Name:

\_\_\_\_\_. Identifying Variables - Practice 1. Read the following experimental scenarios and identify the variables. 1. It is January and Haley, Sarah and Becky are tired of having cold feet while waiting for the school bus to come in the morning. They decide to design an experiment to test the effectiveness of wool, cotton and nylon as insulators. Identifying Variables Practice 1 There can be several controlled variables. If an experiment is to be useful, only one variable

at a time can be manipulated intentionally. All other variables must be controlled throughout all parts of the experiment. If more than one variable is altered (changed), the results of an experiment cannot be interpreted with any validity. 4. Name: For each item below, specify the independent and ...A few examples can highlight the importance and usage of dependent and independent variables in a broader sense. If one wants to measure the influence of different quantities of nutrient intake on the growth of an infant, then the amount of nutrient intake can be the independent variable, with the dependent variable as the growth of an infant measured by height, weight or other factor(s) as ...Independent and Dependent Variables - Statistics SolutionsView practice\_identifying\_variables (1).pdf from MATH 12 at Brownsville Area Hs.
