Out and Running is the first systematic analysis of lesbian, gay, bisexual, and transgender (LGBT) political representation that explores the dynamics of state legislative campaigns and the influence of lesbian and gay legislators in the state policymaking process. By examining state legislative elections from 1992 to 2006 and state policymaking from 1992 to 2009, Donald Haider-Markel suggests that the LGBT community can overcome hurdles and win elections; and, once in office, these officials can play a critical role in the policy representation of the community. However, he also discovers that there are limits to where and when LGBT candidates can run for office and that, while their presence in office often enhances policy representation, it can also create backlash. But even with some of these negative consequences, Out and Running provides compelling evidence that gays and lesbians are more likely to see beneficial legislation pass by increasing the number of LGBT state legislators. Indeed, grassroots politics in the states may allow the LGBT community its best opportunity for achieving its policy goals.

Giving Voice to Values, under the leadership of Mary Gentile, has fundamentally changed the way business ethics and values-driven leadership is taught and discussed in academic and corporate settings worldwide. This book shifts attention to the future of Giving Voice to Values (GVV) and provides thought pieces from practitioners and leading experts in business ethics and the professions on the possibilities for sustaining its growth and success. These include the creation of new teaching materials, reaching different audiences, and expanding the ways in which GVV is making a difference in classrooms and the workplace and acting as a catalyst for organizational and societal change. The book closes with a reflective chapter by Mary Gentile, looking back at where GVV has been and looking ahead to where GVV might go.

Speak up Speak Out - A new book for the speaking professional, presented by CAPS, Vancouver Chapter. CAPS Vancouver chapter has brought together 14 of Canada's leading speakers to present 'Speak up Speak out', a book offering down to earth advice and tips on running and developing a professional speaking business. For the seasoned professional or novice speaker, the book is Jam-packed with "how to's on all topics regarding the speaking profession, something can be learned from every chapter. An easy read, 'Speak up Speak out' is a book for both the avid and casual reader, whatever your preference, reading cover to cover or just picking out individual chapters of interest, there's something in it for

everyone. Easily slipped into a briefcase, it's a resource that can travel with you. Flowing seamlessly from beginning to end, the authors offer the benefit of their experience, from managing a speaking business, to marketing and selling your services. There are over 50 platform tips, how to add stories, ideas on how speakers use the Internet, the physical and mental prep as well as moving from training to keynotes and much, much more. The business of speaking is about entertaining the audience as much as imparting information. A little levity can go a long way to enhancing the success of a presentation. For a talented few, humour comes naturally, the rest of us have to work on it. David Granirer shows how stand up comedy can be used to captivate your audience. After reading this chapter you could have them rolling in the aisles. How many speakers talk about writing a book, but never quite get round to it? Best selling author Frances McGuckin shows how. Frances goes through the stages from concept to publishing and marketing your masterpiece. Whether to self publish or use a publishing house. The value of the information offered by this talented group of authors is incalculable. This book puts their experience and expertise within the grasp of us all, whenever we may need it.

Conquer the most essential adaptation to the knowledge economy
The Fearless Organization: Creating Psychological Safety in the Workplace for Learning, Innovation, and Growth offers practical guidance for teams and organizations who are serious about success in the modern economy. With so much riding on innovation, creativity, and spark, it is essential to attract and retain quality talent—but what good does this talent

