Handbook of Japanese Lexicon and Word Formation Vertical Inc

If you've mastered the basics of Japanese grammar and are ready to move to the next level, this book is for you! Each of the 12 chapters is devoted to one widely-used sentence structure and its variations. Chapters are broken down into the following easy-to-follow components: Clear presentation of model sentences Breakdown and

explanation of the grammar of key sentence patterns Controlled practice exercises, such as filling in the blanks and imitating model sentences Free practice exercises, using the target sentence structure to create your own sentences Reading comprehension practice, of narrative text and dialogues, for consolidation Online audio files recorded by a native speaker are available for all key Japanese dialogues, and all texts are written in Japanese characters with romanized Japanese and English translation—making the book accessible even for students who have

not yet mastered Japanese script. The book is illustrated throughout with drawings that reinforce the meaning of the written text. *Japanese Grammar: A Workbook for Self-Study* is ideal for anyone studying for the JLPT N3 test, or the AP Japanese Language and Culture test. It is perfect for post-beginners who want to move quickly to the next level, and for intermediate students who want to review and perfect their grammar skills.

Including Lists of Words and Expressions with English Equivalents for Reading Aid
Tuttle Publishing

An invaluable reference for students and scholars alike. Part 1 explains and illustrates the uses of hundreds of particles, key vocabulary, and other function words. Each entry includes

many sample sentences in Japanese, romaji, and English. Free of dense grammatical jargon, Part 2 provides concise overviews of all Japanese parts of speech, polite language (keigo), counters, and other facets of everyday language.

Basic Japanese Tuttle Publishing

日本語の文法パターンハンドブック
A Handbook of Japanese Grammar Patterns for Teachers and Learners

All About Particles Tuttle Publishing

This volume is the first comprehensive handbook of Japanese phonetics and phonology describing the basic phonetic and phonological structures of modern Japanese with main focus on standard Tokyo Japanese. Its primary goal is to provide a comprehensive overview and descriptive generalizations of major

phonetic and phonological phenomena in modern Japanese by reviewing important studies in the fields over the past century. It also presents a summary of interesting questions that remain unsolved in the literature. The volume consists of eighteen chapters in addition to an introduction to the whole volume. In addition to providing descriptive generalizations of empirical phonetic/phonological facts, this volume also aims to give an overview of major phonological theories including, but not restricted to, traditional generative phonology, lexical phonology, prosodic morphology, intonational phonology, and the more recent Optimality Theory. It also touches on theories of speech perception and production. This book serves as a comprehensive guide to

Japanese phonetics and phonology for all interested in linguistics and speech sciences.

The Handbook of Dialectology Walter de Gruyter GmbH & Co KG

Studies of Japanese syntax have played a central role in the long history of Japanese linguistics spanning more than 250 years in Japan and abroad. More recently, Japanese has been among the languages most intensely studied within modern linguistic theories such as Generative Grammar and Cognitive/Functional Linguistics over the past fifty years. This volume presents a comprehensive survey of Japanese syntax from these three research strands, namely studies based on the traditional research methods developed in Japan, those from broader functional

perspectives, and those couched in the generative linguistics framework. The twenty-four studies contained in this volume are characterized by a detailed analysis of a grammatical phenomenon with broader implications to general linguistics, making the volume attractive to both specialists of Japanese and those interested in learning about the impact of Japanese syntax to the general study of language. Each chapter is authored by a leading authority on the topic. Broad issues covered include sentence types (declarative, imperative, etc.) and their interactions with grammatical verbal categories (modality, polarity, politeness, etc.), grammatical relations (topic, subject, etc.), transitivity, nominalizations, grammaticalization, word order (subject, scrambling,

numeral quantifier, configurationality), case marking (ga/no conversion, morphology and syntax), modification (adjectives, relative clause), and structure and interpretation (modality, negation, prosody, ellipsis). Chapter titles Introduction Chapter 1. Basic structures of sentences and grammatical categories, Yoshio Nitta, Kansai University of Foreign Studies Chapter 2: Transitivity, Wesley Jacobsen, Harvard University Chapter 3: Topic and subject, Takashi Masuoka, Kobe City University of Foreign Studies Chapter 4: Toritate: Focusing and defocusing of words, phrases, and clauses, Hisashi Noda, National Institute for Japanese Language and Linguistics Chapter 5: The layered structure of the sentence, Isao Iori, Hitotsubashi University Chapter 6.

