TY SCHMITT

The Little Book of Philosophy Hachette UK

Three former CIA officers share their techniques for lie detection, outlining methods for identifying deceptiveness as revealed by verbal and non-verbal behaviors from facial expressions and grooming gestures to invoking religion and using qualifying language.

Big Ideas Simply Explained Macmillan

Provides information about the key influences, spiritual figures, sacred stories, traditions, doctrines, and dogmas of each of the world's major religions.

A Compelling Introduction to Philosophy Red Wheel/Weiser

A thoroughly updated and substantially expanded edition of an acclaimed anthology This is a thoroughly updated and substantially expanded new edition of one of the most popular, wide-ranging, and engaging anthologies of Western political thinking, one that spans from antiquity to the twenty-first century. In addition to the majority of the pieces that appeared in the original edition, this new edition features exciting new selections from more recent thinkers who address vital contemporary issues, including identity, cosmopolitanism, global justice, and populism. Organized chronologically, the anthology brings together a fascinating array of writings—including essays, book excerpts, speeches, and other documents—that have indelibly shaped how politics and society are understood. Each chronological section and thinker is presented with a brief, lucid introduction, making this a valuable reference as well as reader. A thoroughly updated and substantially expanded edition of an acclaimed anthology of political thought Features a wide range of thinkers, including Thucydides, Plato, Aristotle, Cicero, Augustine, Aquinas, Christine de Pizan, Machiavelli, Luther, Calvin, Hobbes, Spinoza, Locke, Swift, Hume, Rousseau, Adam Smith, Jefferson, Burke, Olympes de Gouges, Wollstonecraft, Kant, Hegel, Bentham, Mill, de Tocqueville, Frederick Douglass, Lincoln, Marx, Nietzsche, Lenin, John Dewey, Gaetano Mosca, Roberto Michels, Weber, Emma Goldman, Freud, Einstein, Mussolini, Arendt, Hayek, Franklin D. Roosevelt, T. H. Marshall, Orwell, Leo Strauss, de Beauvoir, Fanon, Martin Luther King Jr., Malcolm X, Havel, Fukuyama, Mitchell Cohen, Habermas, Foucault, Rawls, Nozick, Walzer, Iris Marion Young, Martha Nussbaum, Peter Singer, Amartya Sen, and Jan-Werner Müller Includes brief introductions for each thinker

50 Philosophy Ideas You Really Need to Know OUP Oxford

A short book about the methods and history of philosophy. This book describes the philosophies of some of the most important philosophers in history, especially since the time of Descartes; it also analyzes those viewpoints. However, instead of trying to persuade the reader to a certain viewpoint, it attempts to lay the facts out and show the strengths and weaknesses of each viewpoint. This book takes a middle approach to philosophy as opposed to the two extremes you find in most introductory books to philosophy. The first extreme just merely describes what the philosophers wrote and then presents a portion of their writings for review. The second extreme takes a more analytical approach criticizing viewpoints which differ from its own and never admitting, much less

addressing, challenges or weaknesses that this viewpoint may have of its own. Next, this book focuses on some of the major world religions. The standard approach to introductory books to philosophy is to concentrate on the claim that God exists and also challenges to that claim, and leave it at that. The god of philosophers just simply doesn't exist. He will either be the God of Buddhism, Hinduism, Judaism, Christianity, Islam, etc. So why spend an inordinate amount of time on a god who does not exist at the expense of the study of the God who just might exist? This book also focuses on narrative, the story element in life as it addresses these major issues. There is a trend in philosophy today to focus on the logical element in philosophy. This is a much-needed corrective to the unbridled intuitive approach. To help understand the way philosophy undergirds so many of the other disciplines, this book will take an interdisciplinary approach to philosophy.

Philosophy for Beginners Philosophy 101 From Plato and Socrates to Ethics and Metaphysics, an Essential Primer on the History of Thought

Socrates has inspired and guided the brightest men and women for more than two thousand years. Now you can make him your mentor—to strengthen your thinking, enrich your life, and reach your goals. In *Socrates' Way*, you meet Socrates face-to-face, hear his voice, and learn how he changes people's lives. The book provides step-by-step guidance on how to harness his methods to vastly enhance your own creativity and autonomy. Specifically, Socrates shares the seven keys to using one's mind to the utmost: Know thyself Grow with friends Ask great questions Strengthen your soul Verify everything Speak frankly Free your mind You will master the famed "Socratic Method" for getting to the root of any problem; launch one of Socrates' exhilarating "Dialogues" among your colleagues at work, as well as at home; and sharpen and enliven your thinking. In short, you will discover the Socratic spirit in you.

