Ottoman Rule, Islam and the Albanians,
1874-1913 I. B. Tauris

The contributors to this study critically de-construct Albanian myths and offer insights into Albanian history and politics. They conclude with

contemporary Albanian critiques of the origins and functions of Albanian politics and ideologies.

"In The Pechenegs: Nomads in the
Political and Cultural Landscape of

Medieval Europe Aleksander Paroń offers a reflection on the history of the Pechenegs, a nomadic people which came to control the Black Sea steppe by the end of the ninth century. Nomadic peoples have often been presented in European historiography as aggressors and destroyers whose appearance led to only chaotic decline and economic stagnation. Making use of historical and archaeological sources along with abundant comparative material, Aleksander Paroń offers here a multifaceted and cogent image of the nomads' relations with neighboring political and cultural communities in the tenth and eleventh centuries"--
Archaeology in the Construction, Commemoration, and Consecration of National Pasts I. B. Tauris

Empires, tribal leaders, Communists, religious conflict and any number of wars: these have been the realities of life in Northern Albania for centuries. In this rich and comprehensive history, T.J. Winnifrith examines the many different elements that have shaped this independent and little-known region of the Balkans. There has always been a fundamental division between the South of Albania and its mysterious, romantic North - more feudal, more tribal, more Catholic and more prone to Austrian and Italian influence; less affected by Greece, both ancient and modern, medieval Byzantium or the Orthodox faith. Northern Albania also has a more savage climate and landscape than the south of the country and its inhabitants have traditionally had little respect for

law and authority while remaining greatly in thrall to an ancient honor code – the kanun – demanding blood feuds and terrible revenge. Tribes and Brigands in the Balkans traces the history of this ruggedly beautiful region, frequently disturbed by both invaders and internal strife yet retaining a distinct national identity and character. From its origins in the ancient kingdom of Illyria and the Roman province of Illyricum, through Byzantine and Ottoman rule, the granting of Albanian independence in 1912, the rise and fall of Communism to its current fragile democracy, Northern Albania can be seen as a cultural crossroads – especially remarkable given its mountainous and difficult landscape. The tender plant of Albanian literature

grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European

cultural history in general.

The Peaks of Shala I.B. Tauris

In High Albania, Victorian anthropologist and travel writer M (Mary) Edith Durham presents a vivid and fascinating insight into the culture, customs, people, and the lands of Northern Albania as it was in the early 20th century.

Albanian Identities Central European University Press

This is the second in a series of four volumes, presenting the most important texts that triggered and shaped the processes of nation-building in Central and Southeast Europe. The series aims

to integrate the history of these cultures with that of general European civilization. Thus it counteracts the habit whereby European intellectual phenomena and historical movements are generally analyzed where they originated and experienced their earliest and most intensive development, while the peculiar manifestations of these currents in the 'Other Europe' are neglected.

Shortly before 5pm on Saturday 1 September 1928 Europe gained a new kingdom and its only Muslim king: 32-year-old Zog I of Albania. Zog I was a crucial figure in modern Albanian history, creating - or attempting to create - national and cultural identity for a country that had known little stability or

sense of identity since the middle ages. He was also the most unusual monarch of the 20th century, described by contemporaries as: "a despotic brigand"; "the modern Napoleon"; "Mussolini's lackey"; "the finest patriot"; "frankly a cad". This biography shows Zog as the product of a unique time and place. People who live in secure, stable countries are invited to set aside their assumptions about European monarchy and meet a king who fired back at assassins and paid his bills with gold bars.

Johanna Jutta Neumann, nee Gerechter, was born in 1930 of a Jewish family in Hamburg. With the rise of the Nazis, she fled with her parents to Albania where she spent the Second World War. Her

memoirs narrate the story of her childhood, of her years in Albania under Italian and German occupation, and of her family's survival."

In *Clans and Democratization*, Charlotte Hille investigates clan societies in Afghanistan, Iraq, Albania and Chechnya. She explores and compares the values of clans with those in Western democratic states, while focusing at conflict resolution and democratization. Based on theory and practice, this book provides tools to facilitate democratic state building in clan-based societies.

In *A Short History of the United States*, National Book Award winner Robert V. Remini offers a much-needed, concise history of our country. This accessible

and lively volume contains the essential facts about the discovery, settlement, growth, and development of the American nation and its institutions, including the arrival and migration of Native Americans, the founding of a republic under the Constitution, the emergence of the United States as a world power, the outbreak of terrorism here and abroad, the Obama presidency, and everything in between.

The Tribes of Albania Routledge

This is the first full account of a country that, following decades of isolation, has undergone unprecedented changes to its political system: the collapse of communism, the progression to multi-party elections and the upheaval that followed the March 1997 uprising. Miranda Vickers traces the history of the

Albanian people from the Ottoman period to the formation of the Albanian Communist Party. She considers the charismatic leadership of Enver Hoxha; Albania's relationship with Tito and the alliance with the Soviet Union and then China; and the long period of isolation. Newly revised for this paperback edition, *The Albanians* considers the gradual process of reform and the fragility of the Albanian experiment with democracy, and includes a dramatic account of the days leading up to Sali Berisha's resignation of the presidency. It has now been updated to cover the crisis in Kosovo that has led to the first 'Western' war in Europe since 1945.

