 Straightforward, affordable, and practical, *Improving Adolescent Literacy* gives all middle and secondary school teachers instructional routines that will allow them to develop the content literacy skills of their students. Chapter-opening vignettes from actual classrooms show readers effective teaching in action and give them a look at how the chapter's instructional approach works within content area teaching. Research-based rationales for each strategy follow the vignettes and provide an in-depth look at how to implement the strategy, along with examples of each strategy across the curriculum. In this 5th Edition, the authors provide new classroom examples from their colleagues across the disciplines as well as new instructional routines that have been researched and validated since the publication of the last edition. Also, this edition has been re-organized, adding three new chapters, to focus on the ways in which teachers can use reading, writing, speaking, and listening in their classes, emphasizing reading and comprehending texts, creating

graphic organizers, developing vocabulary knowledge, and writing to learn.

Lavishly illustrated, this new edition includes even more hands-on exercises, suggestions, sample problems, and circuit models of actual devices. It is an ideal supplement for courses in electric or electronic circuitry and is also a solid professional reference."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. *Kissing Architecture* explores the mutual attraction between architecture and other forms of contemporary art. In this fresh, insightful, and beautifully illustrated book, renowned architectural critic and scholar Sylvia Lavin develops the concept of "kissing" to describe the growing intimacy between architecture and new types of art—particularly multimedia installations that take place in and on the surfaces of buildings—and to capture the sensual charge that is being designed and built into architectural surfaces and interior spaces today. Initiating readers into the guilty pleasures of architecture that abandons the narrow focus on function, Lavin looks at recent work by Pipilotti Rist, Doug Aitken, the firm Diller Scofidio + Renfro, and others who choose instead to embrace the viewer in powerful affects and visual and sensory atmospheres. *Kissing Architecture* is the first book in a cutting-edge new series of short, focused arguments written by leading critics, historians, theorists, and practitioners from the world of urban development and contemporary architecture and design. These books are intended to spark vigorous debate. They stake out the positions that will help shape the architecture and urbanism of tomorrow. Addressing one of the most spectacular and significant developments in the current cultural scene, *Kissing Architecture* is an entertainingly irreverent and disarmingly incisive book that offers an entirely new way of seeing—and experiencing—architecture in the age after representation.

The Unquenchable Worshipper issues a passionate call for a return to an unadulterated, first-love lifestyle of worship. When we open the eyes of our heart, God's revelation comes flying at us from so many different angles." Open the eyes of your heart and let the gut-level message of *The Unquenchable Worshipper* cause you, like martyred missionary Jim Elliot, to say, "Saturate me with the oil of Thy Spirit, that I may be aflame.
