart and JD.com in China market are chosen as case study, the development of their cross-border e-logistics strategy verify the rationality and applicability of the framework found in this thesis. Durch eine strukturierte Literaturrecherche und eine explorative Faktorenanalyse, stellt diese Arbeit einen konzeptionellen Framework mit 6 Schlüsselfaktoren auf, die sich 19 Indikatoren zusammensetzen, die sich auf die Entwicklung der E-Logistik in Cross-Border-Beziehungen auswirken, darunter Regierung, Verbraucher, Unternehmen, Produkt, Betrieb und Partnerschaft. Anschließend wird eine umfassende Wettbewerbsstrategie auf der Grundlage des Frameworks erstellt, einschließlich der Regierungspolitik, der Auswahl der Logistikstrategie, des differenzierten Produkts, des Dual-Channel-Bestands und des Transports. Schließlich werden Walmart und JD.com im chinesischen Markt als Fallstudie ausgewählt, die Entwicklung ihrer Cross-Border-E-Logistik-Strategie aufgezeigt und Anwendbarkeit des Frameworks

demonstriert.

Your customers don't care whether it is you, your ISP, ASP, or other outsourced provider who screws up - they just know they can't do business with you when they want to. All that matters is that your e-business is failing to deliver - and that you need to hold someone accountable.

Meaningful Service Level Agreements (SLAs) are unambiguous, comprehensive, and enforceable. SLAs commit suppliers to a defined quality of service: failure to meet explicit service levels can result in penalties or even legal action. Spectacular losses often follow e-business outages, particularly when SLAs are not in force. The biggest hit is not necessarily loss of income or profit, but impact on stock values - especially when markets are skittish. Some losses have exceeded \$40 million with stock values falling by 26%. This new book offers the keys to effective SLAs with Internet Service Providers (ISPs) and Application Service Providers (ASPs), which can go a long way toward averting catastrophic losses as well as day-to-day headaches.

[Research Handbook on Electronic Commerce Law](#) SBPD Publishing House

This book constitutes the refereed proceedings of the Second International Conference on Trust and Privacy in Digital Business, TrustBus 2005, held in Copenhagen, Denmark, in August 2005. The 32 revised full papers presented together with an invited paper were carefully reviewed and selected from more than 100 submissions. The papers are organized in topical sections on digital business, mobile/wireless services, certificate revocation/index search, trust, digital signature, privacy, e-auctions, and smart cards/authentication.

[106-2 Hearings: Agriculture, Rural Development, Food And Drug Administration, And Related Agencies Appropriations For 2001, Part 6, March 1, 2000](#) John Wiley & Sons

This book attempts to shed light on why it is so difficult to develop and maintain successful businesses in the grocery e-commerce arena. Within the last five years, grocery e-commerce has

experienced both consistent successes such as Tesco.com and irrevocable failures such as Webvan.com. Niels Kornum and Mogens Bjerre bring key researchers together to investigate the factors contributing to the success of grocery e-commerce, particularly in countries that had the earliest and most extensive experiences in this field: the USA, the UK and Scandinavia.

[Data Engineering Issues in E-Commerce and Services](#) DEStech Publications, Inc

This book constitutes the refereed proceedings of the 4th International Conference on E-Commerce 2003, held in Prague, Czech Republic in September 2003. The 42 revised full papers presented together with an invited paper and a position paper were carefully reviewed and selected from 108 submissions. The papers are organized in topical sections on auctions, security, agents and search, ebXML, modeling and technology, XML, design and performance, business processes, and brokering and recommender systems.

The microfinance sector in Bangladesh has matured rapidly in the past 30 years and now boasts the largest number of clients in the entire world. Despite these successes, the day-to-day operations of most microcredit institutions in Bangladesh are done manually. The introduction of a centralized information and communications technology (ICT) platform in the microfinance sector will provide further cost savings by streamlining data so that errors, omissions, and duplications (client overlap) are eliminated. Moreover, the introduction of a centralized ICT platform will help to ensure transparency through the standardization of information exchange and accounting mechanisms, increase outreach to rural areas, and integrate the largely informal microfinance sector with the formal financial system. 'Linking Up and Reaching Out in Bangladesh' shows how the establishment of a centralized microfinance platform would revolutionize the country's microfinance sector. This volume will be a useful guide for practitioners, policy makers, and microfinance institutions around the world.

[Plunkett's E-commerce & Internet Business Almanac 2006](#) Plunkett Research, Ltd.

Learn how to design and deploy utility computing systems to save costs and improve the value that IT delivers. The economic downturn that occurred after the .com boom and bust has put the cost of IT in the spotlight. By following the principles of utility computing, also known as on-demand computing, real-time infrastructure, or adaptive enterprise, businesses can improve the IT services they offer, whilst reducing costs and improving agility. Delivering Utility Computing proposes and documents a methodology for delivering utility computing, and provides detailed advice on its principles and benefits. The authors describe a complete and step-by-step process for adapting to a utility computing system, based on proven methodology. Delivering Utility Computing: Provides a comprehensive description of the utility model, offering guidance on design, deployment and maintenance issues, and a strong section on service level agreements (SLAs). Explains in detail how to improve efficiencies and achieve cost reduction in the IT department. Adopts a thorough approach, taking into account current baselines, phasing, task involved, success factors and best practice principles. Presents a method rooted in theory, yet broad-based and practical, illustrated throughout with examples and real-world case studies. This invaluable text provides CIOs, CFOs, system administrators, IT policy makers and professionals looking to develop utility computing practices in their organizations, as well as researchers in computer science, statisticians, engineers, and graduate students, with an in-depth understanding of the concepts and practicalities of utility computing.
