her commitment to herself—to her health, her happiness, her being. Those commitments are the bedrock of her recovery and her work helping other young people dealing with the issues she lives with every single day. Demi is a platinum-selling recording artist whose latest album—DEMI—is already a smash hit. She's about to embark on her second season as a judge on X-Factor, and just launched The Lovato Treatment Scholarship Program. And she is an outspoken advocate for young people everywhere. Demi is also a young woman finding her way in the world. She has dealt deftly with her struggles in the face of public scrutiny, and she has always relied, not just on friends and family, but daily affirmations of her self-worth and value. Affirmations that steady her days and strengthen her resolve. Those affirmations have grown into STAYING STRONG, a powerful 365-day collection of Demi's most powerful, honest, and hopeful insights. Each day will provide the readers with a quote, a personal reflection and a goal. These are Demi's words. Words she lives by and

shares with the people she loves and total strangers alike. They are a powerful testament to a young woman standing up and fighting back.

"ASEAN Centrality: An Autoethnographic Account by a Philippine Diplomat guides us to a deeper understanding of the concept of ASEAN Centrality, through the eyes of one of the Philippines' most reputable diplomats.

Outlining both a personal recollection of her extensive experience and adherence to academic discipline, Ambassador Buensuceso puts forth her analysis of ASEAN Centrality as a core element of diplomacy within ASEAN. She then goes further to articulate ASEAN's aspiration for the future of a region that is constantly evolving. This book is a must-read to understand Southeast Asia and the broader Indo-Pacific regional dynamics, as it offers an insight into ASEAN Centrality like no other." -- Retno L.P.

Marsudi, Minister for Foreign Affairs of the Republic of Indonesia
"Ambassador Elizabeth P. Buensuceso's book ASEAN Centrality: An

Autoethnographic Account by a Philippine Diplomat is a rare insider's view into ASEAN diplomacy as we practise it here in Jakarta. The dynamics in the ASEAN-led mechanisms that she describes provide an interesting insight into national interests, unique personal traits of diplomats based here in Jakarta both from member states and external partners and their interactions with the ASEAN Secretariat. The ASEAN Secretariat together with the officers and staff are also part of this important community of diplomats. Her valuable contribution to ASEAN literature is this practical definition of ASEAN Centrality. Her insights, expertise on ASEAN affairs, and straightforward but engaging writing style make for an interesting read."--Dato Lim Jock Hoi, Secretary General of ASEAN

Legal Evolution and Political Authority in Indonesia

Walter de Gruyter GmbH & Co KG
This volume presents an interactional perspective on linguistic variability that takes into account the construction of social identities through the formation of social communicative styles. It

shows that style is a useful category in bridging the gap between single parameter variation and social identity. Social positioning, i.e., finding one's place in society, is one of its motivating forces. Various aspects of the expression of stylistic features are focused on, from language choice and linguistic variation in a narrow sense to practices of social categorization, pragmatics patterns, preferences for specific communicative genres, rhetorical practices including prosodic features, and aesthetic choices and preferences for specific forms of taste (looks, clothes, music, etc.). These various features of expression are connected to multimodal stylistic indices through talk; thus, styles emerge from discourse. Styles are adapted to changing contexts, and develop in the course of social processes. The analytical perspective chosen proposes an alternative to current approaches to variability under the influence of the so-called variationist paradigm.

Mythology and the Tolerance of the Javanese
SAGE

All of those who are interested in contemporary Indonesian society, its organization and social and political articulation, sooner or later come to realize that in order to achieve any real depth of understanding for these

phenomena it is first necessary to appreciate the enduring and frequently manifest residuum of traditional, pre-Western culture in Indonesia. Certainly this is true with respect to Java, whose culture has of course had an impact far beyond the shores of that island. In many cases these legacies of traditional culture help to explain current phenomena; in addition they make much more understandable the Javanese approach to religion-not only to Islam but also to Hinduism and Buddhism, which were introduced to the island earlier. For they have conditioned the way in which all outside ideas, Western and non-Western, have been received, and they help to account for the particular patterns of synthesis which are woven into the Javanese milieu. Most striking is the way in which persisting elements of old Javanese culture affect contemporary values. An ability to accommodate to and tolerate conflicting norms and ideas, the capacity to entertain in coexistence ideas and values that would seem incompatible in many Western settings, an unusual capacity for

sympathetic toleration in social behavior-these are all attributes of contemporary Javanese society deriving from old Javanese culture. For the outsider, such elements are probably most easily approached and understood through the traditional artistic medium of the wayang - the Javanese shadowplays based upon adaptations and developments of major themes and episodes in the Ramayana and the Mahabharata. These wayang plays, performed with flat leather puppets which throw their sharply etched shadows against a screen which is viewed from the other side, are as important a part of contemporary Javanese culture as they were of the old. To discern this relationship between the wayang plays and Javanese society, to achieve an insight into the values which have been conveyed by wayang over the centuries, and then to perceive these patterns of social conduct and morality in a dynamic phase of interaction and adjustment with the new values and social concepts born in Indonesia of the Japanese occupation, the Revolution, and the rapid

