Scripts and Strategies in Hypnotherapy  
Volumes 1 and 2 have been combined to create the single most comprehensive source of scripts and strategies that can be used by hypnotherapists of all levels of experience to build a successful framework for any therapy session. It

covers inductions, deepeners and actual scripts for a wide range of problems from nail-biting to insomnia, sports performance to past life recall, pain management to resolving sexual problems. There is a particularly comprehensive section on smoking cessation. All scripts can be used as they stand or adapted for specific situations.

"Provides an imaginative source of scripts covering the most commonly met cases. For the newly qualified therapist it is a useful addition and for the more experienced it is a source of inspiration."

 Everything you always wanted to know about PRACTICAL HYPNOSIS but didn't know who to ask. About this book: If you only buy one book on hypnosis, you

need to ... make it this one... 'Just make the purchase'! You won't need another. It is a complete, step by step, guide on how to master the art of instant, hypnotic inductions (in as little as one second), rapid inductions, conversational hypnosis and stage hypnosis, in one book. In this, the author has created an informative, inspirational and enjoyable read for those who wish to learn hypnosis. Within its pages you will find everything you need to know (and more) to begin practising hypnosis for fun or profit. Its coverage of conversational hypnosis provides the necessary theory to make every conversation you have with others hypnotic in its effect, sending subliminal messages that take the form of silent command that must be obeyed. This book is also an invaluable

tool for the hypnotherapist wishing to up-grade their skills by learning instant or rapid inductions to get their clients in a state of deep trance in a fraction of the time taken by more progressive inductions, thereby increasing income or leaving more time for therapy in each session. This book describes tried and tested hypnotic methods that work, explaining the theory so you quickly learn how to hypnotise safely, with confidence and professionalism. Descriptions of hypnotic techniques are clear and easy to understand. It completely lifts the lid on the mystery of hypnosis, kept secret by a privileged few for centuries. It is a must have, no nonsense book for the serious and intelligent reader, forming a valuable reference for both student and

professional alike. It does what it says on the cover, nothing is left out. Its concise and informative style explains even the most difficult concepts easily, packing the amount of information normally found in four or five books into one clear text without the padding, saving hundreds of pounds otherwise spent purchasing light-weight resources. The book's direct approach gets you quickly to the core of the subject matter, which is laid out in chapter form, allowing the reader to dip into areas of interest without having to repeatedly read the whole. As a resource, it is as brilliant and useful as it is detailed and informative, making it essential reading for the would-be hypnotist as well as teachers, sales-men and other professionals. If you decide to buy this book you will need no

other. 'Just make the purchase'!

**Barboza's Book of Hypnotic Inductions** Remind Publishing

"This material has taught me more about hypnosis than my previous 20 years in psychology and 4 years as a practicing

Hypnotherapist [and] should be a standard requirement for ANY Hypnotist wanting to bring about real change. If you don't learn this stuff you will be left behind!" - Michael Skirving, DNLP, DHyp, LAPHP Hypnosis: is it actually real? What causes its strange effects? And can everyone easily learn to do it? Since the seminal work of hypnosis pioneer James Braid in the 1840s, the dominant model for understanding hypnosis has been that it is simply a special state (popularly referred to as 'hypnotic trance') that renders people unusually responsive to suggestion. By this model, the practice of hypnosis is simply that of the induction of hypnotic trance, followed by the delivery of suggestions for the desired results. By summer 2008, James Tripp had been working professionally

with hypnosis for 6 years. Whilst he had used what he had learned to great effect with his clients (from manual therapy to coaching and changework), it had become increasingly clear that something was amiss with the traditional trance model - instead of his clients responding to suggestion as a result of entering 'trance', they were apparently entering 'trance' as a result of being given suggestions. The cart seemed very much before the horse. This led Tripp to embark on a mission to break down and rebuild hypnosis and suggestion work; to uncover how it really worked and also to see if it could be done more effectively and efficiently. To find a suitable laboratory for his research he stepped out of his hypnotherapy office and onto the streets of London. Across the next

year he developed consistent methods for the effective evocation of classic hypnotic phenomena without using trance inductions; simply structuring suggestions and making requests that worked with people's everyday cognitive faculties to create mind-bending results. In 2009 Tripp started demonstrating his work and sharing his ideas via the Hypnosis Without Trance blog. The content was divisive to say the least - while some traditionalists were upset or angered by the assertions, many others were liberated and empowered by the material. "Hypnosis Without Trance has blown my mind and completely changed my thoughts on how hypnosis works with my clients - it's clicked together a lot of gaps that my traditional learning couldn't explain..." - Michelle Marsh,

