The A.B.C. Guide to Glass in Architecture, Building and Decoration MIT Press

Ever wondered why your ceiling is shaped like the arches in a gothic cathedral? Or why your office building looks so different from its neighboring

counterparts? The ABC of Style invites you to explore the many different architectural and decorative interior styles from their ancient origins to the 1940s. Take a journey through history to see how the French aristocracy styled their palaces and castles to the simple designs of the Dominican monastic churches during the middle ages. Often, political changes implicate a stylistic transformation. Thus, the different European styles were frequently named after a sovereign or a historical period (Renaissance style, Medieval style). Until the end of the nineteenth century, the stylistic mutations of the time were generally based on the tastes of the royalty. Stylistic expression was, therefore, an affirmation of power.

Arches to Zigzags introduces its audience (both young and old) to the world of architecture through the alphabet. It challenges young readers with new words and images, while adults will widen their own knowledge of architecture. Captivating images and clever wordplay entertain folks of all ages to explore the built environment. The book begins its journey through architecture with an Arch (for the letter A), then a Balcony, and next on to Column Capitals. Along the way, readers will learn about some less-familiar architectural examples (like Finial, for instance), Keystone, Obelisk, and Quoin. Each letter and its corresponding image are described with light verse, which asks the reader some quick questions about what they see. This colorful, lively, and entertaining book closes with some thoughts about what architecture is, why it's important, and where you'll find examples of architecture in the buildings you visit and use every day. There's also information on the location and history of each of the 26 beautiful images in the book, in case you want to check them out on your own. Created by an architect, writer, photographer, and librarian, Arches to Zigzags connects architecture with the letters of the alphabet, from A to Z.

The ABC of Style Wentworth Press

Gothic architecture is one of the most beautiful and awe-inspiring styles of building ever developed, with its soaring vaulted ceilings, stained glass windows, and intricate stone carvings. In this indispensable guide, John Henry Parker provides a comprehensive introduction to the key elements of Gothic architecture, from the pointed arch to the rib vault. Illustrated throughout with stunning photographs and diagrams, this book is a must-have for anyone interested in architecture and design. something every year, we are indebted for the whole of that glorious fabric. This practice was by no means peculiar to York, but appears to have been the usual custom. This completes an outline of the Architectural history of the principal known buildings of the Early English style. THE GRADUAL CHANGE FROM THE EARLY ENGLISH STYLE TO THE DECORATED, A.D. 1272--1300. The change from the Early English to the Decorated style was so very gradual, that it is impossible to draw any line where one style ceases and the other begins. The time of Edward I. was that of the change, and some of our most beautiful examples belong to that period. In the early Decorated the sculpture of the human figure is remarkable for the ease and chasteness of the attitudes, and the free and graceful, though at the same time rich, folds of the drapery. Few figures can surpass in simplicity and beauty the effigy of Queen Eleanor in Westminster Abbey, and those on the crosses erected to her memory are almost equally fine, especially those on the Northampton cross; those at Waltham have been mutilated and restored....

Constructivism is widely thought of as a Russian phenomenon, but as Sima Ingberman shows in this first comprehensive study of the architectural group ABC, it was an influential international movement. Ingberman brings to light a rich array of historical documentation, charting for the first time Lissitzky's particular alliance with ABC and tracing ABC's influences and developments, formal, material, constructional, and ideological.

A B C Of Gothic Architecture This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!