do if no one is able to speak their mind? The traditional culture of “fitting in” and “going along” spells doom in the knowledge economy. Success requires a continuous influx of new ideas, new challenges, and critical thought, and the interpersonal climate must not suppress, silence, ridicule or intimidate. Not every idea is good, and yes there are stupid questions, and yes dissent can slow things down, but talking through these things is an essential part of the creative process. People must be allowed to voice half-finished thoughts, ask questions from left field, and brainstorm out loud; it creates a culture in which a minor flub or momentary lapse is no big deal, and where actual mistakes are owned and corrected, and where the next left-field idea could be the next big thing. This book explores this culture of psychological safety, and provides a blueprint for bringing it to life. The road is sometimes bumpy, but succinct and informative scenario-based explanations provide a clear path forward to constant learning and healthy innovation. Explore the link between psychological safety and high performance Create a culture where it's “safe” to express ideas, ask questions, and admit mistakes Nurture the level of engagement and candor required in today's knowledge economy Follow a step-by-step framework for establishing psychological safety in your team or organization Shed the “yes-men” approach and step into real performance. Fertilize creativity, clarify goals, achieve accountability, redefine leadership, and much more. The Fearless Organization helps you bring about this most critical transformation.

Ethics and Business Routledge

The first edition of Caroline Whitbeck's *Ethics in Engineering Practice and Research* focused on the difficult ethical problems engineers encounter in their practice and in research. In many ways, these problems are like design problems: they are complex, often ill defined; resolving them involves an iterative process of analysis and synthesis; and there can be more than one acceptable solution. In the second

edition of this text, Dr Whitbeck goes above and beyond by featuring more real-life problems, stating recent scenarios and laying the foundation of ethical concepts and reasoning. This book offers a real-world, problem-centered approach to engineering ethics, using a rich collection of open-ended case studies to develop skill in recognizing and addressing ethical issues.

Giving Voice to Values Bloomsbury Publishing

This text provides a thorough overview and hands-on practice in the written communication skills essential for life and work success.

Public Relations Cases Neil Philip Sheppard

This third edition of *Exploring Internal Communication* includes new chapters on the history of internal communication, the evolution of employee engagement, the current state of practice, change communication, storytelling, research and measurement, an internal communication measurement dashboard, intranet management and internal social media.

It argues that internal communication practice is about keeping employees informed and at the same time giving them a voice that is treated seriously.

The book is both a companion for internal communication courses and an exploration of key concepts for a strategic approach to practice that underpins employee engagement.

Enhancing University Teaching

Rowman & Littlefield

In 1983 three priests--among them Irishman Niall O'Brien --together with six lay leaders were arrested in the Philippines on a false charge of murder. The government of Ferdinand Marcos hoped in this way to silence those within

the church who were increasingly speaking out against social and political injustice. Instead, the "Negros Nine" became the subject of international protest and a focus of the burgeoning Philippine movement for non-violent change. Released after eighteen months' imprisonment, Father O'Brien returned to Dublin where his prison diary soon became a bestseller. In this new book, he unfolds the larger story of his twenty years as a missionary on the island of Negros in the Philippines. He shows how his encounters with the terrible poverty and ubiquitous injustice he found amid the wealth of the sugar plantations gradually convinced him that the true meaning of Christian discipleship is unconditional commitment to the poor and oppressed. He describes his role in establishing "basic Christian communities," autonomous local groups developed to provide their members with mutual spiritual and practical support, which so alarmed and threatened the military regime. From these beginnings he traces the development, in this land of pervasive brutality and casual murder, of his own theology of absolute nonviolence. Set against a fascinating background of colonial and more recent Philippine history, O'Brien's vivid first-person narrative provides a unique perspective on the events leading up to the overthrow of the Marcos regime. His theology holds out the hope of a "liberation" that can break the continuing cycle of violence and hatred.

Roll Red Roll Routledge

There has been much written on the importance of responsibility accounting and integrated reporting to ensure business accountability, but not on how to be a responsible accountant. As the accounting profession is built on the

foundation of maintaining public trust, making the right decisions when faced with a challenging dilemma has a major impact on the long-term performance and perception of the firm as well as personal credibility. Accountants make judgement calls on a regular basis: they are privy to highly confidential information regarding their clients and their clients' businesses. Unethical earnings management practices can easily lead to falsifying records, but how does the accounting professional avoid succumbing to these practices when faced with other pressures? *Giving Voice to Values in Accounting* is the first book to explain the ethical dilemmas faced by accountants in their day-to-day work and to provide clear guidance for accounting students and professionals in navigating through these issues. The Giving Voice to Values (GVV) framework focuses on resolving ethical conflict by encouraging individuals to act on their values. This book provides accounting educators, coaches, trainers and professionals with both the impetus and the tools to easily implement the GVV offering into their own work, their organizations and in the classroom.

