This book surveys all the main theories and approaches in comparative politics. It provides background on the history of the field and it includes contributions by the leading figures in the field. *Cases and Concepts in Comparative Politics* S. Chand Publishing

Comparative Politics: A Global Introduction presents a uniquely comprehensive approach to the study of politics in a variety of countries. Part I surveys the core topics of comparative

politics and equips students with the concepts and analytical methods they need to understand the complexities of today's political world. Part I enhances critical thinking skills by explaining in a step-by-step fashion how the basic techniques of the scientific method, such as qualitative hypothesis testing, can be used to understand political realities. Part II provides in-depth studies of many major countries, using the concepts and analytical techniques introduced in Part I. By combining rich conceptualization, analytical methods, and extensive coverage of a diversity of countries, this engaging text teaches introductory-level students how to think about politics for themselves, logically and systematically. *Cases in Comparative Politics (Sixth Edition)* Comparative Politics

For courses in Introduction to Comparative Politics Sets the standard for introducing the field of comparative politics This text begins by laying out a proven analytical framework that is accessible for students new to the field. The framework is then consistently implemented in twelve authoritative country cases, not only to introduce students to what politics and governments are like around the world but to also understand the importance of their similarities and differences. Written by leading comparativists and area study specialists, Comparative Politics Today helps to sort through the world's complexity and to recognise patterns that lead to genuine political insight. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and

selected open access locations. In a democracy, a constitutional separation of powers between the executive and the assembly may be desirable, but the constitutional concentration of executive power in a single human being is not. Beyond Presidentialism and Parliamentarism defends this thesis and explores 'semi-parliamentary government' as an alternative to presidential government. Semi-parliamentarism avoids power concentration in one person by shifting the separation of powers into the democratic assembly. The executive becomes fused with only one part of the assembly, even though the other part has at least equal democratic legitimacy and robust veto power on ordinary legislation. The book identifies the

Australian Commonwealth and Japan as well as the Australian states of New South Wales, South Australia, Tasmania, Victoria, and Western Australia as semi-parliamentary systems. Using data from 23 countries and six Australian states, it maps how parliamentary and semi-parliamentary systems balance competing visions of democracy; it analyzes patterns of electoral and party systems, cabinet formation, legislative coalition-building, and constitutional reforms; systematically compares the semi-parliamentary and presidential separation of powers; and develops new and innovative semi-parliamentary designs, some of which do not require two separate chambers. *Comparative Government and Politics* Westview Press

Comparative Politics Atlantic Publishers & Dist

New Comparative Government Sarat Book Distributors

A wide-ranging, accessible and contemporary textbook capturing the narrative of comparative politics and its changing nature in the rapidly transforming world. *Comparative Government and Politics* introduces students to the tradition of comparative political research and explores the central ideas and questions that constitute the field. This textbook, written in close consultation with the syllabus and course curriculums of major Indian universities, indulges in critical thematic exploration as well as detailed study of important political institutions and their functioning in comparative

perspective. Instead of just summarizing European scholarly works with examples from the West, the book centralizes the experiences and case studies from postcolonial societies, making it relatable for the students of developing countries. It covers contemporary global debates pertinent to each topic and brings up important cases from the Global South as well. Key Features:

- Discussions incorporate the intersectionality of gender, race and ethnicity
- Chapters begin with a Reader's Guide feature to lay out the objective, structure and brief introduction of the chapter content
- Content is aided by book-end glossary, list of keywords and review questions for self-assessment

Political Theory Forge Books

The Book, In Its First Part, Presents A Brief History Of The Development Of Modern Comparative Politics, Elaborates With Clarity And Precision The Logic, Methods And Strategies Of Comparative Political And Social Inquiry, And Draws Critical Attention To The Varieties Of Concepts And Approaches Used In The Study Of Comparative Politics During The Last Half-Century. The Second Part Of The Book Is About Substantive Issues Of Politics; It Focuses On The Major Political Institutions, Their Conceptual Foundations, The Formal Structures And The Processes Of Their Working, And Their Mutual Interrelationships With Reference To Five Modern Political Systems, Namely, The Usa, Uk, France, Russia And The People`S Republic Of China. With A Reader-Friendly Style Of

Writing, And With Up-To-Date Data And Information, The Book Would Be Of Use To Anyone With A Serious Interest In Contemporary Politics. At The Same Time It Is Targeted Towards Enriching The Teaching And Learning Of Comparative Politics In The Universities And Colleges.

Politics in India Oxford University Press, USA

This introduction to comparative politics contains theoretical chapters that explore the 'purpose of government'. The theoretical section is followed by 12 individual country studies.

Modern Comparative Politics

Rowman & Littlefield

Why do countries have different institutions and forms of government?

Why do some social revolutions succeed

and endure while others fail? Why are some societies subjected to terrorism and not others? An engaging and accessible introduction to the subject, *Comparative Politics: Integrating Theories, Methods, and Cases, Second Edition*, gives students the methodological tools they need to answer the "big questions" in the field. The authors introduce methods early in the text and integrate them throughout in order to help students develop a systematic way of thinking about comparative politics. FEATURES * A unique structure offers the best of thematic and country-by-country approaches. Sixteen succinct thematic chapters--organized around the "big questions" in the field--are followed by a separate section at the end of the book

offering full-length profiles and case studies for twelve countries * Each chapter integrates several standalone country case studies in "Case in Context" boxes; these features tie into the narrative, pose questions, and point students to the full case discussions in the country profiles * "Thinking Comparatively" sections at the end of each chapter introduce new methodological tools and help students apply the theories and concepts covered in that chapter * "Thinking It Through" questions help students test their ability to apply comparative politics theories to cases * "Research Prompts" in every case-study section help students develop comparative projects and papers