The Best of Socrates Simon and Schuster

A comprehensive and complete primer to guide undergraduate philosophy students

The Founding Philosophies of Ethics, Virtues & Life Adams Media

Discover the world's greatest thinkers and their groundbreaking notions! Too often, textbooks turn the noteworthy theories, principles, and figures of philosophy into tedious discourse that even Plato would reject. Philosophy 101 cuts out the boring details and exhausting philosophical methodology, and instead, gives you a lesson in philosophy that keeps you engaged as you explore the fascinating history of human thought and inquisition. From Aristotle and Heidegger to free will and metaphysics, Philosophy 101 is packed with hundreds of entertaining philosophical tidbits, illustrations, and thought puzzles that you won't be able to find anywhere else. So whether you're looking to unravel the mysteries of existentialism, or just want to find out what made Voltaire tick, Philosophy 101 has all the answers—even the ones you didn't know you were looking for.

Seven Keys to Using Your Mind to the Utmost Simon and Schuster

Ethics: The Fundamentals explores core ideas and arguments in moral theory by introducing students to different philosophical approaches to ethics, including virtue ethics, Kantian ethics, divine command theory, and feminist ethics. The first volume in the new Fundamentals of Philosophy series. Presents lively, real-world examples and thoughtful discussion of key moral philosophers and their

ideas. Constitutes an excellent resource for readers coming to the subject of ethics for the first time.

An In-Depth Overview of History's Great Thinkers Simon and Schuster

An Eyes-and-Ears-and-Mouth-and-Nose Guide to Self-Diagnosis Penguin

Does the Center Hold? is an entertaining, topically-organized introductory program with more than 500 original illustrations. The ideas and issues typically covered in introductory philosophy courses are presented here in a remarkably accessible and enjoyable manner. Donald Palmer demonstrates that serious philosophical inquiry may be perplexing, but is ultimately liberating, and students will come away from the book with a comprehensive, and often delighted, understanding of philosophy. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here:

2017 Updated Edition Simon and Schuster

Become a poet and write poetry with ease with help from this clear and simple guide in the popular 101 series. Poetry never goes out of style. An ancient writing form found in civilizations across the world, poetry continues to inform the way we write now, whether we realize it or not—especially in social media—with its focus on brevity and creating the greatest possible impact with the fewest words. Poetry 101 is your companion to the wonderful world of meter and rhyme, and walks you through the basics of poetry. From Shakespeare and Chaucer, to Maya Angelou and Rupi Kaur, you'll explore the different styles and methods of writing, famous poets, and poetry movements and concepts—and even find inspiration for creating poems of your own. Whether you are looking to better understand the poems you read, or you want to tap into your creative side to write your own, Poetry 101 gives you everything you need!

The Fundamentals Goodwill Trading Co., Inc.

'Philosophy: The Basics' deservedly remains the most recommended introduction to philosophy on the market. Warburton is patient, accurate and, above all, clear. There is no better short introduction to philosophy.' - Stephen Law, author of *The Philosophy Gym* *Philosophy: The Basics* gently eases the reader into the world of philosophy. Each chapter considers a key area of philosophy, explaining and exploring the basic ideas and themes including: Can you prove God

exists? How do we know right from wrong? What are the limits of free speech? Do you know how science works? Is your mind different from your body? Can you define art? How should we treat non-human animals? For the fifth edition of this best-selling book, Nigel Warburton has added an entirely new chapter on animals, revised others and brought the further reading sections up to date. If you've ever asked 'what is philosophy?', or wondered whether the world is really the way you think it is, this is the book for you.

Conversations of Socrates Penguin UK

After the execution of Socrates in 399 BC, a number of his followers wrote dialogues featuring him as the protagonist and, in so doing, transformed the great philosopher into a legendary figure. Xenophon's portrait is the only one other than Plato's to survive, and while it offers a very personal interpretation of Socratic thought, it also reveals much about the man and his philosophical views. In 'Socrates' Defence' Xenophon defends his mentor against charges of arrogance made at his trial, while the 'Memoirs of Socrates' also starts with an impassioned plea for the rehabilitation of a wronged reputation. Along with 'The Estate-Manager', a practical economic treatise, and 'The Dinner-Party', a sparkling exploration of love, Xenophon's dialogues offer fascinating insights into the Socratic world and into the intellectual atmosphere and daily life of ancient Greece.

From Plato and Socrates to Ethics and Metaphysics, an Essential Primer on the History of Thought Simon and Schuster

Philosophy For Dummies is a complete crash-course in philosophical thought, covering key philosophers, philosophical history and theory and the big questions that affect us today. Tying in with standard UK curricula and including core topics such as logic, ethics and political philosophy, this impartial, expert guide cuts through the jargon to give you the facts.