Functional syntax, Ken-Ichi Takami, Gakushuin University; and Susumu Kuno, Harvard University Chapter 7: Locative alternation, Seizi Iwata, Osaka City University Chapter 8: Nominalizations, Masayoshi Shibatani, Rice University Chapter 9: The morphosyntax of grammaticalization, Heiko Narrog, Tohoku University Chapter 10: Modality, Nobuko Hasegawa, Kanda University of International Studies Chapter 11: The passive voice, Tomoko Ishizuka, Tama University Chapter 12: Case marking, Hideki Kishimoto, Kobe University Chapter 13: Interfacing syntax with sounds and meanings, Yoshihisa Kitagawa, Indiana University Chapter 14: Subject, Masatoshi Koizumi, Tohoku University Chapter 15: Numeral quantifiers, Shigeru Miyagawa, MIT

Chapter 16: Relative clauses, Yoichi Miyamoto, Osaka University Chapter 17: Expressions that contain negation, Nobuaki Nishioka, Kyushu University Chapter 18: Ga/No conversion, Masao Ochi, Osaka University Chapter 19: Ellipsis, Mamoru Saito, Nanzan University Chapter 20: Syntax and argument structure, Natsuko Tsujimura, Indiana University Chapter 21: Attributive modification, Akira Watanabe, University of Tokyo Chapter 22: Scrambling, Noriko Yoshimura, Shizuoka Prefectural University
Handbook of Japanese Grammar
Kodansha USA Incorporated
The volume on Semantics and Pragmatics presents a collection of studies on linguistic meaning in Japanese, either as conventionally

encoded in linguistic form (the field of semantics) or as generated by the interaction of form with context (the field of pragmatics), representing a range of ideas and approaches that are currently most influential in these fields. The studies are organized around a model that has long currency in traditional Japanese grammar, whereby the linguistic clause consists of a multiply nested structure centered in a propositional core of objective meaning around which forms are deployed that express progressively more subjective meaning as one moves away from the core toward the periphery of the clause. The volume seeks to achieve a balance in highlighting both insights that semantic and pragmatic theory has to offer to the study of Japanese as a

particular language and, conversely, contributions that Japanese has to make to semantic and pragmatic theory in areas of meaning that are either uniquely encoded, or encoded to a higher degree of specificity, in Japanese by comparison to other languages, such as conditional forms, forms expressing varying types of speaker modality, and social deixis.

An Introduction to Modern Japanese: Volume 1, Grammar Lessons Walter de Gruyter GmbH & Co KG

For any beginner of Japanese, adjectives and adverbs are bound to present a challenge. Unlike English adjectives, Japanese ones conjugate, meaning that you must memorize their various forms before being able to build sentences of any complexity. Adverbs do not

conjugate, but make use of particles to show their grammatical relationship to other words, and some have very subtle shades of meaning that are difficult to grasp. Moreover, many do not translate into adverbs in English. The role these parts of speech play in adding flavor to the Japanese language is invaluable. This handy reference manual introduces the basic (and basics of) adjectives and adverbs in a clear and sensible way, enabling students not only to speak Japanese but to do it with pizzazz. The book is divided roughly in half, the first half dealing with adjectives, the second with adverbs. Each is prefaced by a short introduction that serves as an overview of the material introduced. The section on adjectives is divided into two parts: Part 1 covers the conjugations of i- and

na-adjectives and some basic auxiliary adjectives, and Part 2 presents common sentence patterns in which adjectives appear. The adverb section is arranged by topic. Among the types of adverbs explained here are those used to express time, quantity, degree, circumstance, and natural sounds or actions (the ubiquitous onomatopoeic adverbs). Each entry in this book is given a simple, concise English explanation and two or more example sentences to illustrate its usage. Exercises every few pages enable students to measure their understanding. Finally, a number of quick-reference lists in the appendixes provide a convenient means of recalling and building vocabulary. Together with its sister publication, *The Handbook of Japanese Verbs*, this unique manual is

certain to provide years of friendly guidance.