(Hypnotherapist) "I think this is the most clear and understanding approach I have ever seen or read. Thanks a lot!" - Raul de la Horra (Hypnotist, Psychotherapist and Magician) This book represents the culmination of that period of experimentation and rebuilding, presenting a new central model for hypnosis (The Hypnotic Loop). Further to this it extensively unpacks the tools, tactics and psychological subtleties required for the effective facilitation of powerful hypnotic experiences. Hypnosis Without Trance is for you if you are looking to understand how hypnosis really works, and how you might better facilitate it. Whether you are a student of hypnosis, established practitioner or curious spectator, its clear exposition will significantly deepen your understanding

and grasp of this fascinating craft.  
 "Definitely the next important big step for me - a practicing hypnotherapist for over 20 years. Absolutely brilliant! Thank you!!" - Richard Whitehurst (Hypnotherapist)  
 "I gained more understanding of how hypnosis really works from HWT than anywhere else, and think it's a must for anyone serious about hypnosis." - Lazarus Stone (Professional Mentalist)  
 "Using this approach I have gained more confidence and I am far more relaxed as a hypnotist than any time in the past 20 years." - Gary Plumridge (Hypnotherapist)

### **The Art of Hypnosis - Third Edition**

Trafford Publishing

Hypnotism is a SKILL not a gift. YOU can learn to be a confident, super-fast hypnotist by reading this book. If you

want to learn instant hypnosis, i.e. methods to hypnotise family, friends and strangers that can take as little as 1-second to accomplish (seriously, it can be THAT quick!) then act now and snatch up this how-to manual (complete with pictures to help you along the way).  
 When you go to see a Hypnotherapist, they often use slow, progressive hypnosis methods - this is not what the book is about. THIS book is about INSTANT, RAPID, FAST, BLINK-OF-AN-EYE SPEED HYPNOSIS...The cool stuff.  
 Guiding you from basic safety precautions all the way through to advanced speed-hypnosis inductions, Rory Z gives you all you need to know to begin practicing hypnosis either for fun with your mates, as a roving street hypnotist or as a professional stage-

hypnotist. This book is also a very useful tool for the aspiring Hypnotherapist, looking to learn a plethora of new, quick inductions to allow your clients to achieve amazing depth of trance in a fraction of the time. All of the methods within are tried, tested and verified - i.e. they all work! This book cuts away all of the linguistic mumbo-jumbo, dispels all the myths and gets down to cold hard facts, straight away. If you want to be confused and bogged down with unnecessary information - this book is NOT for you. If you want to quickly learn how to hypnotise with skill and confidence - this is the book that you need to add to your collection today. Anybody can learn to become a hypnotherapist, even if you have little or no experience. This book will teach you how to hypnotise anybody, how to deepen the state of hypnosis. What to do when you have your subject hypnotised - i.e. how to help them resolve their problems (whether, quitting smoking, losing weight, curing a phobia, fixing insomnia, gaining confidence... the list goes on) and how to wake them up at the end of the session. Whether you are recently trained, new to hypnotherapy or

have no idea at all about hypnotherapy and would like to learn about it, the Beginner's Guide to Hypnotherapy is the perfect tool for you to get a grasp of the basics principles of hypnotherapy, methods used in real hypnotherapy sessions and the reasons why we do these things. A lot of "Hypnotherapists" read from scripts and have no idea why they are saying what they are saying... A GOOD Hypnotherapist does not do this. To become a GOOD Hypnotherapist takes an equal measure of skill, knowledge, positive intention and a great deal of practice. One size does not fit all with Hypnotherapy, and as a GOOD Hypnotherapist, it is up to you to provide a "tailor-made" solution for your future-clients. The Hypnotherapy methods and techniques set out in this Book will give

you a solid foundation upon which to build your own Hypnotherapy scripts and sessions.