change of a post-revolutionary society, is an accomplishment few non-Indonesians would be capable of. Nor, indeed, would it be possible for most Indonesians, for their involvement in the culture and the society is so close that they miss the perspective necessary to appraise and describe these phenomena to an outside audience. Mr. Benedict Anderson's study of the wayang and its sociological and psychological significance is, I believe, a real contribution to our understanding of Javanese culture and values. A political scientist by training (he has recently returned from Indonesia after three years of research there, primarily on the Revolutionary period), he has long been interested in Javanese art, drama, and music and has achieved unusually deep insights into these aspects of the Javanese civilization. Mr. Anderson wishes to emphasize that this study is exploratory in nature and that the conclusions he reaches are tentative. He would welcome comments and criticism on the material he is presenting. - George McT. Kahin, August 24, 1965

Sourcebooks, Inc. Arthur Schopenhauer (1788-1860) is remembered as an atheist, a pessimist, and the first Western philosopher to incorporate Eastern thought into his work. Iconoclastic in his time, his ideas remain provocative and insightful today. The ten essays collected in this volume demonstrate his brilliance as both a scholar and a stylist. They serve as an ideal introduction to his work, as well as an illuminating supplement to his magnum opus, *The World as Will and Representation*. Caricatures of Circumstances and their Human Beings John Wiley & Sons
 Taking the reader back to the early modern period, this book addresses the works of Shakespeare, and asks how historical texts might be seen to interplay with identity. Beginning with Stephen Greenblatt's illuminating essay, questions are raised about how we come up with "important" historical texts, how we use educational and cultural institutions to maintain their primacy, and what the costs of this can be. Several of the essays look at ways of defining "the self" in the

16th and 17th centuries, and the working-through of these notions in various writings. Others tell us about how people traveled and the effects of travel on selfhood - how they dressed, how they celebrated special occasions, and how they thought of work and pleasure. The authors reflect on recent methodological concerns and adapt them to new issues in historically-oriented literary and cultural studies. They offer important contributions to new directions in scholarship. The book emerges from a symposium held at the Humanities Research Centre, Australian National University, to celebrate the work of Stephen Greenblatt. Drawing on Greenblatt's methodologies, contributors examine strategies by which we "know" ourselves through our relationships with the past.

 The age of Western hegemony is over. Whether or not America itself declines or thrives under President Trump's leadership, the post-war liberal international order underpinned by US

military, economic and ideological primacy and supported by global institutions serving its power and purpose, is coming to an end. But what will take its place? A Chinese world order? A reconstituted form of American hegemony? A regionalized system of global cooperation, including major and emerging powers? In this updated and extended edition of his widely acclaimed book, Amitav Acharya offers an incisive answer to this fundamental question. While the US will remain a major force in world affairs, he argues that it has lost the ability to shape world order after its own interests and image. As a result, the US will be one of a number of anchors including emerging powers, regional forces, and a concert of the old and new powers shaping a new world order. Rejecting labels such as multipolar, apolar, or G-Zero, Acharya likens the emerging system to a multiplex theatre, offering a choice of plots (ideas), directors (power), and action (leadership) under one roof. Finally, he reflects on the policies that the US, emerging powers and regional

actors must pursue to promote stability in this decentred but interdependent, multiplex world. Written by a leading scholar of the international relations of the non-Western world, and rising above partisan punditry, this book represents a major contribution to debates over the post-American era.

A new integration of Goleman's emotional, social, and ecological intelligence Hopeful, eloquent, and bold, Ecoliterate offers inspiring stories, practical guidance, and an exciting new model of education that builds - in vitally important ways - on the success of social and emotional learning by addressing today's most important ecological issues. This book shares stories of pioneering educators, students, and activists engaged in issues related to food, water, oil, and coal in communities from the mountains of Appalachia to a small village in the Arctic; the deserts of New Mexico to the coast of New Orleans; and the streets of Oakland,

California to the hills of South Carolina. Ecoliterate marks a rich collaboration between Daniel Goleman and the Center for Ecoliteracy, an organization best known for its pioneering work with school gardens, school lunches, and integrating ecological principles and sustainability into school curricula. For nearly twenty years the Center has worked with schools and organizations in more than 400 communities across the United States and numerous other countries. Ecoliterate also presents five core practices of emotionally and socially engaged ecoliteracy and a professional development guide.

The End of American World Order BRILL

In the wake of Malaysia's
 13th General Election
 some commentators
 speak of a sharpening of
 ethnic politics — with
 Prime Minister Najib
 blaming a "Chinese
 tsunami" for his
 government's polling
 setbacks; others are
 optimistic about the
 arrival of a new "non-
 racialized form of politics"
 and the emergence of

"transethnic solidarity".
 This book, which engages
 with both the race
 paradigm and its
 opponents, warns that
 change is likely to come
 slowly — but is not
 impossible. Malaysia's
 race paradigm is a man-
 made ideological
 construct — one that has
 been contested in the
 past, and could
 realistically be contested
 in the future. In
 confronting the continuing
 challenge of globalization,
 Malaysians should not
 neglect the history of
 ideas — and ideology —
 as they search for new
 options.
