 The overriding objective of Eun and Resnick's *International Financial Management*, 3e is to teach students how to be effective global financial managers. The text covers the fundamentals of the macroeconomic environment of international financial management, discusses the financial environment in

which the multinational firm and its managers must function, and covers foreign exchange management and financial management in a multinational firm.

Strategy, Planning, and Operation

John Wiley & Sons

This seventh edition of an investment classic has been thoroughly revised and expanded following the latest crises to hit international markets. Renowned economist Robert Z. Aliber introduces the concept that global financial crises in recent years are not independent events, but symptomatic of an inherent instability in the international system.