A Linguistic Introduction Cornell East Asia Series

Emerging from materials the author developed while teaching, *A Handbook to Classical Japanese* draws on twenty-five years of experience in addressing problem areas for those learning the language. The work deals with the central issue of classical language, namely, 'verb'-endings: specifically, the endings of verbs, verbal adjectives, pseudo-adjectives, and verb-suffixes. The Handbook treats the issue systematically, presenting 670 real-language examples, nearly 400 of which are discretely different quotations. The work's extensive Introduction walks the reader through key problem areas, with

sections on Which Verbs Belong to Which Conjugation? How to 'Unpack' Bungo Verbs, Nari Headaches, Namu/nan Trouble, Items Easily Confused: Apparent Ambiguity, Respect Language, and the like. The body of the Handbook, with its hundreds of examples, serves as a kind of reader; thirty-two verb-suffixes are illustrated in all of their forms or functions (with at least two examples of each). The book's seven appendices introduce a wide range of Western-language material, including comprehensive information about other translations into English, French, German, and Spanish of all texts cited--especially helpful for potential comparative translation study. For those unfamiliar with the topic, the section on Orthography is a model of clarity.

Throughout the Handbook, highlighted items in Japanese are printed in bright red and their romanization in dark-black small capitals, to repeat and reinforce material at both conscious and unconscious levels via complementary graphic features. The volume can be used as an introduction to classical Japanese, an initial textbook, a companion text, a review text, and/or a reference work.

A Comprehensive Guide to Contemporary Usage: Learn Japanese Grammar and Vocabulary Quickly and Effectively Oxford

University Press

A two-volume introduction to written and spoken Japanese, comprising fifty-two lessons with exercises and vocabularies. Handbook of Japanese Syntax

Cambridge University Press

The Complete Japanese Verb Guide is a handy, easy-to-use guide to one of the building blocks of language learning—verbs. To effectively learn Japanese, a strong knowledge of Japanese grammar and vocabulary is needed. This book will come to the rescue as it shows learners how to conjugate the 600 most common Japanese verbs quickly, and with very little effort. This is the only guide to list all verb forms in both Japanese script and romanized form, while giving an accurate English translation for each conjugated form, making this book far more comprehensive than any other book on the subject. Compiled by Japanese language experts at The Hiro Japanese Center, more than 30 different

verbal forms are given for each verb including all forms used in contemporary spoken, written, formal and conversational Japanese—making this the ideal reference when reading any sort of Japanese printed materials including manga, newspapers, magazines and books. The Complete Japanese Verb Guide places an expert resource at your fingertips, giving you the information you need to speak, read, and write Japanese sentences correctly. Key features of this book are: Includes all the most useful verbs and Kanji (logographic Chinese characters) in Japanese, including less common ones. A wealth of example sentences are given to demonstrate correct verb usage. Over 30 forms are given for each verb including polite or formal, plain,

negative, potential, conditional, passive, causative, and many more. Both Kana, Japanese script, and romanized forms are given for each entry. An ideal study guide for the standard Advanced Placement college test and the Japanese Language Proficiency Exam. Special sections are devoted to compound verbs and suru verbs such as Kaimono suru (to shop), benkyo suru (to study), and much more.

John Wiley & Sons

This handbook offers firsthand knowledge about Ainu, the only non-Japonic language of Japan and a lone witness to earlier cultures in Japan. Revolving around but not confined to its polysynthetic character, Ainu manifests many typologically interesting phenomena, in particular the

combinability of various voice markers and noun incorporation. This book will open the field of Ainu studies to the world and help to attract many new students.

12 Essential Sentence Patterns for Everyday Communication (Online Audio) Walter de Gruyter GmbH & Co KG

This is a clear simple and compact guide to colloquial, everyday Japanese grammar. Basic Japanese Grammar teaches all the grammar you need to speak Japanese and understand simple spoken Japanese. Covering what is essential, it provides an efficient way for learners who have limited time to learn Japanese and begin to communicate naturally with Japanese speakers. It is intended for self-study or classroom use.

It offers a practical course in colloquial Japanese but leaves aside forms that are unnecessary or little used as well as those that are more important for written Japanese. In short chapters, it helps the user understand the logic of Japanese grammar, while its straightforward explanations and clear examples make learning as easy as possible. The grammar section includes a glossary of grammatical terms and an index, as well as appendixes on Japanese pronunciation and verb conjugation. All Japanese words and phrases are written in Kanji and Kana (Hiragana and Katakana) as well as Romanized Japanese (Romanji) and English. Explanations are given in English.