Accounting Ethics Education Trafford Publishing

Accounting education ought to prepare future professionals to enter a principles-based, rules-oriented field of activity wherein technical knowledge of accounting standards (principles, rules and decision procedures) and ethical awareness (the capacity to discern moral issues and resolve ethical dilemmas) are crucial. Accounting education is best performed by the accountant's adherence to the principles of the

accounting profession and by individuals and firms following the appropriate rules, act according to the codes of conduct adopted by their profession, exercise clear judgment whenever they address financial transactions and consider/assess the state of a given business. *Accounting Ethics Education: Making Ethics Real* gathers a diversity of contributions from invited well-known experts and other specialists. It promotes comprehensive reflection around key trends, discussing and highlighting the most updated research on accounting ethics education, being an essential and useful reference in the field. In the performance of accounting tasks, the accountant should be educated and supported in the skills development and habit formation to solve accounting problems, recognize moral issues and resolve ethical dilemmas that will be encountered in their special tasks. Also, this book provides a moral map for identifying and acting on values when difficult situations arise. Examining multiple perspectives, the book improves the scholarly debate by providing cutting-edge and insightful research vital for all those interested and immersed in these matters. It will be of great value to academics, students, researchers and professionals in the fields of accounting, accounting education and ethics.

Effective Management John Wiley & Sons This worldwide bestseller offers simple guidance for building the kind of open and trusting relationships vital for tackling global systemic challenges and developing adaptive, innovative organizations—over 200,000 copies sold and translated into seventeen languages! We live, say Edgar and Peter Schein, in a culture of “tell.” All too often we tell others what we think they need

to know or should do. But whether we are leading or following, what matters most is we get to the truth. We have to develop a commitment to sharing vital facts and identifying faulty assumptions—it can mean the difference between success and failure. This is why we need Humble Inquiry more than ever. The Scheins define Humble Inquiry as “the gentle art of drawing someone out, of asking questions to which you do not know the answer, of building relationships based on curiosity and interest in the other person.” It was inspired by Edgar's twenty years of work in high-hazard industries and the health-care system, where honest communication can literally mean the difference between life and death. In this new edition the authors look at how Humble Inquiry differs from other kinds of inquiry, offer examples of it in action, and show how to overcome the barriers that keep us telling when we should be asking. This edition offers a deepening and broadening of this concept, seeing it as not just a way of posing questions but an entire attitude that includes better listening, better responding to what others are trying to tell us, and better revealing of ourselves. Packed with case examples and a full chapter of exercises and simulations, this is a major contribution to how we see human conversational dynamics and relationships, presented in a compact, personal, and eminently practical way. *Teaching to Empower* Pearson Education **A New York Times Book Review Editor's Choice selection** An incisive narrative about a teen rape case that divided a Rust Belt town, exposing the hostile and systemic undercurrents that enable sexual violence, and spotlighting ways to make change. In football-obsessed Steubenville, Ohio, on a

summer night in 2012, an incapacitated sixteen-year-old girl was repeatedly assaulted by members of the “Big Red” high school football team. They took turns documenting the crime and sharing on Facebook, Twitter, and YouTube. The victim, Jane Doe, learned the details via social media at a time when teens didn’t yet understand the lasting trail of their digital breadcrumbs. Crime blogger Alexandria Goddard, along with hacker collective Anonymous, exposed the photos, Tweets, and videos, making this the first rape case ever to go viral and catapulting Steubenville onto the national stage. Filmmaker Nancy Schwartzman spent four years embedded in the town, documenting the case and its reverberations. Ten years after the assault, *Roll Red Roll* is the culmination of that research, weaving in new interviews and personal reflections to take readers beyond Steubenville to examine rape culture in everything from sports to teen dynamics. *Roll Red Roll* explores the factors that normalize sexual assault in our communities. Through inter-views with sportswriter David Zirin, victim’s rights attorney Gloria Allred and more, Schwartzman untangles the societal norms in which we too often sacrifice our daughters to protect our sons. With the Steubenville case as a flashpoint that helped spark the #MeToo movement, a decade later, *Roll Red Roll* focuses on the perpetrators and asks, can our society truly change?