Foundations of Comparative Politics

University of Michigan Press

Considerable changes are taking place today in the structure and working of governments all over the world. This, in turn, has necessitated a change in the approach to the study of government and politics. This well-organized and systematic study takes into account these developments and shift in approach in the field of comparative government and politics. As the empirical study of political processes, structures and functions forms a major part of comparative political studies, the author examines them in detail. He also analyzes the many variables that are heterogeneous in nature. The book analyzes in tandem comparative government—which involves the study of different political systems with their

institutions and functions—and comparative politics, which covers comparative governments and non-state politics. The latter also studies rule making, rule implementing and rule adjudicating. Since different political systems are governed by the constitutions of the nations concerned, the book deals in detail with the constitutions of these countries. While the text gives a comprehensive coverage of constitutions of democracies such as UK, USA, France, Switzerland and Japan, it also deals with the constitutions of authoritarian States like Russia and China. This text should be of great value to undergraduate and postgraduate students of political science as well as aspirants of civil services.

A Comparative Introduction to Political Science Oxford University Press

This book summarizes recent advances in the work on agenda-setting in a comparative perspective. The book first presents and explains the data-gathering effort undertaken within the Comparative Agendas Project over the past ten years. Individual country chapters then present the research undertaken within the many national projects. The third section illustrates the possibilities and directions for new research in comparative public policy using the data presented in this book. All the data used and discussed in the book is moreover publicly available. The book represents a significant contribution to the study of comparative public policy. By introducing a unified research

infrastructure it opens up new possibilities for both empirical and theoretical research in this area.

COMPARATIVE POLITICS AND

GOVERNMENT Pearson Higher Ed

Based on O'Neil, Fields, and Share's market-leading textbook and casebook, *Cases and Concepts in Comparative Politics: An Integrated Approach* integrates concepts and cases in one volume. Students get all of the materials in a straightforward, easy-to-use, and cost-effective way.

Comparative Government and Politics

Bloomsbury Publishing

from day-one, students come to class prepared and ready to succeed. Additional details on the rental program will be coming soon.

Comparative Government and Politics Sterling Publishers Pvt. Ltd
Organized thematically around important questions in comparative politics—who rules? what explains political behavior? where and why?—Introducing Comparative Politics, Fifth Edition by Stephen Orvis and Carol Ann Drogus, integrates a set of extended case studies of 11 core countries directly into the narrative. Serving as touchstones, the cases are placed within the chapters where they make the most sense topically—not separated from the theory or in a separate volume—and vividly illustrate issues in cross-national

context. The book’s hybrid organization gives students a more holistic view of comparative politics.

Comparative Politics Routledge
Now with global coverage, this second edition brings key concepts, theories and methods of comparative politics to life.

Paradigms and Sand Castles W.W. Norton & Company
Theories of Comparative Political Economy builds on the proposition that the study of politics and economics has evolved into political economy in a number of significant ways, and that the new issues and ideas that became prominent in the 1980s and 1990s will carry on into the new millennium. The book is organized around six chapters. In the first chapter Chilcote examines significant comparative historical

themes, various schools of thinking, divergent theories, and relevant monographic literature and sensitive case studies in comparative political economy. In subsequent chapters Chilcote explores the question of transitions from feudalism to capitalism and capitalism to socialism, theories of class, theories of the state, theories of imperialism, and capitalist and socialist development. In the final chapter Chilcote discusses democracy from the perspective of political economy, describing its representative, indirect, and bourgeois participatory forms. This book is a sequel to Chilcote's *Theories of Comparative Politics* (1981), which was substantially revised and published in a second edition in 1994.

Structuring Politics New York :

Praeger Publishers

Modern Political Theory critically examines the contemporary state of political theory, making an assessment of the achievements and limitations of the "Behavioural Revolution" in its totality, and reviews objectively the major paradigms and conceptual frameworks adopted by the discipline. The salient features of the contending conceptual models elaborated by leading scholars, operating from separate locations and disparate premises, have been highlighted and intellectual inter-linkages in their works have been traced. The book has 3 parts. Part I comprises the scope of political science as a discipline. Part II deals with the tools and techniques of political analysis. Part III delineates mainstreams of contemporary

political thought.

**Beyond Presidentialism and
Parliamentarism** Sterling Publishers
Pvt. Ltd

This ninth revised edition of World Constitutions, a monumental work by seasoned authors, portrays the conceptual and legal framework of parliamentary democracies like the UK, Japan, Canada and Australia as well as of a presidential democracy like the USA. Tony Blair's exit and making way for Gordon Brown as Prime Minister of UK, the spectacular triumph of Barack Obama as President of US and his sincere efforts to usher in an era of all-round peace and tranquility in hitherto strife-torn world, confronted with recession and morass of economic instability and insecurity have been

covered while revising the book. The victory of Nicolas Sarkozy at the hustings in France has further given a flip to the concept of peace which has been on the last leg during the preceding regimes in some of the top democratic countries of the world. The Communist China which was vying with erstwhile Soviet Union sometime back has been given a prominent place in the book, portraying its considerably liberalised and substantially modernised socialistic infrastructure. The Swiss Constitution, the only direct democracy in the world, which is a judicious combination of presidential and parliamentary forms of democracy has been analytically presented. An incisive and comparative study of these constitutions will enable the reader to obtain an unbiased and

dispassionate view of their working. Where necessary, eminent authorities on the subject have been quoted copiously. The book has been updated by incorporating the latest amendments to the constitutions. The Constitution of the Russian Federation has also been included while giving a synoptic reference to former Soviet Union, which

was once a super power to reckon with. **Comparative Politics** PHI Learning Pvt. Ltd.

These essays demonstrate how the 'historical institutional' approach to the study of politics reveals the nature of institutional change and its effect on policy making.