The Bektashi dervish order is a Sufi

Alevite sect found in Anatolia and the Balkans with a strong presence in Albania. In this, his final book, Robert Elsie analyses the Albanian Bektashi and considers their role in the country's history and society. Although much has been written on the Bektashi in Turkey, little has appeared on the Albanian branch of the sect. Robert Elsie considers the history and culture of the Bektashi, analyses writings on the order by early travellers to the region such as Margaret Hasluck and Sir Arthur Evans and provides a comprehensive list of tekkes (convents) and tyrbes (shrines) in Albania and neighbouring countries. Finally he presents a catalogue of notable Albanian Bektashi figures in history and legend. This book provides a complete reference guide to the

Bektashi in Albania which will be essential reading for scholars of the Balkans, Islamic sects and Albanian history and culture.

Nomads in the Political and Cultural Landscape of Medieval Europe AIIS Press

When political geography changes, how do reorganized or newly formed states justify their rule and create a sense of shared history for their people? Often, the essays in *Selective Remembrances* reveal, they turn to archaeology, employing the field and its findings to develop nationalistic feelings and forge legitimate distinctive national identities. Examining such relatively new or reconfigured nation-states as Iran, Iraq, Turkey, Israel, Russia, Ukraine, India, and Thailand, *Selective Remembrances* shows how states invoke the remote

past to extol the glories of specific peoples or prove claims to ancestral homelands. Religion has long played a key role in such efforts, and the contributors take care to demonstrate the tendency of many people, including archaeologists themselves, to view the world through a religious lens—which can be exploited by new regimes to suppress objective study of the past and justify contemporary political actions. The wide geographic and intellectual range of the essays in *Selective Remembrances* will make it a seminal text for archaeologists and historians. *Political History of a Religious Movement* Good Press

Albania is not well known by outsiders; it was deliberately closed to the outside world during the communist era. Now it

has thankfully become free again, its borders are open and it can be visited, and it is increasingly integrating with the rest of Europe and beyond.

Unfortunately, Albania has had its share of problems in the post-communist era; it's a land of destitution and despair, thanks in part to the Albanian mafia, which has turned the country into one of blood-feuds, kalashnikovs, and eternal crises. Yet, Albania is, in essence, a European nation like any other and will soon, it is to be hoped, advance and take its proper place in Europe and the world. The second edition of the Historical Dictionary of Albania relates the history of this little-known country through a detailed chronology, an introduction, a bibliography, appendixes, and over 700 cross-referenced dictionary entries on

significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

Mary Edith Durham fought tirelessly for Albanian independence and her practical help and support for the tribes of northern Albania earned her the title of the 'Queen of the Mountains'. Her writing from the Balkans is characterized by a depth of understanding of the people of the region, lively and perceptive anecdotes as well as her exasperation at the governments of the western powers which had a tendency to ignore reports of the plight of the Albanian people. This book contains over 800 previously unpublished letters from Durham in

Albania to friends and family back in England, as well as her correspondence with those in positions of authority – diplomats, politicians and journalists. Together, they provide a unique record of a crucial period in Albanian history from the perspective on an extraordinarily active and influential individual.

Discourses of Collective Identity in Central and Southeast Europe 1770?1945 I. B. Tauris

Disentangling a controversial history of turmoil and progress, this Handbook provides essential guidance through the complex past of a region that was previously known as the Balkans but is now better known as Southeastern Europe. It gathers 47 international scholars and researchers from the

region. They stand back from the premodern claims and recent controversies stirred by the wars of Yugoslavia's dissolution. Parts I and II explore shifting early modern divisions among three empires to the national movements and independent states that intruded with Great Power intervention on Ottoman and Habsburg territory in the nineteenth century. Part III traces a full decade of war centered on the First World War, with forced migrations rivalling the great loss of life. Part IV addresses the interwar promise and the later authoritarian politics of five newly independent states: Albania, Bulgaria, Greece, Romania, and Yugoslavia. Separate attention is paid in Part V to the spread of European economic and social features that had begun in the

nineteenth century. The Second World War again cost the region dearly in death and destruction and, as noted in Part VI, in interethnic violence. A final set of chapters in Part VII examines postwar and Cold War experiences that varied among the four Communist regimes as well as for non-Communist Greece. Lastly, a brief Epilogue takes the narrative past 1989 into the uncertainties that persist in Yugoslavia's successor states and its neighbors. Providing fresh analysis from recent scholarship, the brief and accessible chapters of the Handbook address the general reader as well as students and scholars. For further study, each chapter includes a short list of selected readings. [The Albanian Bektashi](#) Bloomsbury Publishing