“Students will really appreciate this book. It has a rare combination of humor, clarity, exceptional writing, and, above all, a precision in outlining skills and knowledge for practice. As a professional, I learned much that will be useful to me.” —Alexander M. Ervin,

University of Saskatchewan “At last, a textbook on development anthropology that is comprehensive, clearly written, and up-to-date! Nolan provides an exceptionally useful framework for analyzing development projects, carefully illustrated with mini-case studies.” —Linda Stone, Washington State University “Nolan’s book should be a backpack staple for the practitioner of grassroots development.” —Jan Knippers Black, Monterey Institute of International Studies

Development Anthropology is a detailed examination of anthropology’s many uses in international development projects. Written from a practitioner’s standpoint and containing numerous examples and case studies, the book provides students with a comprehensive overview of what development anthropologists do, how they do it, and what problems they encounter in their work. The book outlines the evolution of both applied anthropology and international development and their involvement with each other throughout the latter half of the twentieth century. It focuses on how development projects work and how anthropology is used in project design, implementation, and evaluation. The final section of the book considers how both development and anthropology must change in order to become more effective. An appendix provides practical advice to students considering a career in development anthropology.

A Virtuous Life in Business Routledge

Bullying, harassment and other unacceptable workplace behaviors pose significant problems for organizations. This exploration of the issue notes that factors from within the organization may help determine who and why some individuals become targets and others become bullies. The authors explore different types of behaviors where managers and management, as well as employees, are the problem. Each chapter has anecdotes scattered throughout and contains a 'mini-case,' review questions, 'action' items, and two longer cases, all based on actual events. The authors present a unique framework (V-REEL®) to assist individuals and organizations in analyzing the organization's environment to try to eradicate the negative behavior forces that contribute to bad behavior.

Henry Newsome's Last Case Tyndale House

After his retirement in 1996 Michael Frederick Clark continues to be active as a published Field Ornithologist, as well as in his work as a pastoral visitor and 3rd World volunteer. A lover of nature and of all things "classical" in the arts, he is also an enthusiastic reader in several fields. In recent years, Mr. Clark has published two works of fiction and two of poetry, all through AuthorHouse, including GOLDEN YEARS: Three Tales For A Winter's Evening and the present work (fiction), and MIXED TIDINGS: Shorter Lyrics And Other Poems and SOUNDINGS: A Volume of Longer Poems. Distraught and aging, Henry Newsome, a retired Chief of Detectives from the St. Louis Police Department, travels north [in the late '60's] into Canada to visit with his cousin, Mini Carmichael, who decades before he had asked to be his wife. In the small town of Dunnestun, Ontario, Henry is met by one of the heaviest winter storms on record, and by a tangled web of hideous murders that tests even his skills as an internationally acclaimed forensics expert. Plagued by a town plunged into a deep winter torpor, a green and conflicted police sergeant, his own issues with advancing age, and his frustrating attempts to reconnect with his much altered cousin, Henry's task is far from easy. Most vexing and problematic is Mini's strange little "nephew", a visionary, who is in some way central to the case. While the bringing to justice of a brutal and cold-blooded child murderer is the plot's centerpiece, it is only one part of a larger story of deepening intrigue and mystery. As told from the multiple viewpoints of the engaging principal characters, HENRY NEWSOME'S LAST CASE will hold the attentive reader's

interest to the very last page.
