Marketplace Lending, Financial Analysis, and the Future of ... Imagine what banks and FinTech can create together. Marketplace Lending breaks down the wall dividing mainstream banking from the alternative "shadow banking" sector partially created by and thriving on the innovation in the financial technology space. Written by financial practitioners and FinTech entrepreneurs, this groundbreaking book moves beyond the theoretical to outline the framework ... Marketplace Lending, Financial Analysis, and the Future of ... Marketplace lending platforms are facing unprecedented challenges as they strive to meet heightened expectations from customers, investors and regulators while managing costs to generate profitable growth. Platforms can enhance the efficiency of their operations in order to cut costs and create an improved borrower experience. Marketplace lending and consumer loans: PwC The story is more than marketplace lending and banks. The first report that the Deloitte Center for Financial Services released on marketplace lending in March of last year probed whether the convergence of banks and MPLs is inevitable. We learned that not only were they already converging, but more convergence was to come. Marketplace lending 2.0: Bringing on next stage in lending ... Marketplace lenders are typically nonbank financial platforms that leverage technology to reach potential borrowers, evaluate creditworthiness, and facilitate loans. Marketplace lending can provide an avenue for consumers and small businesses to quickly obtain loans that might not be available from traditional

sources. FinTech Series: Marketplace Lending | Federal Trade Commission The marketplace lending model offers advantages of financial stability and resiliency, relative to traditional lending models. Nonetheless, MLA members must maintain strong internal policies that ensure their reliability for the benefit of borrowers and investors alike. Industry Practices - The Marketplace Lending Association Financial Analysis and Credit Approval Document Initial Credit Risk Assessment. An effective underwriting process needs to take place before a loan is submitted for approval, and is a key factor in managing credit risk. Financial Analysis and Credit Approval Document As most marketplace lending assets are considered level 3 (illiquid and valued using unobservable inputs), originators, investors and securitization shelves alike often turn to third party firms to receive valuations for various purposes such as cutting NAV and financial reporting, fair value analyses for risk retention purposes, transferring assets between related parties, to provide management or the board with an independent view, and other reasons.