Crown House is pleased to announce the publication of the third edition of *The Art of Hypnosis: Mastering Basic Techniques* by Roy Hunter. This updated third edition includes a new introduction by Conrad Adams PhD together with a revised Chapter 1. Roy Hunter is an expert in the field of hypnosis. He was

especially selected to carry on the work of the 'Grand Master of Hypnotherapy', the late Charles Tebbetts, who was a master teacher and contributor to the art/science of hypnosis and hypnotherapy. This book is based upon the training course of Tebbetts, which has been updated by Roy Hunter. Tebbetts' training has formed the basis of a large number of hypnotherapy courses taught in America and Europe. *The Art of Hypnosis* is well-written and easy to read and understand, even for the novice. In-depth and practical information is given on how to achieve maximum results in a hypnotic session by phrasing suggestions properly and by using various techniques to determine which approach is best for each individual client.

*Everything You Ever Wanted to Know about Hypnosis But Were Afraid to Ask*  
The Instant Hypnosis and Rapid Inductions Guidebook

If you suffer from chronic pain, whether as a result of an injury, illness, or accident, you know it can interfere with every aspect of your life. You may also know the medical treatments currently available are limited and, for many, ineffective. Current research has shown hypnosis to be an effective treatment for managing chronic pain, and almost all patients who learn self-hypnosis skills benefit from this approach. The hypnosis treatment found in this workbook has been scientifically tested and proven effective for reducing the intensity of

chronic pain, including migraines, back pain, and tension headaches, among others. This workbook explains how to use these techniques to manage your chronic pain and take back control of your life and your health. Used in combination with the program described in the corresponding therapist guide, this workbook teaches you self-hypnosis skills for lessening your pain, enhancing your sleep, and improving your mood. The first chapters will help you understand how hypnosis works by changing how your brain deals with information it receives from the body. The complete hypnosis treatment described in this book, alongside the treatment you receive from your clinician, will ultimately teach you skills for pain management that you can use

at any time, and for the rest of your life. "An excellent blueprint to understanding pain and the fundamentals of how hypnosis combined with CBT can offer pain amelioration. Perfect, even for uninitiated practitioners who wish to use empirically based scripts."--Jeffrey Zeig, Ph.D., The Milton Erickson Foundation "Pain can too easily enslave people, holding them captive in many different ways. It is a liberating theme of empowerment that echoes throughout Dr. Jensen's work: he empowers clinicians to work more knowledgeably and skillfully with people who suffer painful conditions using his therapist guide, and he encourages the suffering individual to break free from pain's grip with the practical pain management skills taught in his workbook. Dr.

Jensen's vision for the many ways hypnosis can help reduce the debilitating effects of painful conditions is fresh, inspiring and should be regularly integrated into every pain management program."--Michael D. Yapko, Ph.D., Clinical Psychologist and author of *Trancework: An Introduction to the Practice of Clinical Hypnosis* (Third Edition) and *Treating Depression with Hypnosis*

Barboza's Book of Hypnotic Inductions is filled with creative inductions easy enough for a novice hypnotist to master and clever enough for seasoned hypnotists to ponder at. The inductions presented within the pages are understandable and translatable enough to easily put into action. John thought that the style of the vintage book cover illustration taken directly from the classic comic book ads from the 50's to the 80's would be fitting enough to complement the imaginative instant and rapid inductions he has assembled. The inductions vary enough so that some can be used in the office setting and others during presentations, street and stage performances and demonstrations. This book is for anyone who is interested in

learning about hypnosis and others who have a basic grasp of the concept of hypnotic inductions. It is for the hypnotist who has an interest in learning new induction techniques and it's for the seasoned hypnotists who aren't comfortable doing instant and rapid inductions but would like to become more proficient in using them.

Hypnosis is a proven technique that allows people to reprogram their subconscious to change unwanted

behaviors. Most books on self-hypnosis require the reader to memorize or record scripts, then put the book aside while they do their hypnosis work. But Instant Self-Hypnosis is the only self-hypnosis book that allows you to hypnotize yourself as you read, with your eyes wide open, without putting down the book. The author's fail-proof method allows you to put yourself into a hypnotic state and then use that state to improve your life in myriad ways. And because the hypnotic state is induced while you read, you remain aware of your surroundings and can bring yourself back to normal consciousness slowly and gently, using the instructions provided.