Philosophy: A Complete Introduction: Teach Yourself Simon and Schuster

This revolutionary book empowers its readers by exploring enduring, challenging, and timely philosophical issues in new essays written by expert women philosophers. The book will inspire and entice these philosophers' younger counterparts, curious readers of all genders, and all who support equity in philosophy. If asked to envision a philosopher, people might imagine a bearded man, probably Greek, perhaps in a toga, pontificating about abstract ideas. Or they might think of that same man in the Enlightenment, gripping a quill pen and pouring universal truths onto a page. They may even call to mind a much more modern man, wearing a black sweater and smoking a cigarette in a Paris café, expressing existential angst in a new novel or essay. What people are unlikely to picture, though, is a woman. Women have historically been excluded from the discipline of philosophy and remain largely marginalized in contemporary textbooks and anthologies. The under-representation of women in secondary and post-secondary curricula makes it harder for young women to see themselves as future philosophers. In fact, it makes it harder for all people to engage the valuable contributions that women have made and continue to make to intellectual thought. While some progress has been made in building a more inclusive world of philosophy, especially in the last fifty years, important work remains to be done. *Philosophy for Girls* helps correct the pervasive and problematic omission of women from philosophy. Divided into four sections that connect to major, primary fields in philosophy (metaphysics, epistemology, social and political philosophy, and ethics), this anthology is unique: chapters are all written by women, and each

chapter opens with an anecdote about a girl or woman from mythology, history, art, literature, or science to introduce chapter topics. Further, nearly all primary and secondary sources used in the chapters are written by women philosophers. The book is written in a rigorous, academic spirit but in lively and engaging prose, making serious philosophical insights accessible to readers who are new to philosophy. This book appeals to a wide audience. Individual readers will find value in these pages--especially girls and women ages 16-24, as well as university and high school educators and students who want a change from standard anthologies that include few or no women. The book's contributors both represent and map the diverse landscape of philosophy, highlighting its engagement with themes of gender and equity. In doing so, they encourage philosophers current and future philosophers to explore new territory and further develop the topography of the field. *Philosophy for Girls* is a rigorous yet accessible entry-point to philosophical contemplation designed to inspire a new generation of philosophers.

Looseleaf for Does the Center Hold?: An Introduction to Western Philosophy Routledge

If you want to know your Socrates from your Sartre and your Confucius from your Kant, strap in for this whirlwind tour of the highlights of philosophy. Including accessible primers on: The early Ancient Greek philosophers and the 'big three': Socrates, Plato and Aristotle Key schools of philosophy and their impact on modern life Insights into the main questions philosophers have explored over the years: Who am I? What is the meaning of life? Do I have free will? Practical applications for the theories of Descartes, Kant, Wollstonecraft, Marx, Nietzsche and many more. This illuminating little book will introduce you to the key thinkers, themes and theories you need to know to understand how human ideas have sculpted the world we live in and the way we think today.

Including ideas from Aristotle and Zeno to Descartes and Wittgenstein, it covers the whole range of western thought. By the time you finish reading this book, you will be able to answer questions like: • What is truth? • What can I really know? • How can I live a moral life? • Do I have free will?

Simon and Schuster

Two complete eBooks for one low price! Created and compiled by the publisher, this *Philosophy & Ethics* bundle brings together two important titles in one, e-only bundle. With this special bundle, you'll get the complete text of the following two titles: *Philosophy For Dummies* *Philosophy For Dummies* is for anyone who has ever entertained a question about life and this world. In a conversational tone, the book's author - a modern-day scholar and lecturer - brings the greatest wisdom of the past into the challenges that we face now. This refreshingly different guide explains philosophical fundamentals and explores some of the strangest and deepest questions ever posed to human beings, such as: How do we know anything? What does the word good mean? Are we ever really free? Do human beings have souls? Is there life after death? Is there a God? Is happiness really possible in our world? *Ethics For Dummies* An easy-to-grasp guide to addressing the principles of ethics and applying them to daily life How do you define "good" versus "evil?" Do you know the difference between moral "truth" and moral relativity? Whether or not you know Aristotle from Hume, *Ethics For Dummies* will get you comfortable with the centuries-old study of ethical philosophy quickly and effectively! *Ethics For Dummies* is a practical, friendly guide that takes the headache out of the often-confusing subject of ethics. In plain English, it examines the controversial facets of ethical thought, explores the problem of evil, demystifies the writings and theories of such great thinkers through the ages as Aristotle, Confucius, Descartes, Kant, Nietzsche, and so much more. You'll learn how to apply the concepts and theories of ethical philosophy to your everyday life. Whether you're currently enrolled in an ethics course or are interested in living a good life but are vexed with ethical complexities, *Ethics For Dummies* has you covered! About the Author of *Philosophy For Dummies* Tom Morris, Ph.D., author of *True Success* and other books, taught philosophy at Notre Dame University for 15 years and currently heads the Morris Institute for Human Values. About the Authors of *Ethics For Dummies* Christopher Panza, PhD, is an associate professor of philosophy at Drury University and coauthor of *Existentialism For Dummies*. Adam Potthast, PhD, is an assistant professor of philosophy at Missouri University of Science and Technology.