The Cambridge Handbook of Japanese

Linguistics Tuttle Publishing

This extensive and thorough explanation of crucial Japanese grammar in English is the culmination of years of teaching and research. Informed by the work of eminent linguist Susumu Kuno, *Fundamentals of Japanese Grammar* is designed for students who have studied basic Japanese grammar and wish to better organize their knowledge and expand it in greater depth and at a higher level. Its organization presents a holistic picture of Japanese grammar for the benefit of learners and is distinctive in that grammar items are reorganized in terms of specific grammatical categories, such as particles, te-form compounds, dictionary-form compounds, stem-form compounds, passive constructions, conditional sentences,

and so forth. The author offers a thorough discussion of various pragmatic constraints illustrated with sample sentences, dialogues, and essays that aid in understanding the structure and use of the language from a cultural perspective. Given its comprehensive treatment, this accessible grammar will appeal to anyone involved or interested in the Japanese language. It will be especially effective as a text in courses on Japanese linguistics and pedagogical syntax and a valuable source of Japanese grammar for linguists and educators as well as researchers in Japan-related fields.

The Handbook of Japanese Verbs (Starter Edition) Routledge

My guide to Japanese grammar has been helping people learn Japanese as it's

really spoken in Japan for many years. If you find yourself frustrated that you can't understand Japanese movies or books despite having taken Japanese classes, then this book is for you. It will help you finally understand those pesky particles and break down grammatical concepts that will allow you to comprehend anything from simple to very complex sentences. You will also learn Japanese that's spoken by real people including casual speech patterns and slang, stuff that's often left out in most textbooks. Don't take my word for it, just check out my website and order this book to have it handy wherever you go.

Essential Japanese Grammar is an

indispensable study guide for students of the Japanese language at all levels. Long the standard in Japanese language education, it provides clear, jargon-free explanations of how Japanese grammar works and offers hundreds of example sentences. It is an essential handbook for self-study or the classroom and should be a valued resource for years to come. A strong foundation in grammar is vital to those wishing to learn Japanese as a whole. Essential Japanese Grammar presents many unique features. First, grammatical terminology has been kept to a minimum so that extensive prior knowledge of grammar is not required. Second, abundant example sentences are written in Japanese characters (kana and kanji) followed by romanji and English translations. Third, the authors

have tried to reveal aspects of grammar that may not be found in comparable grammar books such as rare Japanese verbs, adjectival nouns, clauses adverbs, etc. This Japanese grammar book contains: parts of speech. sentence constructions. conjugations forms. speech styles and tones. accentuation rules. essential words and functional elements. an appendix for referencing and cross-referencing Japanese words.

A Self-Study Course and Reference

Tuttle Publishing

Students of Japanese are familiar with the term "particle," and realize that they, like English prepositions, require a special effort to master. This handbook provides all the information one would need on these tricky units of grammar. All About Particles covers more than 70

particles those that are used regularly as well as those used less frequently in more than 200 uses. The book can be approached as a guiding textbook and studied from beginning to end. It is as a reference book, however, that All About Particles shines. It is light and easy to carry, slim enough to fit into the corner of a shoulder bag, and concise enough to quickly clarify particle-related questions. It is a priceless tool for any serious student of Japanese.

Routledge

Over the past twenty years or so, the work on Japanese within generative grammar has shifted from primarily using contemporary theory to describe Japanese to contributing directly to general theory, on top of producing extensive analyses of the language. The Oxford Handbook of Japanese Linguistics captures the excitement that comes from answering the question, "What can Japanese say about Universal Grammar?" Each of the eighteen chapters takes up a topic in syntax,

morphology, acquisition, processing, phonology, or information structure, and, first of all, lays out the core data, followed by critical discussion of the various approaches found in the literature. Each chapter ends with a section on how the study of the particular phenomenon in Japanese contributes to our knowledge of general linguistic theory. This book will be useful to students and scholars of linguistics who are interested in the latest studies on one of the most extensively studied languages within generative grammar. Comprehensive Acquisition Vertical Inc Dictionary of Intermediate Japanese Grammar arranged in dictionary format and accompanied by rich example sentences that will help students of this book be able to acquire the necessary

Basic Japanese: A Grammar and Workbook comprises an accessible reference grammar and related exercises in a single volume. This book presents 25 individual grammar points, covering the core material which students would expect to encounter in their first year of learning Japanese. Divided into two parts, the first part outlines fundamental components of Japanese including the writing system, pronunciation, word order, particles and conjugation patterns, while the second part builds on this foundation by introducing basic grammatical patterns organised by the task they achieve.

Grammar points are followed by contextualised examples and exercises which allow students to reinforce and consolidate their learning. Key features include: clear, accessible format many useful language examples transliteration of all examples jargon-free explanations of grammar abundant exercises with full

answer key subject index. Basic Japanese is suitable both for class use and independent study making it an ideal grammar reference and practice resource for both beginners and students with some knowledge of the language.
